Re: Continuation of Services

Dear DCI Provider/Vendor:

In accordance with your DoctorCare Provider Agreement this serves as notice of DoctorCare's insolvent status. DoctorCare's Board of Directors has consented to an order placing the company in receivership. Based upon this consent and the company's financial status, we anticipate that the Florida Department of Financial Services (the Department) will request a court order placing DoctorCare in receivership within the next few days. In the event that this occurs, the Department will be appointed as Receiver of DoctorCare and will be in touch with you regarding receivership procedures.

In the meantime, you should continue to provide health care services pursuant to your Provider Agreements, Section – Continuation of Contract Services, which provides as follows:

"The Provider agrees that, in the event of the DoctorCare's insolvency, the Provider shall continue to provide benefits to Members through the period for which premium, capitation or payment has been paid to DoctorCare by CMS or payments to the provider by DoctorCare. In the event Provider is rendering Contract Services to a Member receiving inpatient services, Provider shall continue to provide such services until the earlier of the date of discharge, the date a Participating Hospital or the Member's Primary Care Physician determines, with the concurrence of DoctorCare, that the Contract Services are no longer Medically Necessary, or the date another provider of the Contract Services assumes responsibility for providing such services."

Your cooperation in these matters is appreciated. We will continue to update providers as we receive additional information from the Department and the Centers for Medicare and Medicaid Services (CMS). If you have any further questions regarding these issues, please contact us at (305) 441-5855.

Thank you.
