

# 5 Florida PALM Updates

## Agency Readiness Reporting Page Live

WHAT'S NEW?

Agency stakeholders now have direct access to our agency's readiness dashboard!

Wanna see how DFS is doing?

## Florida PALM Trees are Growing

System functionality to organize ChartField values into a hierarchical structure

### Florida PALM Trees

Trees simplifies the representation of complex relationships, making it easier to manage data hierarchies

- DFS GL COA Maintainer
- Agency GL COA Maintainer

General Ledger Module

- Facilitate reporting at summarized level
- Assign Security Permissions
- Facilitate Budget

## Vocabulary Corner

### InterUnit

**Definition:** InterUnit refers to the movement between two agencies.

**Example:** A state agency may pay another state agency for services performed.

### IntraUnit

**Definition:** IntraUnit refers to the movement within the agency.

**Example:** An expenditure is reclassified to another fund within the same agency.

## New PALMCasts Available
