Cash Management Module Configurations

This workbook contains one worksheet that represents a core configuration component in Florida PALM. Column/field definitions and instructions are provided below. The configuration workbook contains the following Cash Management module configurations to which agency-specific values are being obtained to setup Florida PALM:

- Consolidated Revolving Accounts

NOTE: *The Cash Management configuration workbook is only required to be completed by the following agencies: AHCA, APD, COM, DBPR, DCF, DEP, DFS, DLA, DOH, EOG, FDACS, FDLE, FDOT, HSMV, JAC, LEG.*

SharePoint Navigation:
Florida PALM Secure File Share Portal > (Agency) > Configuration Workbook Inventory > Cash Management (CM)

Consolidated Revolving Accounts (CRA)

Figure 1: Consolidated Revolving Accounts Worksheet

NOTE: *This worksheet can only be completed if Task 567-B (Share, Review, and Update Configuration Workbook – GL Organization) has been verified complete.* **This worksheet will remain locked until Task 567-B has been verified complete.**

Configuration Value Definition

The CRA default accounting represents a combination of Florida PALM ChartField values and is a default accounting string used to create accounting entries for CRA bank transactions systematically from the bank interfaces.

Business Process and Subprocess

The CRA configuration supports the following business process and subprocess:

Table 1: CRA Business Process and Subprocess

Business Process	Business Subprocess
70.2 Manage and Reconcile Bank Statement Transactions	N/A

Configuration Value Purpose and Use

The CRA default accounting represents a combination of Florida PALM ChartField values and is a default accounting string used to create accounting entries for CRA bank transactions from the bank interfaces.

Configuration Design Details

The following design considerations are applied when defining the default accounting for a CRA in Florida PALM:

- The agency considers the appropriate Organization ID and State Program values for each of the listed accounts and transaction types.

CRA default accounting for accounting entries for CRA bank transactions are maintained centrally by DFS Treasury.

Assumptions

The following assumptions are considered when defining a CRA:

- Agencies complete the GL configuration workbook (Task 567-B) to create the agency organizational structure and Organization ID _before_ completing this CM configuration workbook for CRA.
- Agencies use the Organization ID created and confirmed in the GL configuration workbook (Task 567-B) to finalize the CM configuration workbook for CRA to provide Organization and State Program.

Configuration Field Details

Agencies must provide the following CRA ChartField values related configuration values as listed in the <Agency> Consolidated Revolving Accounts worksheet in the Florida PALM Secure File Share portal in SharePoint.

Table 2: CRA Field Details

Field Name	Field Description	Required / Optional Field	Field Type	Field Length	Field Value Input
Configure Value	Configure Value: "Yes", "No", or "Update".	Required	Character	6	Agency Indicated
SetID	Value used in Florida PALM to define setup data. It allows the sharing of common setup data across business units or specific to business unit.	Required	Alphanumeric	5	Project Provided
Accounting Template ID	System uses the Template ID to create accounting entries.	Required	Character	15	Project Provided
Accounting Template Description	Account entry detailed description at header level.	Required	Alphanumeric	60	Project Provided

Field Name	Field Description	Required / Optional Field	Field Type	Field Length	Field Value Input
Source Type	Identifies the source for accounting entries. "B" = Bank Statement Processing.	Required	Character	1	Project Provided
Accounting Template Status	Status as of the Accounting Template: "(A)ctive", "(I)nactive". *Prior to system implementation this status is defaulted to "(A)ctive" for all agency confirmed values.*	Required	Character	1	Project Provided
Bank Account Description	Provides the name of the bank account.	Optional	Character	35	Project Provided
Configured Florida PALM Organization Value	Identifies the organizational entity associated with a transaction and tracks information according to a structural breakdown (i.e., division, bureau, section) or operating unit of the organization. *This field includes the previously configured values for your agency.*	Required	Character	10	Project Provided
Agency Provided Organization Value	Identifies the organizational entity associated with a transaction and tracks information according to a structural breakdown (i.e., division, bureau, section) or operating unit of the organization.	Required or Optional *(based on prior column dependency)*	Character	10	Agency Specified
Account	Provides functionality to capture detailed transactional data. Can be specified as a balance sheet account or operating account.	Required	Character	10	Project Provided

Field Name	Field Description	Required / Optional Field	Field Type	Field Length	Field Value Input
Fund	Segregates and captures specific activities or classifies certain objectives in accordance with special regulations, restrictions, or limitations.	Optional	Character	5	Project Provided
Budget Entity	Represents organizations and/or functions to which appropriations are made and typically represents a program.	Optional	Character	8	Project Provided
Configured Florida PALM State Program Value	State Program tracks both revenue and expenditures for programs within or across organizations. State Program values remain unchanged from the Program Component values as established in LAS/PBS. *This field includes the previously configured values for your agency.*	Required	Character	10	Project Provided
Agency Provided State Program Value	State Program tracks both revenue and expenditures for programs within or across organizations. State Program values remain unchanged from the Program Component values as established in LAS/PBS.	Required or Optional *(based on prior column dependency)*	Character	10	Agency Specified
Comments	Agency comments.	Required or Optional *(based on prior column dependency)*	Character	254	Agency Provided

Field Name	Field Description	Required / Optional Field	Field Type	Field Length	Field Value Input

Configuration Page(s)

The following provides an example of the configuration page where the agency defined CRA default accounting values will be set up in Florida PALM.

Worksheet Instructions

The below information provides detailed instructions on how to complete the *<Agency> Consolidated Revolving Accounts* worksheet in SharePoint.

Task Completion Requirement: For this task (RW Task 567-K) to be considered complete, it is necessary that you follow all steps listed below to ensure you have selected the appropriate values.

1. Review the worksheet and determine whether the configured values need updating in Florida PALM. A *Configure Value* column is provided to capture your agency's determination of the disposition of a configured CRA. Indicate "Yes", "No", or "Update", as appropriate.

   In the *Configure Value* column:
   a. Select "Yes" to confirm the configured CRA.
      i. If selected, no further action is needed on this row and the *Agency Provided Organization Value* and *Agency Provided State Program Value* columns will turn grey.

   b. Select "No" to inactivate the configured CRA.
      i. If selected, no further action is needed on this row and the row will turn grey.

   c. Select "Update" to update the configured Organization Value or State Program Value.
      i. Updates to the Organization Value (optional) – Select the desired Organization ChartField value in the *Agency Provided Organization Value* column. This is a drop-down column that contains all Florida PALM Organization ChartField values established in the Task 567-B GL *<Agency> Organization* worksheet with a *Configure Value* column selection of "Yes", "Replace Org Value", Update Descriptions" or "New Org Value".
         1. Once a value is selected in the *Agency Provided Organization Value* column, where *Configure Value* is "Update", the *Configured Florida PALM Organization Value* column will turn grey.

Figure 4: CRA Worksheet Organization Column

      i. Updates to the State Program Value (optional) – Select the appropriate Program Component (State Program) in the *Agency Provided State Program Value* column. This is a drop-down column that contains all agency specific State Program ChartField values established by LAS/PBS and listed within the Statewide COA Configuration Workbook.
         1. Once a value is selected in the *Agency Provided Organization Value* column, where *Configure Value* is "Update", the *Configured Florida PALM Organization Value* column will turn grey.

Account	Fund	Budget Entity	Configured Florida PALM State Program Value	Agency Provided State Program Value	Comments
Provides functionality to capture detailed transactional data. Can be specified as a balance sheet account or operating account. - Required Field - Field Type: Character - Field Length: 10	Segregates and captures specific activities or classifies certain objectives in accordance with special regulations, restrictions, or limitations. - Optional Field - Field Type: Character - Field Length: 5	Represents organizations and/or functions to which appropriations are made and typically represents a program. - Optional Field - Field Type: Character - Field Length: 8	State Program tracks both revenue and expenditures for programs within or across organizations. 2. Use the Comments field, optionally, for your internal purposes.

NOTE: *If your agency determines a need for a new CRA Bank Account that is not listed, you must first follow the current process to establish the new bank account with Treasury and A&A approval. Agencies will then be asked to provide the additional values needed for Florida PALM configuration on all new bank accounts in a future RW task. CRA default accounting for CRA bank transactions are maintained centrally by DFS Treasury.*
