Firesafety Inspector II TASK BOOK

Demonstrates the ability to investigate complex complaints and record any evident issues as it relates to codes and ordinances, including resolution. (5.2.3, 7.2.3)		
Demonstrates the ability to provide modifications to adopted codes and local ordinances, that address a problem, need, or deficiency identifying cost/risk benefits. (5.2.4;7.2.4)		
Demonstrates the ability to work with management in development of policies and procedures that relate to life safety regulations. (5.2.5;7.3.8)		
Field Inspections:		
Demonstrates the ability to identify occupancy classification of multi-use building, given a description of uses, operational features, and fire hazards presented. (5.3.2; 7.3.2)		
Demonstrates the ability to calculate the allowable occupant load of a given business, based on use in accordance with codes and local ordinances. (5.4.2; 7.3.4)		
Demonstrates the ability to identify characteristics of each type of building construction and occupancy classification. (5.4.6; 7.3.3)		
Demonstrates the ability to evaluate fire protection systems and equipment provided for life safety and property protection. (5.3.4; 7.3.10)		
Demonstrates knowledge of applicable codes for fire protection systems as it relates to hazards due to construction and occupancy. This includes maintenance and testing of systems. (5.4.3 ;7.3.10)		
Demonstrates the ability to calculate egress requirements, read plans, and make determination of adequate egress requirements. (5.3.5; 7.3.5)		
Demonstrates the ability to evaluate emergency planning and the components for building evacuation, sheltering of occupants in place, and securing occupants from inside/outside threats. (5.3.7; 7.3.7)		
Plans review:		
Demonstrates the ability to classify occupancy based on a set of plans, specifications, and description of a building.(5.4.1; 7.3.2)		
Demonstrates the ability to evaluate and test proper selection, distribution, and location of portable fire extinguishers, standpipe systems, and automatic sprinkler systems. (5.4.4; 5.4.5. 7.3.10)		
Demonstrates the ability to verify that means of egress elements are provided, given a floor plan of a building, so that elements are		

Firesafety Inspector II TASK BOOK

identified and checked against applicable codes and standards. (5.4.5; 7.3.5)			
Demonstrates ability to evaluate a building's construction features, occupancy, fire protection systems and equipment, and hazardous conditions by determining maximum allowable occupant load, to assure it meets codes and standards (plans review and observations). (5.3.1, 5.3.3, 5.3.4)			
Evaluate hazardous conditions involving equipment and verify code compliance for storage, handling, and use of flammable and combustible liquids and gases, and hazardous materials assuring applicable codes and standards are followed, deficiencies noted and documented, and compliance is determined. (5.3.6, 5.3.8, 5.3.9)			
Demonstrates ability to determine fire growth potential in a building or space evaluating for compliance and identifying, document, and correcting deficiencies. (5.3.10)			
Demonstrates ability to review performance- based design construction documents for compliance in installation, inspection and testing according to engineering documents and maintenance manuals. (5.3.11)			
Demonstrates ability to verify code compliance of HVAC and other building service equipment and operations. (5.3.12)
