# Administrative Potential Project Charter Update

- ▶ Additional text to allow ESC member delegates
  - Delegate may not be utilized for more than two meetings per fiscal year
  - Voting authority remains with the ESC member only
- ▶ Additional text to allow Project Director delegate to provide required updates to the ESC
- ▶ Administrative Correction to State CIO Appointed By

| Role(s)   | Agency                  | Appointed By                                    |
|---|-------------------------|---|
| Florida Fish and Wildlife Conservation Commission Representative                            | FWC                     | Chair FWC                                       |
| Department of Transportation (Administrative Services Director, Comptroller, or equivalent) | DOT                     | Governor  |
| Department of Education Budget Director or their designee                                   | DOE                     | DOE Budget Director                             |
| Executive Sponsor of the Florida Health Care Connection (FX) System                         | AHCA                    | AHCA Secretary                                  |
| State Chief Information Officer   | Florida Digital Service | <a href="#">Implementing Bill DMS Secretary</a> |

### Executive Steering Committee Meetings

The ESC will meet monthly or as required, at the call of the Chair. Input on agenda items will be requested and the meetings will be scheduled at least two weeks in advance with ESC members and publicly noticed at least one week prior to the meeting date with a proposed meeting agenda. The Project Director or designated Project team member will prepare and distribute the final agenda, status reports, a list of deliverables for review (if needed), and other supporting documentation as appropriate prior to each meeting.

The CFO or Executive Project Sponsor chairs the ESC. A quorum of the ESC consists of at least 10 members present ([including delegates](#)). Any ESC action shall be taken by a vote of at least eight members voting in the affirmative, with the CFO or the Executive Project Sponsor voting on the prevailing side. [ESC members may send a delegate to no more than two \(2\) meetings during a fiscal-year period for the purpose of ensuring committee representation and agency participation. Voting authority may not be delegated, only the principle appointee, as identified or assigned in accordance with the annual Implementing Bill, may vote on actionable items presented to the committee for consideration.](#)

The Project Director, [or delegate](#), will update the ESC on matters related to the Project’s scope, schedule, budget, current issues and risks, recent decisions made by the Project Director, current and recent change requests, resources, and other relevant Project information. In addition, the contractor will provide an update on the Project progress.

# Administrative Budget

## FY 2023-2024 Spend Plan Summary as of July 31, 2023

| Category                                  | Projected FYTD     | Incurred FYTD      | Released FYTD       | Release Remaining   |
|---|--------------------|--------------------|---------------------|---------------------|
| <b>FLAIR System Replacement</b>           | <b>\$1,318,419</b> | <b>\$1,183,502</b> | <b>\$3,420,777</b>  | <b>\$2,237,275</b>  |
| SSI Implementation Services               | \$0                | \$0                |                     |                     |

# Administrative Risks and Issues

- ▶ No new Risks or Issues have been opened or closed
- ▶ Two Risks with score of 6 or higher remain open: Risk 4 and Risk 6
- ▶ Enhancement to Risk 4 Language:
  - **Title:** **Agencies' ability to adequately engage and participate** Agency participation levels may impact agency readiness
  - **Background:** Inadequate agency **engagement and** participation in readiness activities, not completing tasks in a timely manner, and not including knowledgeable staff in work efforts may impact their agencies' **an agency's** readiness to implement Florida PALM and contribute to a misunderstanding of the Florida PALM scope and implementation timeline. **An agency's ability to engage may be impacted by several factors, including inadequate funding or staffing (resources), lack of planning, or other unplanned events.**

# Administrative Schedule

| Stage Gate  | Critical Path Item   | Status      |

# ADVISORY COUNCIL UPDATE

TONY LLOYD

# INDEPENDENT VALIDATION AND VERIFICATION (IV&V)

CONTENT PROVIDED BY  
PUBLIC CONSULTING GROUP

# IV&V Update

## Project Schedule

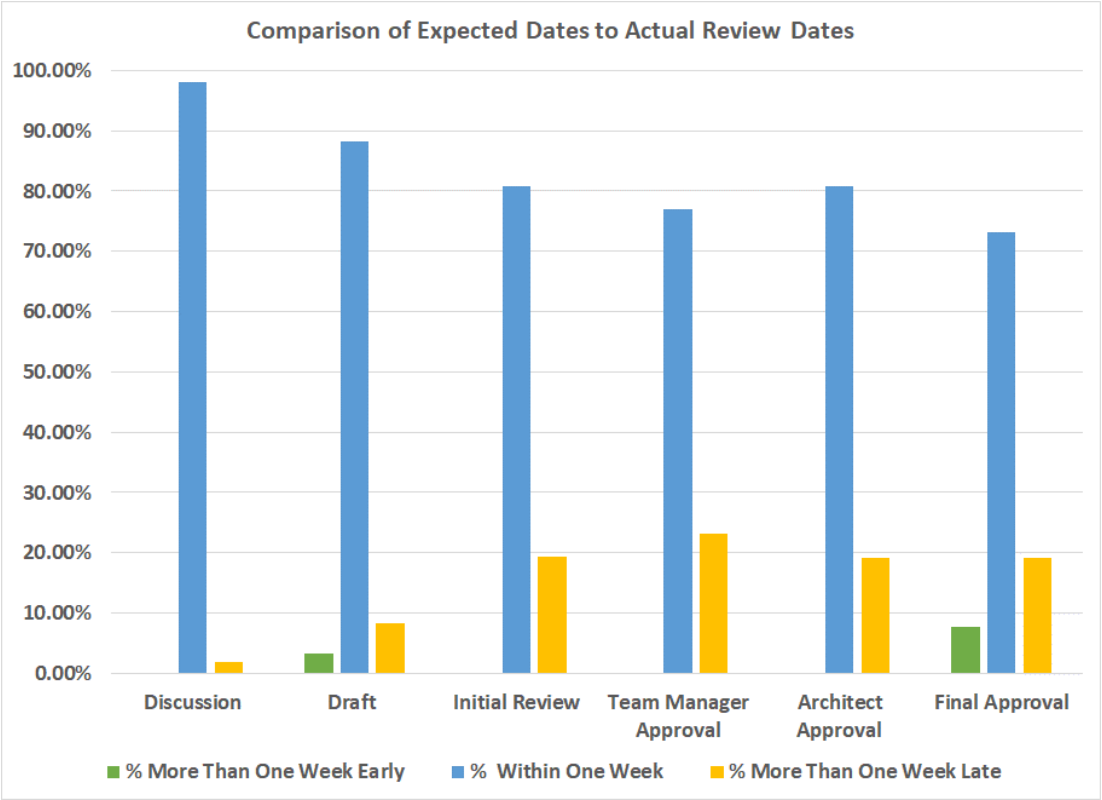

- ▶ The Florida PALM IV&V Team is closely monitoring the changes to the Florida PALM Project Schedule to reflect the completion of Design Segment I as well as the incorporation of key Project Decisions.
- ▶ The Florida PALM Project Schedule was showing late tasks at the end of July and the beginning of August; however, the Florida PALM Team has since completed all tasks for Segment I Functional Design. Lessons learned from Segment I are being applied to the other Segments to accurately define the Project Schedule.
- ▶ As of mid-August, there are no immediate high risks to the Project Schedule. The IV&V Team will continue to track the Project Schedule closely and will provide real-time feedback and recommendations to the Florida PALM Team should any trends be identified that may impact critical tasks for the Florida PALM Project.

# IV&V Update

## Functional Design

- ▶ All the Segment I Functional Designs were approved by the 8/4/23 scheduled date
  - Review of some of the Functional Designs did take longer than expected (19% were approved more than a week late) but this did not impact the overall Segment I timeline
  - Florida PALM Project Team is incorporating lessons learned from Segment I to streamline and consolidate reviews when possible
  
- ▶ Increase in the number of Functional Designs & Configuration Workbooks that need to be drafted and reviewed between August & October 2023
  - 86 Functional Designs for Segment II versus 52 for Segment I
  - 318 Configuration Workbooks and 12 Agency Configuration Workbooks
  
- ▶ IV&V will closely monitor and track review activities to identify any substantial variances

# IV&V Update

## Readiness Workplan and Agency Engagement for Segment I

- ▶ The Florida PALM IV&V Team attended Readiness Coordinator meetings and observed updates to the Readiness Workplan (I-WP126) and activities listed in the workplan.
  - As of early August 2023, Readiness Coordinators and Change Champion Network (CCN) staff worked on updating the master template for the training curriculum.
  - In addition, the approach to documenting the agencies' current state of business processes and process mapping was discussed.
  - During monthly agency touchpoint meetings, the Florida PALM Readiness Coordinators discussed any agency-specific needs, including training needs.
- ▶ Agency Engagement for Segment I Design:
  - The Florida PALM IV&V Team observed during the participation of agency engagement discussions that the conversation is to a good start of identifying possible approach to engage agencies on the Segment I specific design items and how to map the agency-specific business processes.
  - The Florida PALM IV&V Team will be participating in the subsequent discussions around finalizing the plans for agency engagement.

# IV&V SMEs Subject Matter Alignment

| Role   | Summary of Activities  | Name   |
|--|--|--|
| Treasury, Revenue, and Projects Team         | Participates and monitors all design, development, and configuration for this subject area. Once testing starts, monitors the fixes for any defects identified while the IV&V QA team monitors the re-testing activities.  | John Gunnufsen   |
| Ledger Management and Control Team           | Participates and monitors all design, development, and configuration for this subject area. Once testing starts, monitors the fixes for any defects identified while the IV&V QA team monitors the re-testing activities.  | John Gunnufsen   |
| Payables, Payroll and Assets Team            | Participates and monitors all design, development, and configuration for this subject area. Once testing starts, monitors the fixes for any defects identified while the IV&V QA team monitors the re-testing activities.  | Srikanth Durvasula   |
| Conversion                                   | Participates and monitors data mapping, conversion, cleanup, and reconciliation across the Teams.  | Sujith Vanga   |
| Interfaces                                   | Participates and monitors interface design, development, and initial interface partner testing. Once system testing starts, then monitors defect resolution for interfaces, while the IV&V QA team monitors overall testing activities.  | John Gunnufsen<br>Srikanth Durvasula                                     |
| Technology                                   | Monitors infrastructure, production support and handful of tech team RICEFW items.   | Rick Huff  |
| Data Warehouse Business Intelligence         | Participates and monitors standup, design, and development of reports in Data Warehouse. Monitors defect resolution once testing starts.   | Ewan Sin   |
| Project Management                           | Participates and monitors schedule, risks, issues, PCRs, and other PM activities.  | Jeff Hellzen   |
| Organizational Change Management (OCM)       | Participates and monitors OCM outreach activities, including Agency Business Process Transformation activities.  | Christine Jella  |
| Readiness Workplan/ Implementation Readiness | Monitors readiness work plans, implementation, cutover planning, and execution activities, including training.   | Christine Jella  |
| QA Testing Team                              | Develops and runs weekly and monthly metrics on a variety of areas, including PM, Design, etc. Then transitions to the quality assurance testing effort. Participates and monitors system testing and UAT planning and execution; plans and conducts independent testing and coordinates results with Florida PALM Project Team. | Preethi Kembhavi<br>Olga Zimnyakova<br>Bill Patton<br>Sivani Pogulakonda |
| IV&V Business Analyst                        | Provides general support across the areas and IV&V team members.   | Sebastian Lende<br>Matthew Berg  |

Note: Not a sum of all Florida PALM IV&V Positions

# IV&V Risk Assessment & Management

## 5 Steps to IV&V Risk Assessment and Management:

- 1) **Risk Identification:** Verify and validate Project deliverables and processes align with applicable state and federal standards and guidelines and industry best practices.
- 2) **Risk Analysis:** Review the cause or event that introduces the risk to the project and the impact the risk may have on the project (Preliminary Concern, Risk, or Issue).
- 3) **Risk Response Planning:** Provides structure that ensures a comprehensive process of systematically identifying risks at a consistent level (change management, requirements verification, training materials, etc.).
- 4) **Risk Reporting:** Communicating the identified IV&V risks to key stakeholders through the IV&V Findings Log.
- 5) **Risk Monitoring, Tracking, and Controlling:** IV&V is not responsible for implementing risk recommendations and mitigation strategies but will routinely monitor the risk. IV&V will track risk planning and implementation of risk responses, whether risk response actions are effective, and whether Project assumptions are still valid to name a few.

# IV&V Risk Assessment & Management

- ▶ Risk Impact Levels: Magnitude of Impact against Probability of Occurrence
- ▶ Determines Risk Priority Levels
  - **High:** Possibility of substantial impact on the Project, major disruption likely, and consequences would be unacceptable.
  - **Medium:** Possibility of moderate impact on the Project; some disruption is likely, and different approaches may be required.
  - **Low:** Possibility of a slight impact on the Project, minimal disruption is likely, and a different approach may be required.

| Probability of Occurrence      | Magnitude of Impact |         |            |               |            |
|--------------------------------|---------------------|---------|------------|---------------|------------|
|                                | Negligible 1        | Minor 2 | Moderate 3 | Significant 4 | Critical 5 |
| <b>Probable</b> 5<br>(80-90%)  | Low                 | Medium  | High       |               |            |
| <b>Likely</b> 4<br>(60-79%)    |                     |         | High       |               | High       |
| <b>Possible</b> 3<br>(40-59%)  |                     | Medium  |            | High          |            |
| <b>Unlikely</b> 2<br>(20-39%)  |                     | Medium  |            | High          |            |
| <b>Improbable</b> 1<br>(1-19%) |                     | Medium  |            |               | High       |
|                                |                     | Medium  |            |               |            |

## Project Change Requests – PCR 102

- ▶ Project Change Request 102: Production Enhancements Part 1
  - No Business Requirements (Attachment 5.1) or Customizations (Attachment 5.2) impacted
  - Change includes:
    - Modify CMI017 (Inbound Previous Day Bank Statement Addenda (NIC) file) to end in a Warning status and update the back dated NIC transactions to the previous day's date
    - Modify ARI020 (Outbound Returned Items Data file) to include unposted entries for only previously sent items
  - Cost – \$0
  - PCR was approved by Project Director

# Other

## Project Change Requests – PCR 103

- ▶ Project Change Request 103: Segment II AP and AR Extensions
  - Attachment 5.1 Business Requirements
    - *Moved to Optional Services:* 40.0098 (tied to grants module which is Optional Services)
    - *Updated:*
      - The following requirements are updated to align to customization 21 (Assets Additional Fields) – 40.0035, 40.0050, 40.0070, 40.0071, 40.0185, 40.0191 and 40.0199
      - The requirement 40.0041 is being updated to remove reference to customization 21 as it is met by delivered functionality
      - Requirements 30.0287 and 30.0325 are updated to change the ‘How Met’ from ‘Delivered’ to ‘Extension’ (customization 90 included in this PCR)
      - Requirements 60.1008 is updated to change the ‘How Met’ from ‘Configuration’ to ‘Extension’ (customization 91 included in this PCR)
    - *Canceled:* 40.0206 (Deleted status for assets dispositions which is tied to customization 20 which is proposed for cancellation)
    - *Add:* Requirement 30.1021 – Provide ability for systematic creation of the appropriate accounting entries for current and prior year payments once a payment cancellation has been approved

# Other

## Project Change Requests – PCR 103

- ▶ Project Change Request 103: Segment II AP and AR Extensions
  - Attachment 5.2 Customizations
    - *Updated:* Customization 21 (Assets Additional Fields) was updated to reference requirements 40.0035, 40.0050, 40.0070, 40.0071, 40.0185, 40.0191 and 40.0199 and to remove reference to requirements 40.0041 (Delivered) and 40.0098 (moved to Optional Services)
    - *Canceled:* Customization 20 – New Asset Disposal Code (Deleted)
    - *Add:*
      - Customization 90 AP Payment Cancellation Page
      - Customization 91 Deposit Type Restriction
  - *Cost:* \$189,534 (using credit)
  - *Approval:* Requires ESC Approval (Vote)
