Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

				EOG Risks			
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes	The EOG has limited staff and technical/training resources.	Open	9 (High/High)	Discussed with FL Palm limited staffing resources and need for in person training.	No change.	10/31/23	Kelley Sasso
People Processes Fechnology Data	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Risks exist surrounding data management, reporting, payments, transaction differentiation, and incorrect updates based on assumptions of shared/not shared data in DEM business systems.	Open	9 (High/High)	The EOG and DEM have met with FL PALM to outline concerns and have requested additional meetings regarding pending inquiries. It was determined that many of the solutions initially discussed will not be able to be effectively implemented. We will continue to monitor and meet with the PALM team as the final design takes shape to determine the best methodologies for the differentiation of data.	Updated after most recent meetings.	04/16/24	Kelley Sasso
People	There will be many competing priorities for staff working on this project. Staff on the project may serve in more than one capacity and time may not be fully dedicated to accounting and FL PALM work.	Open	6 (Medium/High)	The EOG will monitor staff workload.	No change.	10/31/23	Kelley Sasso
People Processes	FL PALM transactions are based on roles with an approval workflow. Because of EOG's limited staff, transactions requiring approvals will likely bottleneck with 1 or possibly 2 staff members. There is insufficient staffing for backup processors and approvers.	Open	6 (Medium/High)	The EOG has discussed this risk with FL PALM and communicated its inability to have role backups and the risk of transaction approval bottlenecks with so few individuals available to work on any given process. There exists the possibility for some transactions to utilize a spreadsheet upload of transactions rather than individual transaction approvals.	No change.	10/31/23	Kelley Sasso
People Processes	Some of the FL PALM project activities and tasks coincide with the busiest times for financial and accounting agency reources.	Open	4 (Medium/Medium	The EOG will monitor staff workload.	No change.	10/31/23	Kelley Sasso
People Processes	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Detailed risk outline in Line 007 relates to payment management. In reviewing the hardcopy draft of new warrants, if the wrong payment handling code is selected by DEM, EOG will not be able to tell who the warrant be drongs to since BE is not printed on the warrant.	Open	4 (Medium/Mediu	The EOG and DEM have met with FL PALM to outline concerns. We will reach out to the PALM team during configuration to determine at what level certain codes can be defaulted to ensure this does not happen. As long as the warrants do not combine, we will be able to research to accomodate. If warrants combine, the entire warrant may need to be deleted and invoices revouchered.	No change.	01/23/24	Kelley Sasso
People Processes	Due to limited staff and staff turnover, there exists a risk that relevant or important steps in a new or revised task will be missed or not completed.	Open	2 (Medium/Low)	The EOG will outline as many processes as possible to mitigate risk of missing a step. The EOG will ensure that all staff attend training, perform work during UAT, and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso
People Processes Fechnology	With the revision of interfaces for all Enterprise business systems, such as Works, STMS, and MFMP, and staff learning the updates to all new systems with FL PALM, it may be more difficult to inpionit the source of errors in transaction processing.	Open	2 (Medium/Low)	The EOG will monitor all tasks and attempt to report issues to all relevant parties.	No change.	10/31/23	Kelley Sasso
Processes Technology Data	The EOG uses a purchased software that accepts an FTP download of FLAIR recorded asset data and transmits the data to a mobile device for state asset inventory purposes. A risk exists that the inventory software is not ready to purchase during the first year of go-live.	Open	2 (Medium/Low)	The EOG will monitor progress with other state agencies who also use this software and/or have this business need. The EOG will test PALM's inventory solution during UAT to determine if it will meet our agency's needs.	No change.	04/16/24	Kelley Sasso
Fechnology	Staff are already able to access PALM; therefore, we do not anticipate any technological risk related to accesses/access control.	Open	1 (Low/Low)	No risks determined at this time.	No change.	10/31/23	Kelley Sasso
People Data	Risks relate to attachments of documents in FL PALM. Staff will need training on what can and should be attached or redacted prior to attaching in FL PALM.	Open	1 (Low/Low)	The EOG will outline as many processes as possible to mitigate risk of incorrectly attached documents, and will ensure that all staff attend training and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso

EOG Assumptions								
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates			
People Processes Technology Data	EOG assumes that FL PALM will provide adequate in-person training and will assist in workflows where there is insufficient staff for approvals.	Logged	10/31/23	All Administrative Services.	Updated to consolidate this assumptions for all 4 critical operational elements. Removed duplicative assumptions.			
People Processes Technology Data	EOG assumes that while processor roles cannot approve his/her own transactions, the processor can also be assigned an approver role, so that in all cases, staff can function as backup processors or approvers.	Logged	01/23/24	All Administrative Services.	Discussed with D. Thomas on 1/19/2024.
