Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

DEM Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	Challenge in filling vacant positions in Finance & Accounting	Open	9 (High/High)	Utilize other Finance employees to assist when needed	N/A	12/24/23	Karen Peyton
People	Ability to be fully devoted to the project because of unpredictable response activities related to natural disasters and other threats to the state and its citizens.	Open	4 (Medium/Medium)	Endeavor to utilize other staff members and/or employees from other agencies to assist	N/A	12/24/23	Karen Peyton
People Processes	The DEM is physically and functionally separate from the EOG. However, the two entities share the same OLO business unit. Currently warrants are picked up by the EOG for dissemination. This may create a risk related to payment management. In the review of the draft, of new warrant process, it appears that if the incorrect handling code is selected, the EOG will not be able to determine who the warrant belongs to since the BE is not printed on the warrant.	Open	4 (Medium/Medium)	The DEM and EOG have met with the PALM team to determine at what level certain codes can be defaulted to ensure that this does not happen. As long as the warrants do not combine, we will be able to research to accommodate. If warrants combine, the entire warrant may need to be canceled and the invoices re-vouchered.	The volume of invoices that are processed by DEM (especially those related to disaster activity) could possibly exacerbate this issue.	02/26/24	Karen Peyton

DEM Issues
