- Completed After Submission = 5

Other Task Completeness:

Score = 98.50%

- Submitted Complete = 34
- Submitted Incomplete = 0
- Completed After Submission = 6

The RW Task Timeliness dials reflect the timeliness of your agency's submission of all RW tasks based on the task due date. Calculations are based on all RW tasks to date.

The RW Task Completeness dials reflect the completeness of your agency's task submissions based on the task rubric. Calculations of task completeness includes all RW Tasks since RW 512.

The Change Champion Network composition reflects the completeness of your CCN makeup.

CCN Composition

Change Champion Network:

- Unique Filled Role = 5
- Duplicate Filled Role = 12
- Vacant Role = 0

The dials above include an intuitive Green-Yellow-Red spectrum, where green indicates the measure is in a positive range, yellow represents that the gaps in expected results present an increasing risk to the agency, and red indicates that there are significant gaps in expected results that present an elevated risk level for the agency.

Agency Reported

The Risks, Issues, and Assumptions tables below display only items that were marked confirmed and were opened/logged, closed/resolved or active during the reporting period.

EOG Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes	The EOG has limited staff and technical/training resources.	Open	9 (High/High)	Discussed with FL Palm limited staffing resources and need for in person training.	No change.	10/31/23	Kelley Sasso
People Processes	Some of the FL PALM project activities and tasks coincide with the busiest times for financial and accounting agency resources. Training is indicated as being conducted prior to go live in the March - June, 2025 timeframe. The July-Mid-Oct timeframe is the busiest of the year with most duties falling to a very limited number of staff. November, 2026 - early 2027 is an elected official transition period.	Open	9 (High/High)	The EOG will monitor staff workload.	Updated.	02/27/25	Kelley Sasso
People Processes Technology Data	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Risks exist surrounding data management, reporting, payments, transaction differentiation, and incorrect updates based on assumptions of shared/not shared data in DEM business systems.	Open	9 (High/High)	The EOG and DEM have met with FL PALM to outline concerns and have requested additional meetings regarding pending inquiries. It was determined that many of the solutions initially discussed will not be able to be effectively implemented. We will continue to monitor and meet with the PALM team as the final design takes shape to determine the best methodologies for the differentiation of data. System configuration will be tested during UAT to determine what will be policy or procedure driven changes vs. what will require additional PALM knowledge or staff resources.	Updated.	12/13/24	Kelley Sasso
People	There will be many competing priorities for staff working on this project. Staff on the project may serve in more than one capacity and time may not be fully dedicated to accounting and FL PALM work.	Open	6 (Medium/High)	The EOG will monitor staff workload.	No change.	10/31/23	Kelley Sasso
People Processes	FL PALM transactions are based on roles with an approval workflow. Because of EOG's limited staff, transactions requiring approvals will likely bottleneck with 1 or possibly 2 staff members. There is insufficient staffing for backup processors and approvers.	Open	6 (Medium/High)	The EOG has discussed this risk with FL PALM and communicated its inability to have role backups and the risk of transaction approval bottlenecks with so few individuals available to work on any given process. There exists the possibility for some transactions to utilize a spreadsheet upload of transactions rather than individual transaction approvals.	No change.	10/31/23	Kelley Sasso
People Processes Data	Nomenclature is changing in from FLAIR terms to PALM terms. Some fields in PALM are named the same as in FLAIR but with different meanings/uses. Examples are category, asset location, etc. This will primarily be a training challenge; however, there exists the risk that procedures, guidelines, data, queries, etc will be misinterpreted or not updated properly.	Open	6 (Medium/High)	The EOG will work to highlight terminology/naming differences to mitigate risk of confusion.	No change.	06/06/24	Kelley Sasso
People Processes Data	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities	Open	6 (Medium/High)	The EOG has reported the issue and made suggestions to FL PALM as potential solutions.	New.	08/23/24	Kelley Sasso

	Executive Office; however, the two entities share the same OLO/business unit. Detailed risk outline in Line 007 relates to payment management. In reviewing Segment IV - Inter-Unit transactions, we noted that all receiving transactions may be rolled together with no ability to discern 'ownership' of the transaction since only OLO is required. Sent suggestions to the PALM team requesting addition fields be mandatory. Also requested that search menus be available on each workcenter screen to filter out unneeded transactions to only those relevant to DEM or EOG.							
People Processes	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Detailed risk outline in Line 007 relates to payment management. In reviewing the hardcopy draft of new warrants, if the wrong payment handling code is selected by DEM, EOG will not be able to tell who the warrant belongs to since BE is not printed on the warrant.	Open	4 (Medium/Medium)	The EOG and DEM have met with FL PALM to outline concerns. We will reach out to the PALM team during configuration to determine at what level certain codes can be defaulted to ensure this does not happen. As long as the warrants do not combine, we will be able to research to accommodate. If warrants combine, the entire warrant may need to be deleted and invoices re-vochered. Noted during review of configuration values worksheet that DEM has been assigned 2 pmt handling codes. Also noted that ORIGIN will not work for differentiation since Works, MFMP, STMS are origins which both EOG and DEM use.	Updated upon review of most recent configurations values worksheets.	06/06/24	Kelley Sasso	
People Processes	Due to limited staff and staff turnover, there exists a risk that relevant or important steps in a new or revised task will be missed or not completed.	Open	2 (Medium/Low)	The EOG will outline as many processes as possible to mitigate risk of missing a step. The EOG will ensure that all staff attend training, perform work during UAT, and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso	
People Processes Technology	With the revision of interfaces for all Enterprise business systems, such as Works, STMS, and MFMP, and staff learning the updates to all new systems with FL PALM, it may be more difficult to pinpoint the source of errors in transaction processing.	Open	2 (Medium/Low)	The EOG will monitor all tasks and attempt to report issues to all relevant parties.	No change.	10/31/23	Kelley Sasso	
Processes Technology Data	The EOG uses a purchased software that accepts an FTP download of FLAIR recorded asset data and transmits the data to a mobile device for state asset inventory purposes. A risk exists that the inventory software is not ready to purchase during the first year of go-live and/or the PALM solution will not work as intended for our agency.	Open	2 (Medium/Low)	The EOG will monitor progress with other state agencies who also use this software and/or have this business need. The EOG will test PALM's inventory solution during UAT to determine if it will meet our agency's needs.	No change.	02/27/25	Kelley Sasso	
People Data	Risks relate to attachments of documents in FL PALM. Staff will need training on what can and should be attached or redacted prior to attaching in FL PALM.	Open	1 (Low/Low)	The EOG will outline as many processes as possible to mitigate risk of incorrectly attached documents, and will ensure that all staff attend training and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso	

EOG Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator

EOG Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People Processes Technology Data	EOG assumes that FL PALM will provide adequate in-person training and will assist in workflows where there is insufficient staff for approvals.	Logged	10/31/23	All Administrative Services.	Updated to consolidate this assumptions for all 4 critical operational elements. Removed duplicative assumptions.	
People Processes Technology Data	EOG assumes that while processor roles cannot approve his/her own transactions, the processor can also be assigned an approver role, so that in all cases, staff can function as backup processors or approvers.	Logged	01/23/24	All Administrative Services.	Discussed with D. Thomas on 1/19/2024.
