## Risks and Issues

- ▶ Since the last ESC meeting 13 new risks has been identified and one has been closed
  - 4 risks relate to Go/No-Go decisions
  - 3 risks relate to Organizational Readiness
  - 2 risks relate to decision making
  - 2 risks relate to deliverable acceptance and fiscal year funding
  - 1 risk relates to staffing
  - 1 risk relate to timeless and scheduling of activities
- ▶ The Project Team conducted a risk brainstorming session for potential fiscal year risks. None of the potential risks have a high probability and impact.
- ▶ Risks and Issues with a high probability and impact will continue to be shared via monthly status reports and discussed (if necessary or as requested) with the ESC

-  In Progress
-  Complete

# Florida PALM Project Update

## Scope

-  Not Started
-  In Progress
-  Complete

### ▶ FY19-20 Objectives Update

- Complete Interim Process Models
- Conduct Training Needs Assessment
- Confirm Chart of Accounts design, including crosswalk
- Complete detailed design and configuration
- Identify required interfaces and provide layouts
- Identify conversions and associated cleansing opportunities
- Establish non-production infrastructure and environments
- Establish approach to identify Wave 1 and Wave 2 organizations
- Confirm Production Support Strategy

# Florida PALM Project Update

## Scope

- ▶ Chart of Accounts (COA) Design Purpose
  - Establish the structures, definitions, and individual design components of the Florida PALM **ChartFields** and **Budget Structures** by which budgetary and financial controls will be managed and financial transactions tracked and recorded

# Florida PALM Project Update

## Scope

- ▶ Chart of Accounts (COA) Design Guiding Principles:
  - Collaborate with organizations to maintain the inclusive nature of previous engagements
  - Maintain structure of budgetary codes provided by LAS/PBS
  - Move from two COA structures (Departmental and Central) to one COA structure
  - Maintain a standardized structure to support statewide financial reporting, budget and cash management
  - Provide agency unique codes for specific operational and reporting needs

# Florida PALM Project Update

## Scope

- ▶ Chart of Accounts (COA) Design Approach
  - ✓ Research and analysis of FLAIR data to support the initial design
  - ✓ Targeted collaboration to refine the design
    - Engagement with A&A, OIT, and Treasury
    - Discussions with Targeted Organizations
    - COA Usage Questionnaire
  - Collaboration with organization accounting and budget representatives to confirm the design
    - ✓ COA Design Kickoff
      - Working meetings
      - Office Hours

# Florida PALM Project Update

## Scope

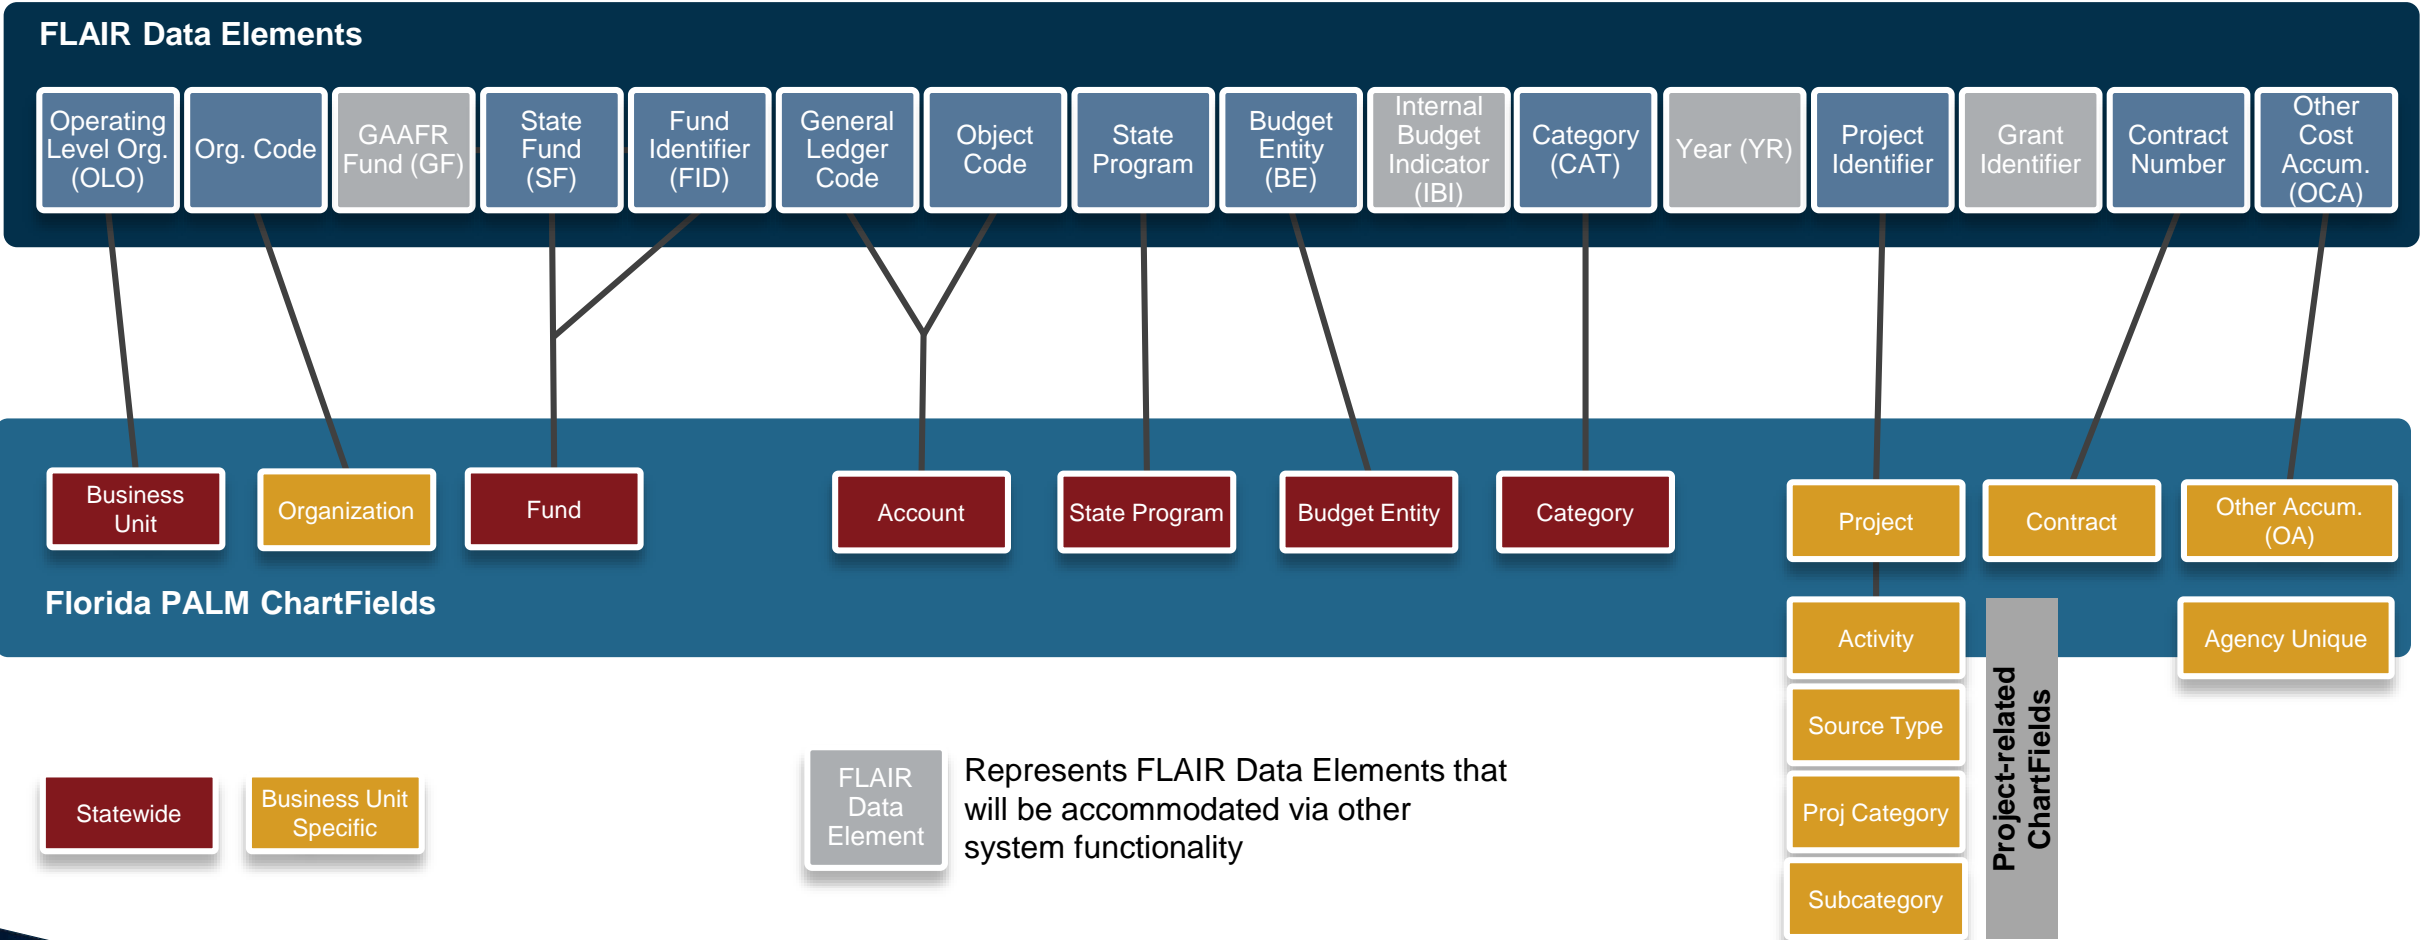

- ▶ Chart of Accounts (COA) Design ChartFields
  - All FLAIR data elements are accommodated
  - Budgetary codes remain unchanged
  - Statewide and Organization-specific values
  - Additional Project data elements
  - Additional Agency Unique ChartField
  - Changes to field lengths
  - Combination Edits and Trees will support the COA design, including transaction processing and reporting

# Florida PALM Project Update

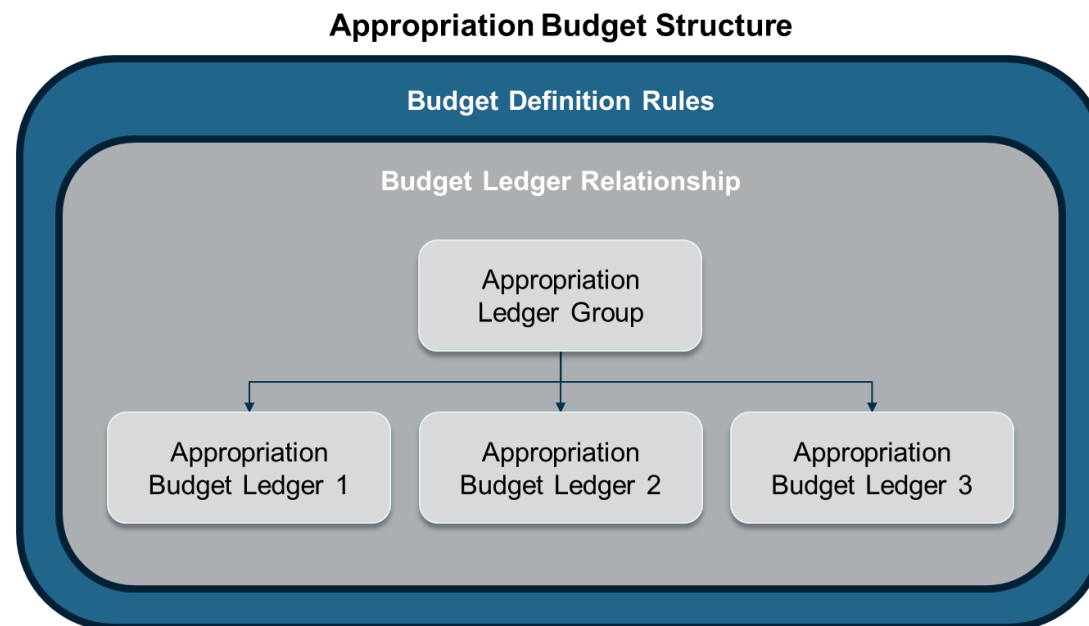

## Scope

# Florida PALM Project Update

## Scope

- ▶ Chart of Accounts (COA) Design Budget Structure Elements
  - Separate ledgers will accommodate appropriation, release, reserve, revenue, allotment, and project budgets
  - Maintained at statewide or organization-specific level
  - Hierarchy allows ledgers to work together to manage budget
  - Can set to track or control

# Florida PALM Project Update

## Scope

### ▶ Interim Business Process Models

#### ◦ *Purpose*

- Document temporary variances to business processes and additional RICEFW components that will be utilized at Pilot go-live

#### ◦ *Approach*

- Work with DFS Divisions / Office and FFMIS partners through October to understand implications of replacing Central FLAIR functions with Florida PALM and to determine recommended approach for handling variances in business processes
- Conduct Workshops with organizations in November to share draft process design and to confirm reports, interfaces, and conversions

# Florida PALM Project Update

## Scope

### ▶ Interim Business Process Models

#### ◦ *Considerations:*

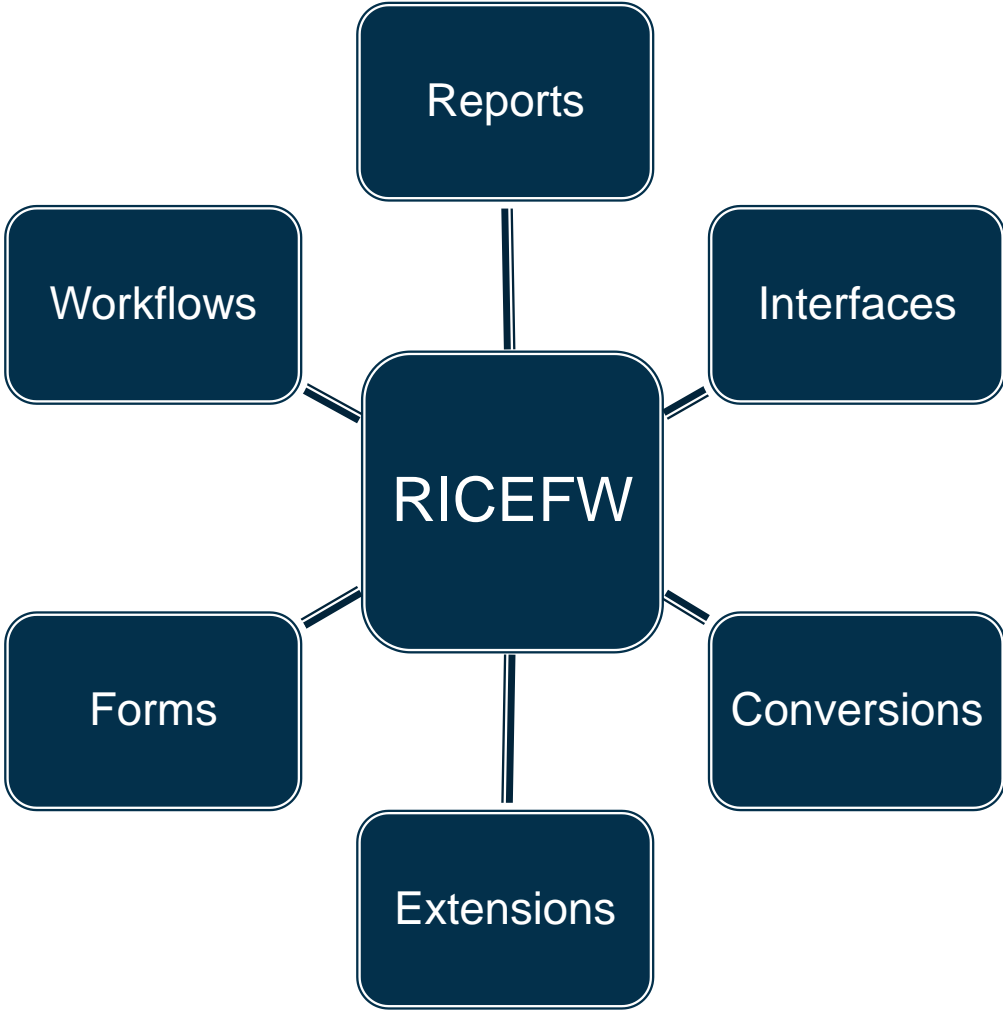

- Departmental FLAIR users transacting with Florida PALM users (e.g., assets, transfers)
- Treasury and cash-related transactions (e.g., deposits, transfers, invest / disinvest)
- “Central-like” Wave organization data available for reporting (e.g., payment information)
- Departmental FLAIR processes that exchange information with Central FLAIR today (e.g., vouchers)

# Florida PALM Project Update

## Scope

- ▶ RICEFW Inventory Purpose
  - Identify and document the list of development items necessary to support the functions of Florida PALM

# Florida PALM Project Update

## Scope

- ▶ RICEFW Inventory – Reports
  - Information packages are being prepared for Pilot organizations, which include those identified as part of Standardized Business Process Models
  - Additional reports may be added based on Interim Business Process Models
  - Analysis has begun to identify the information needs and determine which ones will be met with reports vs. other methods

# Florida PALM Project Update

## Scope – Solution Design

### ▶ RICEFW Inventory – Interfaces

- Information packages are being prepared for FFMIS, Pilot, and Wave organizations, which include a mapping of current interfaces to those identified as part of Standardized Business Process Models
- Meetings are underway to discuss and review materials provided with the objective of confirming which interfaces will be used at Pilot go-live and by which organizations/systems
- Additional items will be added as part of Interim Business Process Models, to capture temporary interfaces

# Florida PALM Project Update

## Scope – Solution Design

- ▶ RICEFW Inventory – Conversions, Extensions, Forms, and Workflows
  - *Conversions:*
    - Overview of planned conversion categories to Wave organizations as part of Interim Business Process Models Workshops
  - *Extensions, Forms, and Workflows:*
    - Identified Extensions are being reviewed with Project Sponsors to confirm
    - Additional items may be added as part of Interim Business Process Models

# Florida PALM Project Update

## Scope

- ▶ Solution Demonstration: *User Experience*
  - **Web-based** access
  - Tile-driven navigation
  - Work may be managed through **WorkCenters**
  - Approvals facilitated **in the system** through **workflow**
  - Upload of **attachments** to support transactions
  - Reporting capabilities through **online inquiries** (screens), prepared **reports**, and **data downloads** (i.e. to Excel)

# Florida PALM Project Update

## Scope

- ▶ The **Master Readiness Workplan** (MRW) is a resource to help organizations plan and prepare for the transition to Florida PALM
- ▶ MRW has been published on the Change Champion page of the Project's website
- ▶ Organizations can view/manage all MRW tasks in Excel workbook
- ▶ To stay aligned with Project work, the MRW will be updated on a regular basis
- ▶ Readiness Coordinators will work with Liaisons to monitor MRW tasks and track open items
- ▶ A monthly Readiness Dashboard will be created for status reporting

# INDEPENDENT VALIDATION AND VERIFICATION (IV&V)

FACILITATOR: MARK FAIRBANK

# IV&V Assessment

## August 2019 Reporting Period

Overall Status			
Current Period	Prior Period	Overall Trend	Observations Based on standardized IV&V scoring
			<ul style="list-style-type: none"> <li>The DDI Phase continues to progress according to plan.</li> <li>Resource allocation is monitored closely by Track Managers and PMO. Accenture has increased resources in key areas based on recent rescheduling of activities.</li> <li>Activities are allotted reasonable time to complete provided Project secures commitment from FFMIS partners to fulfill critical dependencies.</li> <li>Risks and Issues are being managed proactively and with an appropriate sense of urgency.</li> <li>PMO demonstrates consistent and strong cost management practices.</li> <li>The Project regularly conducts proactive communications to stakeholders.</li> <li>Collaboration between the State Project Team and Accenture Team continues to produce acceptable results.</li> <li>The IV&amp;V Team has identified no significant risks to DDI Phase activities. New risks under development are being assessed by IV&amp;V.</li> <li>The Project trend is stable as work toward executing the statement of work and producing deliverables is proceeding according to plan with some schedule variation that presently does not affect milestones.</li> </ul>

# IV&V Assessment

## Additional Observations

- ▶ Overall, with few exceptions, IV&V continues to observe the Project producing work products and deliverables according to plan with results reflecting the collaborative efforts of State and Accenture resources
- ▶ Sponsors of the Project and those within agencies along with partners at FFMIS and elsewhere increasingly understand and are planning for significant changes that will affect all organizations upon the implementation of Pilot in 2021
- ▶ The Project continues to convey this message via multiple channels and at almost every engagement with stakeholders
- ▶ The complexity of the changes needed is mutually understood to be very high

# IV&V Assessment

## Additional Observations

- ▶ Feasibility of the interim solution within the present Project Schedule is dependent on the State's completion of interim process analyses and designs to identify and specify the changes needed in systems
- ▶ Consideration of all viable interim technical options need to be balanced with what can be achieved within the timeframe and, just as importantly, what makes best operational sense for both Pilot and Wave organizations
- ▶ The interim models would be considerably more complicated for Pilot and/or Wave organizations if enterprise systems cannot be modified to account for the new Florida PALM state chart of accounts while maintaining the current FLAIR chart of accounts structures

# UPCOMING

MELISSA TURNER

# Florida PALM Project Update

## Upcoming

- ▶ Recommended statutory changes:
  - FY 19/20 Proviso requires ESC recommendations for statutory changes needed to implement Florida PALM and draft legislation be submitted to the House, Senate, and Governor's Office by November 1, 2019
  - Updating the list submitted in 2018 to remove items related to:
    - *Remove the Requirement for Agencies to Identify Amounts for Investment*
    - *Modify the Requirement that Treasury Turnover All Warrants to A&A*
  - The Project Team is drafting the statutory changes and will work through Department processes for submitting
