CROSSWALK – SECTION 29.0085, F.S. REPORT TO CORRESPONDING ACCOUNT CODES.....	170
INDEX	172

Introduction

Section 218.33, Florida Statutes (F.S.), states “Each local governmental entity shall follow uniform accounting practices and procedures as promulgated by rule of the department to assure the use of proper accounting and fiscal management by such units. Such rule shall include a uniform classification of accounts.” Additionally, Section 218.32, F.S., requires that each local government reporting entity submit annual financial information to the Department of Financial Services.

The Department of Financial Services, assisted by representatives of various local governments, developed the Uniform Accounting System Chart of Accounts to be used as the standard for recording and reporting financial information to the State of Florida. Implementation of the standard Chart of Accounts and Standard Annual Reporting Form began in 1978. Since then, there have been minor changes and updates to the Chart of Accounts and the Annual Reporting Form.

As mandated by Section 218.33, F.S., reporting units should use this chart of accounts as an integral part of their accounting system so that the preparation of their annual financial reports will be consistent with other local reporting entities. This does not preclude local entities from maintaining more detailed records for their own use.

Fund Classification

In accordance with generally accepted principles, governmental accounting systems are organized and operated on a fund basis. However, due to the inflexibility, complexity and expense involved in the administration of a large number of funds, only a minimum number consistent with legal and operational requirements should be established by the local unit. Separate bank accounts are not necessary for funds. Centralized bank accounts which are reconciled to separate cash statements for each fund will maintain cash control over each fund.

The classification of funds shown below is required to be used by all reporting entities. The coding scheme that is provided with the classification of funds is optional and may be altered to meet the specific needs of the reporting entities. For example, if a reporting entity has less than ten funds of any one type, a two-digit fund number may be used.

The coding scheme allows for up to 99 different funds in each type. The general fund category, however, allows for only one fund, coded as 001. This coding system allows the data in each fund to be “rolled up” or combined with every other fund of that category. For example, if a reporting entity maintains 23 special revenue funds numbered 101 to 123, these funds may be combined for reporting purposes into one control category, “100” - special revenue funds.

In the context of the Uniform Accounting System, a fund may be defined as an independent fiscal and accounting entity consisting of a self-balancing set of accounts for recording cash and/or other assets together with related liabilities, reserves and equities segregated for the purpose of carrying on specific activities or attaining certain objectives in accordance with certain defined regulations, restrictions and limitations.

Fund Groups and Fund Types

Category	Fund Group	Fund Types	Title	Description
Governmental	001	001	General Fund	To account for all financial resources not accounted for and reported in another fund.
	050	051-099	Permanent Funds	To account for resources that are restricted to the extent that only earnings, and not principal, may be used for purposes that support the reporting government's programs – that is, for the benefit of the government or its citizens.
	100	101-199	Special Revenue Funds	To account for the proceeds of specific revenue sources that are restricted or committed to expenditure for specified purposes other than debt service or capital projects.
	200	201-299	Debt Service Funds	To account for financial resources that are restricted, committed, or assigned to expenditure for principal and interest.
	300	301-399	Capital Projects Funds	To account for financial resources that are restricted, committed, or assigned to expenditure for capital outlays.
Proprietary	400	401-499	Enterprise Funds	To account for operations (a) that are financed and operated in a manner similar to private business enterprises--where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (b) where the governing body has decided that periodic determination of revenues earned, expenses incurred and/or net income is appropriate for capital maintenance, public policy, management control, accountability or other purposes.
	500	501-599	Internal Service Funds	To account for the financing of goods or services provided by one department or agency to other departments or agencies of the governmental unit, or to other governmental units, on a cost-reimbursement basis.

Fiduciary	600	601-649	Custodial Funds	To account for assets held by a government in a purely custodial capacity.
	650	651-699	Pension Trust Funds	To account for assets of defined pension plans, defined contribution plans, other post-employment benefit plans, other employee benefit plans or other employee benefit plans held by a government in a trustee capacity.
	700	701-749	Investment Trust Funds	To account for external portion of investment pools (including individual investment accounts) reported by the sponsoring government.
	750	751-799	Private Purpose Trust Funds	To account for trust arrangements including escheat property, were principal and income benefit individuals, private organizations or other governments.
Revolving & Clearing	800	801-899	Revolving Funds / Clearing Funds	These types of accounts are set up to receive and disburse monies for other funds. They are not true funds in the sense of being an accounting entity and would not appear separately in the financial statements. Any assets or liabilities remaining in a clearing account at the balance sheet date will be reported on the financial statements of the fund serviced by the clearing fund (general, special revenue, etc.).

Balance Sheet Accounts

Balance Sheet Account Introduction

The following list of balance sheet accounts represents the reporting level. More detailed classifications may be made by the reporting entity within the accounts listed.

The first four digits of the six-digit balance sheet account code are required. The remaining digits may be assigned at the discretion of the reporting entity.

The balance sheet accounts are arranged into two major groups: (1) Assets, Other Debits and Deferred Outflow and, (2) Liabilities, Other Credits and Deferred Inflow. However, there are accounts with credit balances included in the Assets and Other Debits category in order to present the accounts in typical balance sheet order. For example, Account 163, Accumulated Depreciation- Buildings, appears among the assets even though it has a credit balance, because on the balance sheet it usually follows Account 162, Buildings.

CAPITAL ASSETS

161.900 LAND

A fixed asset account, which reflects the acquisition cost of land owned by a reporting entity. If land is purchased, this account includes the purchase price and costs such as legal fees, filing and excavation costs and the like which are incurred to put the land in condition for its intended use. If land is acquired by gift, the account reflects its appraised value at the time of acquisition.

Eligible Entities include: All Local Government Entities

GASB Statement 34

162.900 BUILDINGS

A fixed asset account, which reflects the acquisition cost of permanent structures used to house persons and property owned by the reporting entity. If buildings are purchased or constructed, this account includes the purchase or contract price of all permanent buildings and fixtures attached to and forming a permanent part of such buildings. If buildings are acquired by gift, the account reflects their appraised value at the time of acquisition.

Eligible Entities include: All Local Government Entities

GASB Statement 34

163.900 ACCUMULATED DEPRECIATION BUILDINGS (CREDIT)

The accumulation of periodic credits made to record the expiration in the service life of buildings, which is attributable to wear and tear through use, and the lapse of time, obsolescence, inadequacy or other physical or functional cause. This account is shown in the balance sheets of enterprise and internal service funds as a deduction from Buildings in order to arrive at the net book value of buildings. Buildings carried in the accounts of trust and agency funds may or may not be depreciated depending on the conditions prevailing in each case.

Eligible Entities include: All Local Government Entities

GASB Statement 34

164.900 INFRASTRUCTURE

The acquisition cost of permanent improvements, other than buildings, which add value to the land. These improvements consist of capital expenditures such as roads, bridges, streets, sidewalks, curbs, gutters, drainage systems, and outdoor lighting systems.

These assets are normally immovable and of value to the local government. Therefore, it is the reporting entity's option whether such assets are recorded in the general fixed assets.

Eligible Entities include: All Local Government Entities

GASB Statements 34 and 62

165.900 ACCUMULATED DEPRECIATION - INFRASTRUCTURE (CREDIT)

This account is of the same nature and is used in the same manner as the account 163.900, Accumulated Depreciation-Buildings.

 Eligible Entities include: All Local Government Entities

280.00 FUND BALANCE – NONSPENDABLE

No spendable fund balance includes amounts that are not in a spendable form (inventory, for example) or are required, either legally or contractually, to be maintained intact (i.e. the principal of an endowment fund).

- Inventories
- Prepaid Items
- Long-Term Loans and Notes Receivable
- Corpus of a Permanent Fund

 Eligible Entities include: All Local Government Entities

 GASB Statement 54

281.000 FUND BALANCE – RESTRICTED

Restricted fund balance includes amounts that can be spent only for the specific purposes stipulated by external resource providers (i.e., grant providers, creditors, contributors, or laws or regulations of other governmental entities), constitutionally, or through enabling legislation (that is, legislation that creates a new revenue source and restricts its use). Effectively, restrictions may be changed or lifted only with the consent of resource providers.

 Eligible Entities include: All Local Government Entities

 GASB Statement 54

282.000 FUND BALANCE – COMMITTED

Committed fund balance includes amounts that can be used only for the specific purposes determined by a formal action of the government’s highest level of decision- making authority. Commitments may be changed or lifted only by the government taking the same formal action that imposed the constraint originally (i.e. legislation, resolution, or ordinance). Contractual obligations should be incorporated to the extent that existing resources in the fund have been specifically committed for use in satisfying those contractual obligations. Encumbrances approved by action of the highest decision-making authority (board approved construction contract with XYZ company) should be reported as committed.

 Eligible Entities include: All Local Government Entities

 GASB Statement 54

283.000 FUND BALANCE – ASSIGNED

Assigned fund balance comprises amounts *intended* to be used by the government for specific purposes. Intent can be expressed by the governing body or by an official or body to which the governing body delegates the authority. In governmental funds other than the general fund, assigned fund balance represents the amount that is not restricted or committed. This indicates that resources in other governmental funds are, at a minimum, intended to be used for the purpose of that fund. An appropriation of existing fund balance to eliminate a projected budgetary deficit in the subsequent year’s budget in an amount no greater than the projected excess of expected expenditures over expected revenues satisfies the criteria to be classified as an assignment of fund balance. Encumbrances resulting from issuing purchase orders as a result of normal purchasing activities approved by appropriate officials should be reported as assigned.

Eligible Entities include: All Local Government Entities

GASB Statement 54

284.000 FUND BALANCE – UNASSIGNED

Unassigned fund balance is the residual classification for the general fund and includes all amounts not contained in the other classifications. Unassigned amounts are technically available for any purpose. If another governmental fund has a fund balance deficit, then it will be reported as a negative amount in the unassigned classification in that fund. Positive unassigned amounts will be reported only in the general fund.

Eligible Entities include: All Local Government Entities

312.130 TOURIST DEVELOPMENT TAXES

There are six types of tourist development taxes. Current law authorizes five separate tourist development taxes on transient rental transactions. Depending on a county's eligibility to levy, the maximum tax rate varies from a minimum of 3 percent to a maximum of 6 percent. The levies may be authorized by vote of the county's governing body or referendum approval. Generally, the revenues may be used for capital construction of tourist-related facilities, tourist promotion, and beach and shoreline maintenance; however, the authorized uses vary according to the particular levy.

- ② Eligible Entities include: All Counties; Atlantic Beach, Baldwin, Jacksonville Beach, and Neptune Beach

Exceptions:

Any county may levy and impose a tourist development tax on the exercise within its boundaries of the taxable privilege except there cannot be any additional levy of a tourist development tax in any municipalities presently imposing the Municipal Resort Tax (see above). Additionally, no county authorized to levy any of the convention development taxes shall be allowed to levy more than 2 percent of tourist development tax. However, this second limitation does not apply to a county's levy of the Professional Sports Franchise Facility Tax and Duval County's levy of the Additional Professional Sports Franchise Facility Tax.

312.410 **FIRST LOCAL OPTION FUEL TAX (1 to 6 Cents Local Option Fuel Tax)**

The First Local Option Fuel Tax is a tax of up to 6 cents on every net gallon of motor fuel. It is a county-imposed tax for the purpose of paying the cost of establishing, operating and maintaining a transportation system and related facilities and the cost of acquisition, construction, reconstruction and maintenance of roads and streets. The tax is levied by Counties but may be shared with municipalities located within the county. The tax is automatically imposed on diesel fuel at the maximum rate of 6 cents in all counties because of statewide equalization. Therefore, each county receives the tax revenues associated with that levy regardless of whether the county is levying the tax on motor fuel.

 Eligible Entities include: All Counties and Municipalities

LOCAL BUSINESS TAXES

316.000 LOCAL BUSINESS TAX (Formerly Local Occupational License Tax – 321.000)

The local business tax represents the fees charged and the method by which a local government authority grants the privilege of engaging in or managing any business, profession, and occupation within its jurisdiction. Counties and municipalities may levy a business tax, and the tax proceeds are considered general revenue for the local government. This tax does not refer to any fees or licenses paid to any board, commission, or officer for permits, registration, examination, or inspection.⁴

This account code was added in Fiscal Year 2007-2008 when a Prior Session reclassified Occupational Licenses (321.000) as Local Business Taxes.

319.300 MUNICIPAL PARKING FACILITY SPACE SURCHARGES

Certain municipalities are authorized to impose and collect parking facility space surcharges. These discretionary per-vehicle surcharges are calculated as a percentage of the amounts charged for the sale, lease, or rental of space at municipal parking facilities that are open to the public. The proceeds are used to reduce the municipality's ad valorem tax millage rate, eliminate non-ad valorem assessments, or improve transportation in downtown or urban core areas. The surcharge shall be up to 15 percent of the amount charged for the sale, lease, or rental of space at municipal parking facilities that are open for use to the general public and which are not airports, seaports, county administration buildings, or other projects as defined under Sections 125.011 and 125.015, F.S.

- ② Eligible Entities include: The governing body of any municipality with a population of 200,000 or more, more than 20 percent of the real property of which is exempt from ad valorem taxation, and which is located in a county having a population greater than 500,000 may impose and collect, subject to referendum approval by voters in the municipality, a discretionary per-vehicle surcharge. Based on April 1, 2006, official population estimates, only six municipalities (i.e., **Hialeah, Jacksonville, Miami, Orlando, Saint Petersburg, and Tampa**) had a population of 200,000 or more and were located in a county having a population greater than 500,000. Currently, it is not known which of these six municipalities have more than 20 percent of its real property exempt from ad valorem taxation and impose the surcharge.

PERMITS, FEES, AND SPECIAL ASSESSMENTS

Under Florida’s Constitution, local governments possess strong home rule powers. Given these powers, local governments may utilize a variety of revenue sources for funding services and improvements without express statutory authorization. Franchise fees, impact fees, special assessments, and user fees are examples of these home rule revenue sources.

In implementing fee programs and special assessments, a local government’s goal is to create an assessment or fee that avoids classification as a tax by the courts. If an assessment or fee does not meet the case law requirements and is classified as a tax, then the local government must have general law authorization for its imposition.

Special assessments and taxes are distinguishable because no requirement exists that taxes provide a specific benefit to property. Taxes are levied for the general benefit of residents and property. As established in Florida case law, two requirements exist for the imposition of a valid special assessment. First, the property assessed must derive a special benefit from the improvement or service provided; and second, the assessment must be fairly and reasonably apportioned among the properties that receive the special benefit.

A special assessment may provide funding for either capital expenditures or the operational costs of services, provided that the property that is subject to the assessment derives a special benefit from the improvement or service. Examples of assessed services and improvements upheld by Florida courts include garbage disposal, sewer improvements, fire protection, fire and rescue services, street improvements, parking facilities, downtown redevelopment, storm water management services, and water and sewer line extensions.

Florida’s local governments possess the home rule authority to impose a variety of proprietary and regulatory fees to pay the cost of providing a service or facility or regulating an activity. Proprietary fees are imposed pursuant to the assertion of a local government’s exclusive right. Examples of such proprietary fees include franchise fees, user fees, and utility fees. Regulatory fees are imposed under the police power in the exercise of a local government’s sovereign power. Examples of such regulatory fees include building permit fees, impact fees, inspection fees, and storm water fees. The underlying premise for both types of fees is that local governments may charge, in a reasonable and equitable manner, for the facilities and services they provide or regulate.

In summary, the exercise of home rule powers by local governments is constrained by whether an inconsistent provision or outright prohibition exists in the constitution, general law, or special law regarding the power at issue. Counties and municipalities cannot levy a tax without express statutory authorization because the constitution specifically prevents them from doing so. However, local governments may levy fees and special assessments absent any general law prohibition provided the fee or assessment meets the relevant legal sufficiency tests.

PERMITS

322.000 **BUILDING PERMITS (Building Permit Fees)**

Under Florida’s Constitution, local governments possess home rule powers and may therefore utilize a variety of revenue sources for funding services and improvements without express statutory authorization. Building Permit Fees are a type of regulatory fee imposed pursuant to the local government’s police powers in the exercise of its sovereign functions. The imposed fee cannot exceed the cost of the regulatory activity, and the fee is generally required to be applied solely to pay the cost of the regulatory activity for which it is imposed.

FRANCHISE FEES

Franchise Fees are a type of proprietary fee imposed based on the assertion that local governments have the exclusive legal right to impose such fees. The imposed fee must be reasonable in relation to the privilege or service provided by the local government, or the fee payer receives a special benefit from the local government. Local governments may impose a fee upon a utility for the grant of a franchise and the privilege of using local government's rights-of-way to conduct the utility business. This franchise fee is considered fair rent for the use of such rights-of-way and consideration for the local government's agreement not to provide competing utility services during the franchise term. Dwelling & Schedule Policy for Impact Fees Classification Introduction

Section 163.31801(13), Florida Statutes (F.S.), states “In addition to the items that must be reported in the annual financial reports under s. 218.32, a county, municipality, or special district must report all of the following data on all impact fees charged:

- (a) The specific purpose of the impact fee, including the specific infrastructure needs to be met, including, but not limited to, transportation, parks, water, sewer, and schools.
- (b) The impact fee schedule policy describing the method of calculating impact fees, such as flat fees, tiered scales based on number of bedrooms, or tiered scales based on square footage.
- (c) The amount assessed for each purpose and for each type of dwelling.
- (d) The total amount of impact fees charged by type of dwelling.
- (e) Each exception and waiver provided for construction or development of housing that is affordable.”

All counties, cities, and special districts are required to use the codes for dwellings and schedule policies as outlined below in addition to the Impact Fee codes when reporting the AFR to the Department of Financial Services in order to meet the new requirements as outlined in 163.31801(13), F.S. beginning reporting year FY 2019-2020.

GENERAL GOVERNMENT

335.121 COUNTY REVENUE SHARING PROGRAM - PROCEEDS

The Florida Revenue Sharing Act of 1972 was a major attempt by the Legislature to ensure a minimum level of revenue parity across units of local government. An allocation formula is used to distribute 2.9 percent of net cigarette tax collections and 2.044 percent of sales and use tax collections among the qualifying counties. County population, unincorporated county population, and county sales tax collections are used in the formula to determine each county's portion.

 Eligible Entities include: All Counties

STATE REVENUE SHARING – INSURANCE LICENSE TAX (AKA INSURANCE AGENTS COUNTY LICENSES)

County governments receive proceeds from an annual license tax on the original appointment and renewal of insurance representatives and agents selling various types of insurance products. The county tax portion is either \$6 or \$12 per original appointment or renewal. The county tax shall be paid by each insurer for each agent only for the county where the agent resides. If the agent’s place of business is located in a county other than that of residence, then the county tax is paid based on where the place of business is located. If an agent maintains a place of business in more than one county, the county tax shall be paid by each insurer for each county where the agent represents the insurer and has a place of business. A county tax of \$3 per year shall be paid by each insurer for each county in this state in which an agent who resides outside of this state represents and engages in person in the activities of an agent for the insurer.

Municipal governments may also require a tax on insurance agents not to exceed 50 percent of the applicable state tax. This tax may apply only to those agents having business offices within the municipal jurisdiction. If no such office is required, the tax may be required by the municipal government where the agent’s place of residence is located. An authorized use of the proceeds of the county or municipal tax is not specified in current law.

 Eligible Entities include: All Counties and All Municipalities

A county government will receive proceeds if an agent does business within the county or has a business office located within the county.

A municipal government may receive proceeds if an agent’s office is located within the municipal jurisdiction or the agent’s place of residence is located within the municipal jurisdiction if no office is required.

335.220 STATE REVENUE SHARING – ENHANCED 911 FEE (Formerly Wireless 911 Board Distributions)

This account code was added FY 2007-2008. Chapter 2007-78 L.O.F., merges the Wireline 911 Plan for landline telecommunications companies and the Wireless Emergency Communications Act under the name of Enhanced 911 Fee. The legislation creates the Enhanced 911 Board to oversee expenditure use.

Each voice communications services provider shall collect an Enhanced 911 (E911) Fee monthly from service subscribers. The fee rate shall be set, and may subsequently be adjusted, by the E911 Board, but may not exceed 50 cents per month per each service identifier. The intent of the fee is to provide funds to county governments to pay certain costs associated with their 911 or E911 systems and to reimburse wireless telephone service providers for costs incurred to provide 911 or E911 systems.

Expenditure/Expense Accounts

Expenditure/Expense Account Introduction

Expenditures are defined in a governmental fund accounting context as all decreases in fund net assets- for current operations, capital outlay or debt service - except those arising from operating and residual equity transfers to other funds.

Expenditures are classified by fund, organizational unit, function, activity and object. Furthermore, it is the intent of the Legislature that units of local government summarize their financial data in a functionally equivalent manner in order to facilitate comparison and analysis. The classification of expenditures has been developed to fulfill this requirement and to meet the external and internal reporting needs of local governments.

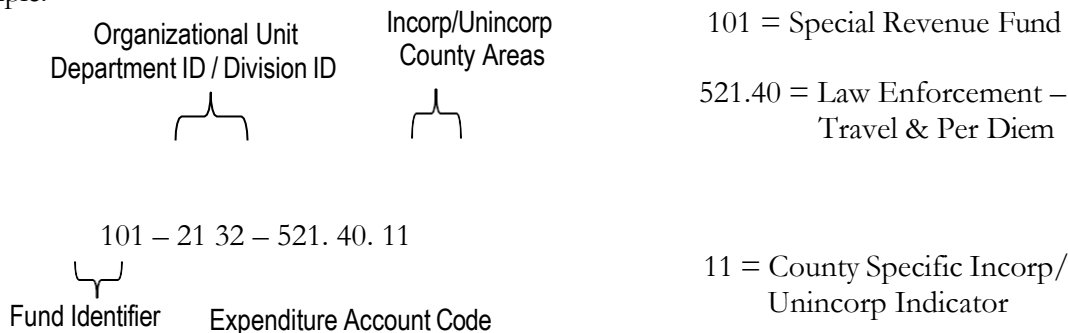

The Uniform Accounting System provides an expenditure code consisting of twelve digits, three for the fund, four for the identification of department and division and five to identify the transaction and other specific information.

Example: Organizational Unit Department ID / Division ID

Section 129.01, F.S., requires all counties to separate expenditures between the incorporated and unincorporated areas of the county. To provide a mechanism to make this separation, a one- or two-digit code is added to the expenditure accounts for all counties. A one-digit code provides a code for each area when there are nine or fewer areas. If there are more than nine and less than ninety- nine areas, a two-digit code is necessary.

Example:

So, counties must use a fourteen-digit expenditure/expense account code if it includes both incorporated and unincorporated areas while all other local government entities must use a twelve-digit account code. The Uniform Accounting System does not provide the cost allocation system, which is necessary to make the required separation of expenditures between the incorporated and unincorporated areas. A cost allocation system will have to be developed individually for each county to provide reasonably accurate separation of expenditures in satisfying the requirements of Chapter 129, F.S.

EXPENDITURES/EXPENSES

The term “expenditures,” whether used in connection with the accrual or the modified accrual basis of accounting, denotes the cost of goods delivered or services rendered (whether paid or unpaid) including expenses, capital outlays and the provisions for debt retirement where such debt is not reported as a liability of the fund from which it was retired. Each expenditure should be analyzed and classified individually by transaction code, and object regardless of the organizational unit incurring it. Cost allocation may be necessary where material amounts of expenditures for a single organization unit cross function-activity lines.

Appendix A

Budgetary Financial Reporting and Disclosure Guidelines

1. Chapter 129, F.S., establishes guidelines for the preparation, adoption and amendment of county budgets. Section 129.01(1), F.S., requires the preparation, approval, adoption and execution of an annual budget, which controls the levy of taxes and the expenditure of money for all county purposes. The budget must be balanced; that is, the total of the estimated receipts, including balances brought forward, must equal the total of appropriations and reserves. Similar provisions are included in Sections 166.241(2) and 189.418(3), F.S., for municipalities and special districts, respectively.
2. Pursuant to Governmental Accounting Standards Board (GASB) Codification Section 2400.102, local governmental entity financial statements prepared in accordance with Section 218.39(2), F.S., must include a Statement of Revenues, Expenditures and Changes in Fund Balance - Budget and Actual for all governmental fund types for which annual budgets have been adopted pursuant to Sections 129.01(2)(b), 166.241(2), and 189.418(3), F.S. The minimum budget-basis presentation required for the financial statements is the aggregation by fund type of the appropriated budget adopted by the local governmental entity's governing body.
3. GASB Codification Section 2400.111 states that for budgetary reporting purposes it is desirable to provide note disclosure of the degree to which the reporting entity's financial operations are subject to a comprehensive "appropriated budget," "non-appropriated budget," or are non-budgeted financial activities. Accordingly, local governmental entity financial statements prepared in accordance with Section 218.39(2), F.S., should include notes to financial statements, which disclose both the legal level of budgetary control and, if applicable, more detailed levels of budgetary control established for management purposes. The legal level of budgetary control is the level of control established in the appropriated budget approved by the local governmental entity's governing body.
4. GASB Codification Section 2300.106h requires that the notes to the financial statements disclose material violations of finance-related legal and contractual provisions. If budget over-expenditures occur at the legal level of budgetary control that are material in relation to a local governmental entity's financial statements prepared in accordance with Section 218.39(2), F.S., the notes to financial statements should disclose that such budget expenditures are contrary to law.
5. GASB Codification Section 2300.106n requires that the notes to the financial statements disclose any excess of expenditures over appropriations in individual funds. If budget over-expenditures occur at the legal level of budgetary control in individual funds that are not apparent from a local governmental entity's financial statements prepared in accordance with

Section 218.39(2), F.S., the notes to the financial statements should disclose the budget over-expenditure amounts by individual fund.
