### nstructions:

Any proprietary fund (SWGF=50 or 60) with balances in capital asset accounts (GLs 26XXX, 27XXX, & 28XXX) should have a related restriction recorded in GL 536XX, Net Investment in Capital Assets. The estriction is reduced by related debt, whether the debt is reported in the same fund as the asset(s) or in different fund(s).

Detail the amounts recorded in GL 536XX. List the capital assets for which the restriction was recorded and any long-term debt related to the capital assets. Do NOT list unrelated long-term debt or the unspent portion of debt issued for acquiring capital assets. The net amount of capital assets (deducting depreciation) less he amount of related debt, should equal the absolute value of GL 536XX. GL 536XX should not have an atypical (debit) balance. If the capital assets, related debt, and restriction are recorded in multiple, related funds. list the fund numbers for each GL balance.

Revolving funds properly recorded by agency closing date.

At year end (June 30), the following amounts are the only general ledger balances that should remain in a revolving fund established from General Revenue:

|             |                             | Debit | Credit |
|-------------|-----------------------------|-------|--------|
| 111XX or 13 | L2XX Cash (approved amount) | XXX   |        |
| 451XX       | Advances from Other Funds   |       | XXX    |

Revolving Fund Established from a Trust Fund:

Ensure that amounts are not double reported in the source fund and in the revolving fund (i.e., cash).

At year end (June 30), the following general ledger codes should have 0.00 balances:

- GL 168XX, Due from Revolving Funds
- GL 358XX, Due To Revolving Fund at year end.

# Interfund loans properly reported by agency closing date.

- Ensure all interfund loan balances are appropriately reported as interfund loans receivable or payable.
- The amount recorded as a "transfer out" to an agency and "in" to another must be reclassified.
- Transfers related to interfund loans should be eliminated for financial reporting purposes.

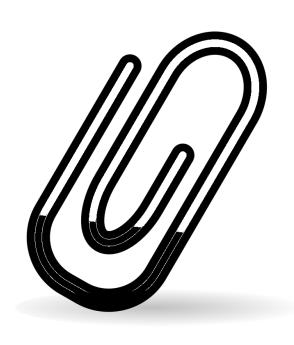

All public deposits are in a Qualified Public Depository (QPD) and compliance with public deposit program requirements established in Chapter 280, Florida Statutes, has been confirmed.

#### Agency is confirming:

## Questions

CFO JIMMY PATRONIS

# Capital Assets and Long-Term Liabilities

CFO JIMMY PATRONIS

### DEPARTMENT OF FINANCIAL SERVICES

Capital Assets

- Capital assets should be reported at historical cost.
- The cost of a capital asset should include ancillary charges.

### Capital Assets

• Intangible right-to-use lease assets or subscriptions should have :

A cost equal to or greater than an established capitalization threshold

An estimated useful life extending beyond one year

### 1. Right to Use Subscriptions

- Right-to-use subscriptions represents the State's right to use an underlying asset for the SBITA term.
- The following general ledger codes should be used to account for right to use subscription assets:
  - GL 286XX used to record right to use subscription assets.
  - GL 287XX used to record accumulated amortization of right to use subscription assets recorded in GL 286XX.
  - GL 727XX used to record right to use subscription asset acquisition expenditures in governmental funds.
  - GL 729XX used to record amortization expense of right to use subscription assets in governmental funds and proprietary funds.
- Use of agency-unique GL codes may be helpful to identify right to use subscription assets accounted for in these GL codes.

### **Amortization**

Right to use subscription assets should be amortized on a straight-line basis over the shorter of life of the subscription term or useful life of the underlying tangible asset.

### 2. Right to Use Leased Assets

- Right to use leased assets represents the State's right to use an underlying asset for the lease term.
- The following general ledger codes should be used to account for right to use leased assets:
  - GL 284XX used to record right to use leased assets.
  - GL 285XX used to record accumulated amortization of right to use leased assets recorded in GL 284XX.
  - GL 724XX used to record right to use leased asset acquisition expenditures in governmental funds.
  - GL 728XX used to record amortization expense of right to use leased assets in governmental and proprietary funds.
- Use of agency-unique GL codes may be helpful to identify right to use leased assets accounted for in these GL codes.

#### **Amortization**

Right to use leased assets should be amortized on a straight-line basis over the shorter of the lease term or the useful life of the underlying tangible asset category.

#### Instructions

Please make changes to your agency's Changes in Capital Assets data on the worksheet tab utilizing the following rules:

Assets acquired must be reported within the "Increases" column and disposal of assets must be reported within the "Decreases" column. DO NOT NET THE INCREASES AND DECREASES. Beginning and ending balances will be automatically populated for you.

For Accumulated Depreciation enter Negative amount in Additions and Positive amount in Deductions.

#### Please Note:

Use debit (positive) balances within the "Increases" column and credit (negative) balances within the "Decreases" column which are highlighted.

"Variance" column MUST equal zero.

### **Capital Assets**

- The straight-line method will be used by the FLAIR Property Subsystem to calculate depreciation/amortization for each capital asset (except for leases and SBITAs) recorded in the property subsystem.
- Depreciation/amortization calculations for Leases and SBITAs will be maintained in **GASB 87 & 96 Lite** in Workiva.

• GASB 87 & 96 Lite has been rolled forward. Agencies will receive notification regarding its availability.

### Capital Assets

## GASB Implementations

### **FYE 2024**

Statement No. 101, Compensated Absences

### **FYE 2025**

Statement No. 102, Certain Risk Disclosures

## GASB Statement 101 Compensated Absences

## Compensated Absences - Objective

- Replaces Governmental Accounting Standards Board (GASB) Statement No. 16 – Accounting for Compensated Absences
  - Aligns the recognition and measurement guidance for compensated absences under a unified model.
  - Provides additional guidance for certain types of leave.

# Compensated Absences – Effective Date and Transition

- Effective for fiscal years beginning after December 15, 2023, and all reporting periods thereafter. Earlier application is encouraged.
  - O State of Florida will implement early during the fiscal year ending June 30, 2024.
- Changes should be reported as a change in accounting principle.

# Compensated Absences - Scope and Applicability

### Compensated absences are defined as:

- Leave for which employees may receive:
  - a) Cash payments when the leave is used for time off
  - b) Other cash payments, such as payment for unused leave upon termination of employment
  - c) Noncash settlement, such as conversion to postemployment benefits

# Compensated Absences - Scope and Applicability

### **Examples of Compensated Absences**

- Vacation and sick leave
- Paid time off (PTO)
- Parental leave
- Holidays
- Certain types of sabbatical leave

## Compensated Absences — **General Recognition**

Leave that results from services already provided

• Employee has met the requirements necessary to earn the leave

Leave accumulates

 Leave may be carried forward from period leave is earned to future reporting periods when it will be used, paid or settled

Leave is more likely than not to be used, paid or settled

>50% likelihood

# Compensated Absences – Exceptions to General Recognition

- Leave more likely than not to be settled through conversion to defined benefit postemployment benefits is excluded from liability recognition.
- Leave dependent upon the occurrence of a sporadic event that effects a small portion of employees in any reporting period is recognized when the leave commences.
- Examples are jury duty, parental and military leave
- Unlimited leave and holiday leave taken on a specific date is recognized as a liability when used.

### Compensated Absences – Measurement

### Pay rate

- Normally, use the employee's rate of pay at the financial reporting date
- However, if it is more likely than not the rate of pay will be different when paid use the pay rate that will be used when paid

### Salary-related payments

- Directly and incrementally related
- Defined Contribution or Other Postemployment Benefits recognized as related leave is earned – not pension or OPEB liability
- Defined Benefit pension or OPEB excluded

CFO JIMMY PATRONIS

### Compensated Absences – Leave Used but Not Paid

Liability for amount of cash payment or noncash settlement

Include applicable salary-related payments

### Compensated Absences – Note Disclosures

- No new note disclosures required
- Exceptions to the current long-term liability disclosures for compensated absences:
  - ➤ Option to present net increase or decrease if presented as "net"
  - ➤ Not required to disclose governmental fund used to liquidate the liability

## GASB Statement 102 Certain Risk Disclosures

# Certain Risk Disclosures – Effective Date and Transition

- Effective for fiscal years beginning after June 15, 2024, and all reporting periods thereafter.
  - State of Florida will implement during the fiscal year ending June 30, 2025.
- Changes should be reported as a change in accounting principle.

## Certain Risk Disclosures - Objective

Governmental Accounting Standards Board (GASB) Statement No. 102 – *Certain Risk Disclosures* requires entities to disclose critical information about their exposure to risks due to certain concentrations or limitations that could lead to financial distress or operational challenges.

The new standard focuses on current vulnerabilities relating to two specific risks:

- 1. Concentrations
- 2. Constraints

The identification of a concentration is a matter of professional judgement and is based on both qualitative and quantitative factors.

- Concentrations can include, but are not limited to:
  - Employers
  - Industries
  - Inflows of resources
  - Workforce covered by collective bargaining agreements
  - Providers of financial resources

A government is commonly subject to certain constraints that either are imposed by external parties or are self-imposed.

Constraints on a government's ability to acquire resources can include, but are not limited to:

- Limitations on raising revenue
- Limitations on spending
- Limitations on the incurrence of debt
- Mandated spending

Concentrations and constraints must be disclosed if they meet **all** of the following criteria:

- 1. The concentration or constraint is known to the government prior to the issuance of the financial statements;
- 2. The concentration or constraint makes the government vulnerable to the risk of a substantial impact; and
- 3. An event or events relating to the concentration or constraint have occurred, have begun to occur, or are more likely than not to begin to occur within 12 months of the date the financial statements are issued.

When a concentration or constraint meets the criteria, the government must disclose detailed information, including descriptions of the following:

- 1. The nature of the concentration or constraint;
- 2. Each event associated with the concentration or constraint that could cause a substantial impact if the event had occurred or begun to occur prior to the issuance of the financial statements; and
- 3. Actions taken by the government to mitigate the risk prior to the issuance of the financial statements.

If mitigation actions taken by the government prior to the issuance of the financial statements cause any of the previous slide disclosure criteria not to be met, these additional disclosures are not required.

Assess whether there are any potential concentrations or constraints within your government. For each concentration or constraint, assess whether it makes your government vulnerable to a risk of a substantial impact. Then evaluate whether a triggering event is taking place that will necessitate disclosure.

# Certain Risk Disclosure - Scope and Applicability

■ Concentration examples could be a substantial employer in your government is closing and this event will have a substantial negative impact on future revenue; a large source of revenue relied upon for operations will no longer be available in the future; or there will be a substantial decline in a specific revenue source that is a sole source of bond repayment.
