Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

AHCA Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes Technology	When SunFocus and other urgent operational events occur, resources will be shifted to focus on the operational events thereby impacting the completion of Florida PALM tasks (schedule).	Open	9 (High/High)	Production incidents and time sensitive activities will continue to interfere with the resource-tight bureau. Assume the risk and work with the PALM Project staff to identify when a deliverable will be late. Document each occurrence and continue working on Florida PALM tasks and activities.	On-going	11/02/23	Phyllis Wander
People	If Florida PALM project scope increases, the Agency's current LBR funding requests will be inadequate to complete the Florida PALM transition (schedule, scope and budget).	Open	6 (High/Medium)	Request administrative funding from the Legislature.	On-going	11/02/23	Phyllis Wander
People Processes	Loss of Institutional Knowledge - Matriculation of knowledgeable business process and the SunFocus Application resources will hinder the progress of the project thereby impacting the timely completion of Florida PALM tasks (schedule).	Open	6 (High/Medium)	Continue to document desk procedures and manual processes and systems as well as encourage cross-training of operational functions.	On-going	11/09/23	Phyllis Wander

AHCA Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People Technology	After requesting system documentation, the Vendor team has not provided any functional/system documentation for SunFocus to attach to Florida PALM Task 326. The task did not meet the scheduled due date of 10/27/2023.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	2/28/2024: Monitor the completion of Segment I and II updates to the documentation. Escalate	4/30//2024: Vendor team provided updates to documentation (Tasks 504 and 516) but it was incomplete. 4/19/2024: Vendor team provided documentation in the proposed format but has not provided in updates. Meeting Coordination between the Florida PALM technical team needs to be held to answer outstanding questions Vendor team has. Coordination of that meeting will begin again after the first attempt.	01/15/24	Scott Ward

					<p>after the first attempts failed. Will update the resolution date when meeting is scheduled.</p> <p>2/28/2024: Segment I updates were not included with the initial documentation.</p> <p>2/23/2024: Met with the Vendor team and reviewed the documentation (in-progress). Initial documentation (Completion of Task 326) is expected before the end of the reporting period (February 29th).</p> <p>2/9/2024: AHCA Management has reached out to the Vendor to address the need for system documentation.</p>		
People Processes Technology	If the resources are not identified and on-boarded by the end of March 2024, 1) the Agency will not complete the tasks in a timely manner and 2) the Agency will not transition to Florida PALM in January 2026.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Immediate plan is to add an additional BA or Business Process Consultant to document the HR/Payroll processes and complete the tasks that were done for the Financials Wave.	<p>4/19: BPC 1 has been onboarded with the second one to begin on 4/29</p> <p>4/10/2024: BPCs with extensive FLAIR background confirmed for the 4/29.</p> <p>3/22/2024: Business Process Consultant (BPC) accepted position to begin in the next few weeks.</p> <p>3/11/2024: Initial round of interviews completed.</p> <p>2/28/2024: Currently holding interviews.</p> <p>2/9/2024: Resumes have been received and reviewed by the AHCA team. In the process of setting up interviews.</p> <p>01/11/2024: Re-evaluated the advertisement and revised the eQuote documentation. Plan to post at the end of the week.</p> <p>11/09/2023: Reviewed current resumes, but they did not have the specific skills we were seeking. Need to re-evaluate and resubmit a posting for the Staff Aug.</p>	01/15/24	Phyllis Wander

APD Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People Processes Technology Data	APD Grant Field	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	APD does NOT have Grants - however the grant field in FLAIR is used as an indicator - and the data in this field needs to be converted to PALM but needs to be corrected/mapped/correctly for PALM so that it does not land in the grant field. Fix before migration. Determined to use OA2 and team is focused on corrections in FLAIR at this time.	2/29 - Revenue Team is in review and walk thru exercises are in progress to determine fix prior to data migration 4/22 - remains a critical consideration as this will be a mapping and scripting issue due to: APD Does NOT have Grants - use of the field in FLAIR caused this to be "called" a grant - this will become OCA2	12/31/24	APD finance Team/APD Revenue Team/BA/PM
People Processes Data	APD Finance G/L Team - questioning when there will be a final approved full PALM Chart of Accounts listing provided	Closed	High - Impacts the ability of the agency to meet deadlines or milestones	APD Milestone to complete a mapping exercise that will align the APD G/L (Full COA) with the newly structured COA List and Descriptions. Target Goal (First Run) by January 31, 2024	This is will be an on-going -December 2023 - new chart fields finalized and the APD Team will be working to align old to new - 2/6 - COA meetings to review and support Task 513 - Finance Team	03/29/24	APD Finance Team

	implementation of tasks as the time that the resources we will be able to catch up and move forward.				2/20 - 2/6 - Tech Support pending 4/22 - update March hire of BA and April Hire of TA		
People Processes Technology Data	APD is the process of initiating some organizational alignment changes within the agency.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	APD teams are effected with any organizational change for accounting and financial alignment. The agency is keeping everyone aware so that there are no impacts as APD aligns with the new COA and system set up for PALM	Awareness is key and APD is keeping an open communication line to highlight any accounting impacts with organizational changes. 2/29 - reviewing and aligns with the new Task Talk overview - noted 4/22 - new organization chart has been drafted and will initiate a change in organizational structure - G/L will be updated as approvals are completed	06/28/24	APD Sponsor and Finance Team
People Processes Data	APD Finance G/L Team - final PALM Chart of Accounts listing provided for workbook	Closed	High - Impacts the ability of the agency to meet deadlines or milestones	APD Milestone to complete a mapping exercise that will align the APD G/L (Full COA) with the newly structured COA List and Descriptions. Target Goal (First Run) by January 31, 2024 - 2/6 - new task 513 - to accomplish Workbook initiatives for PALM - in progress 4/22 - The Task 513 Workbook has aided in the closure of COA structure and mapping efforts - closed to completed Task 513	This is will be an on-going APD Team will be working to align old to new - 2/6 - COA meetings to review and support Task 513 - Finance Team 2/29 - asset mgmt team is engaged for location inventory	03/29/24	APD Finance Team
People Processes Technology Data	APD Location Identifier - Asset Mgmt Team	Open	High - Impacts the ability of the agency to meet deadlines or milestones	APD uses the Location Identifier for purposes that are tied to Warrants and the delivery of warrants to the correct site location. There is a need to clean this up and a better understanding of the use in PALM is being reviewed with questions and support from the PALM team	2/29 - meetings to discuss planned for 2/29 - so that the worksheet updates can be supported by the Asset Management Team 4/22 - the inventory clean up and alignment with G/L cleanse is in progress - not yet closed	07/01/24	APD AM Team - BA - PM - Core Team
People Processes Technology Data	PALM Business Process Modules DO NOT align with the naming convention on the new PALM Modules - this is a new learning issue after adjusting for team purposes	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Re-mapping - and will re-educate the teams to their PALM Module Name - REALLY causes "change management issues"	4/22 - new change - business process models vs PALM Modules names - they don't align and APD has renamed their teams based on the Business Process Models/Modules originally introduced.	06/28/24	APD Teams/CCN and SME's
People Processes Technology Data	APD Inventories - Asset and Encumbrances - Process Improvement	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Working with teams to establish and document pro	4/22 - still in process - unable to finish based on the Task requirements and due date of 4/12 4/24 - Asset Team has issued the Inventory requirements for fiscal yr end - and with that the effort to close is targeted for full cleanse of ALL inventory by June 30, 2024 4/24 - Encumbrances - part of the YE Close.	07/01/24	Asset Mgmt and Encumbrances by the Disbursement team
People Processes Technology Data	APD is in the process of a Business System re-write to the ABC system and this will require a 2 x re-write for support as PALM is onboarded	Open	High - Impacts the ability of the agency to meet deadlines or milestones	ABC project is pending a hold to address current a	4/24 - the Business System requirements at APD are unique due to the clients services provided. Need to update is critical but the affect to do this 2xs is being measured. TBD on the outcome and IT decisions	12/30/24	APD IT Team
People	APD Organizational changes will change the alignment of the personnel within the agency - but no approvals are final and there remain accounting adjustments to support until the accounting structure can be corrected	Open	High - Impacts the ability of the agency to meet deadlines or milestones	The teams are working to get DMS approvals thru	4/24 - APD accounting is keeping the org codes in place that are currently in use based on FLAIR and will change as needed (approvals come thru) but there is no date when this will be accomplished. No changes to existing orgs at this time - and that is imposed on the PALM project activity.	06/28/24	APD Agency as a whole

APD Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People Processes Technology Data	The vendor-directed project plan aligns with the requirements and objectives outlined in the state government regulations and legislative directives specific to APD.	Logged	09/06/23	PALM Project Team/APD Project Team	On-Going with PALM Team Readiness Plan	
People Processes Technology Data	Sufficient resources, including personnel and infrastructure, will be available to support the implementation by APD and will require additional resources as defined by the PALM project Plan for Conversion	Logged	09/06/23	PALM Project Team/APD Project Team	Working on Task 503 - In progress 4/24 - noted that the PALM Project Personnel for APD has been Hired: HB for Business Analyst/KB for Sr. Technical Analyst	
People	The state government will continue to provide the necessary cooperation and support for the project's success along with our APD Sponsor support.	Logged	09/06/23	PALM Project Team/APD Project Team	On-going	
People Processes	The PALM vendor has expertise in implementing cloud-based financial systems and complying with state government	Logged	09/06/23	PALM Project Team/APD Project Team	On-going with Amendment 8 approved - move forward with PALM Directives as defined	

technology Data	regulations with AP-U looking to gain information and support from the PALM teams as needed or required.				
People Processes Technology Data	Financials, Payroll, and Data Warehouse will be implemented at one time in January 2026	Logged	09/06/23	PALM Project Team/APD Project Team	To be focused at conversion timeframe at 4th qtr. of project 4/24 - Conversion Plan is not yet created by the PALM Team and is a significant requirement for the IT and Finance Teams at APD
People Processes Technology Data	All agencies will transition together.	Logged	09/06/23	PALM Project Team/APD Project Team	To be focused at conversion timeframe at 4th qtr. of project
People Processes Technology Data	Agencies/APD will have significant time to test and practice specific transactions before go-live in a dedicated testing environment (UAT)	Logged	09/06/23	PALM Project Team/APD Project Team	second half and then ongoing as the project readiness plan is outlined by PALM
People Processes Technology Data	The Florida PALM production sandbox will continue to be a copy of the current production environment and will be updated in January 2026 for this major implementation	Logged	09/06/23	PALM Project Team/APD Project Team	second half and then ongoing as the project readiness plan is outlined by PALM
People Processes Technology Data	Dedicated hyper care and post-implementation support will be available following implementation to ensure stabilization of business operations within APD	Logged	09/06/23	PALM Project Team/APD Project Team	Post implementation - At Live
People Processes Technology Data	APD Business Systems will continue to be used within APD and be supported with gateway/interface connectivity to the PALM Database for data capture as needed by APD - stay in the same effort as currently supported with FLAIR	Logged	12/27/23	PALM Project Team/APD Project Team/APD IT Team	Technology alignment 4/24 - noted that APD will initiate review of Business Systems for retention after the conversion to PALM Platform - there will be a timeframe to review and consider PALM capabilities/reports/access that will aide in this determination sponsored by the APD IT Team.
Data	APD is assuming responsibility thru Task requirements to perform data cleansing activities and that any data transformation or cleansing processes required during the pre-migration timeframe will be successfully implemented in the best captured data at time of migration.		04/24/24	APD Finance Teams	4/24 - there is still no defined conversion plan so that data input and accounting activities are not frozen and unaffected at time of conversion - this is critical to accounting reconciliation after conversion - cleansing data is ongoing and APD will face 2 Fiscal year ends prior to the conversion to PALM. The assumption is that data will be pulled at the last possible time with imposed moratoriums on activities while data is loaded into PALM for use in past conversion.
People Processes Technology Data	APD assumes that the security matrix for Module Use is fully in place at migration to PALM so that all teams can reconcile and work to validate data transfer		04/24/24	APD Finance Teams	4/24 - understanding team business process vs PALM Module accessibility has been identified and the teams overlap must be tailored to their work activity.

CITRUS Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology Data	The quality of audio on webinars and recordings is low. Our team does not feel it is receiving much needed information presented during these workshops	Open	9 (High/High)	Please see what you can do to upgrade the quality of webinars	Data Day was a disaster for us, and a loss of productivity as we had 4 team members relying on the webinar.	04/30/24	PALM Team
Processes	Citrus currently purchases foreign currency to pay overseas vendors. We use a SPIA account, and transfer funds as needed to wire payments overseas. Foreign vendors are transitioning away from accepting paper check, which is the only way the state will allow us to pay with USD (Treasury will not wire funds to a foreign bank).	Open	6 (Medium/High)	We will discuss with our new project manager, to determine how foreign currency payments will be handled through PALM	New Risk entered this period	04/29/24	C Marion
People	New IT staff with no knowledge of PALM	Open	2 (Low/Medium)	We have one IT support staff member, and he was not here for the CMS Wave of PALM, and has no knowledge of PALM.	Attended Tech Town Hall on Sept 19, and added George to future PALM team meetings. Update as of Jan 2024: There have been no training or information sessions targeted for technical support. We are unsure of the role our technical support person will play in PALM. He has very little to do with FLAIR,	09/19/23	C Marion

CITRUS Issues

Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Technology Data	The PALM team presents some workshops as webinars, but the technology is not very good. Audio is either choppy with echoes, or completely nonexistent.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	It is not possible for us to travel to Tallahassee for every meeting. The quality of the webinars is so low that it is not productive for our team to participate	Data Day was a huge disappointment, as our team will be responsible for a lot of these activities. Resolution must come from PALM Team. We hope that our new project manager can assist with this task, since the PALM project cannot provide a quality remote solution.	07/31/24	PALM

CITRUS Assumptions

Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates
People Processes	PALM sandbox will be available to all CCN members prior to go-live	Logged	11/14/23	PALM Project Team, Citrus Accounting Dept, CCN's	Citrus staff has been granted access to sandbox, but only with same access as Production
People Processes Technology Data	Agencies will be given sufficient time to test and practice critical transactions before go-live in a dedicated testing environment	Logged	11/14/23	PALM Project Team, Citrus Accounting Dept, CCN's	We have access to sandbox, but only with current rights (for CMS Wave). At some point, it would be great if we could go in and "explore" in the sandbox.
People Processes Technology	General Revenue Funding will be made available for Agency support of the PALM project	Logged	11/14/23	Citrus Accounting Dept and all Admin staff, CCN's PALM project team	GR Funding for FY2024-25 included in Legislative budget, pending Governor approval. BAPS request for current year funding was approved and project manager has been contracted through staff augmentation, to start April 30, 2024.
Processes Technology Data	Reporting will be available at go-live to support our business needs	Logged	11/14/23	Citrus Accounting Dept and all Admin staff, CCN's PALM project team	No updates on Reporting at this time
People Processes Data	Data fields will be provided to support all components Citrus currently uses (such as OCA's)	Logged	11/14/23	Citrus Accounting Dept and all Admin staff, CCN's PALM project team	Staff is currently completing Task 513, which defines data fields for configuration in PALM
Processes Technology Data	The PALM project team will provide solutions and integration for Enterprise applications - WORKS, STMS, People First, Etc.	Logged	11/14/23	Citrus Accounting Dept and all Admin staff, CCN's PALM project team	PALM team has assured us that enterprise programs will integrate at go-live.

People Processes Technology	Citrus assumes the PALM Team will provide both in-person, on-line, and recorded training for CCN's and all accounting staff	Logged	11/14/23	Citrus Accounting Dept and all Admin staff, CCN's PALM project team	This assumption will remain until UAT and/or training begins
People Processes Data	Vendor maintenance done outside of PALM in AOD	Logged	02/09/24	Citrus Admin Staff, CCN's PALM project team	This assumption will remain until more information released

COM Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes	SME Workload	Open	9 (High/High)	Currently we are awaiting legislative budget amendment approval to procure support resources	Delegated some day-to-day activities to staff members not directly involved with PALM. This change allows CCN team members some time to work on PALM each week. UPDATE as of 4/29/2024: Lead SMEs currently training new resources to be independent.	04/29/24	Caroline (Tisha) Womack / Lemuel Toro
People	Lack of support for Life-to-Date Accounting and	Open	9 (High/High)	Create internal life-to-date reporting system	Commerce needs LTD	04/29/24	Lemuel Toro / Caroline

Processes Technology Data	Reporting				balances for federal grant reporting, which is a predominant portion of funding for this department. PALM will make available a Project Costing module that has some type of LTD capability but details are not known to agencies at this time. Contingency plans have been identified and Commerce is currently working to determine best response if Project Costing module will not provide needed support.		(Tisha) Womack / Dean Modling / Ken Heim
Processes	The current schedule for review of Payroll Wave Business Models allows insufficient time for comprehensive agency review.	Closed	6 (Medium/High)	At present all we can do is await the publication of the meeting materials.	Risk closed.	03/08/24	Lisa Simpson
People	SMEs who will provide vital support to PALM project during Segment IV workshops/meetings may also be needed to complete Financial Statement and Legislative Budget Request (LBR) tasks during the May 2024 - September 2024 window.	Open	6 (Medium/High)	Identify SMEs and SME backup team members.	SMEs with new staff/resources are currently training staff on day-to-day activities, as well as PALM related support. Agency Reported

The Risks, Issues, Assumptions and Readiness Activities table below display only items that were opened/logged, closed/resolved or active during the reporting period.

DACs Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology	There is a mismatch between the Interface Layout and sample data files provided by the PALM team. It means that the sample data files are inconsistent with the interface layout. As the result, many times it's not possible to develop and test the interfaces.	Open	9 (High/High)	For the purposes of testing the interface, the sample data file is manually modified to fit the interface layout so the interface process could be tested. However, it means this is no longer a true test.	Reviewed Monthly	04/22/24	Rosemarie Zubler

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

DBPR Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Data	If we are not able to bridge the gap of institutional knowledge caused by the retirement of Accounting Systems Analyst, then details could be missed that impact DBPR's readiness	Open	9 (High/High)	Advertise position as soon as possible; hire new employee in time to overlap with retiring employee	Sessions to review Business Processes and assign applicable training have been conducted. 20240111 Work in progress to advertise John Mounts' position; new Revenue/Financial Reporting manager Lyndell Francis has started - in addition to state/accounting background, he also has IT background	01/11/24	Sally Huggins
People Processes Technology Data	Timing of Segment IV review & design workshops	Closed	9 (High/High)	Planning, planning, planning. We will need to send as many CCN and SME members as possible to make sure understanding of reviews and design is captured, but end of year finance & accounting activities take priority.	The timing and content of the Segment IV business process model reviews and design workshops is not ideal, as has been acknowledged by the project. Impacts will definitely be felt at smaller agencies, like DBPR. Escalated to an Issue.	03/08/24	Sally Huggins
People Processes Technology Data	If PALM does not provide efficient Data Warehouse tools similar to FLAIR@BPR capabilities, then DBPR may not have the data necessary to complete To Be Business Processes once we go live	Open	9 (High/High)	Review and document FLAIR@BPR data requirements and compare to PALM Chart of Accounts to identify any gaps	Reached out to PALM RC to establish a game plan for mitigating this ASAP PALM Undefined To Be Business Processes and Data Repository unknown makes assessing remediation needs difficult	04/23/24	Thomas Richardson
People Processes Technology Data	If all tasks and related details are not recorded in the Project Schedule, then some tasks may slip through the cracks, and we may not be ready for PALM as scheduled	Open	6 (High/Medium)	If all tasks and related details are not recorded in the Project Schedule, then some tasks may slip through the cracks, and we may not be ready for PALM as scheduled	All current DFS PALM assigned have been assigned detailed tasks in the Project Schedule. 20240408 Project Manager is fleshing out and adding details to the Project Schedule. It is a work in progress.	04/08/24	Thomas Richardson
People Processes Technology Data	Completion of tasks	Closed	4 (Medium/Medium)	Mitigation - Work with reputable staff augmentation organizations to find experienced, qualified staff	Organizational Change Manager consultant and Project Manager Consultant have been onboarded.	04/02/24	Sally Huggins
People Processes Technology Data	If the Finance & Accounting staff's understanding of what project considers Agency Business System affects completion of tasks changes, assigned project Tasks may not be completed properly, which could impact DBPR's readiness	Open	4 (Medium/Medium)	Mitigation - Review Agency Business System information to ensure all relevant systems are included in the ABS Inventory (see Task 326, 504)	As early as Fall 2020, we were assuming everything was a business system but the guidance provided by the project at the time indicated that only systems that had a direct connection to FLAIR were considered an ABS, so we reported only very little systems. In our December 2023 Technology touchpoint,	02/29/24	Sally Huggins

					we learned that our original understanding was what the project is now considering an ABS, so we are playing catchup in identifying our AB systems.		
People Processes	If Decisions made by DBPR Leadership are not monitored and logged, then timely Decisions needed to stay on track may not be achieved	Open	4 (Medium/Medium)	Mitigation - Ensure all pending and completed Decisions are documented, tracked/managed, and recorded. Review as needed.	Project Manager has created a Decision log and is managing all Decisions on a weekly basis. These efforts appear in the Project Schedule on a weekly basis under Monitoring and Controlling.	04/08/24	Thomas Richardson
People Processes Technology Data	If DBPR Finance & Accounting staff cannot understand To Be Process Flow language (created by DFS PALM), then they will not be able to map current Process Flows nor confirm the accuracy of the To Be Process Flows and that could lead to incomplete work flows	Open	4 (Medium/Medium)	Continue to expose the staff to Business Processes and related details and ensure they have access to all tools (UAT sandbox, etc.)		04/18/24	Thomas Richardson
People Processes Technology Data	If DBPR Finance & Accounting does not have someone that understands FEMA and the steps necessary to recoup expenditures, then DBPR may not be reimbursed for expenditures incurred for large DEM projects (or will receive a possible audit)	Closed	4 (Medium/Medium)	Mitigation - Ensure an OA is filed timely; work with Patty Broadway to ensure process compliance	Moved from DBPR PALM Readiness Project Risk Register to DBPR Enterprise Risk Register and will be managed there.	04/18/24	Lyndell Francis
Processes	If we do not validate current DBPR Finance & Accounting processes as accurate and complete, then the future state (To Be) may not be accurate and efficient Open	Open	3 (High/Low)	Mitigation - Validate all current DBPR Process Flows	"Steps to review current Process Flows are under way. 20240408 OCM Manger is preparing for and coordinating related activities."	04/08/24	Gary Townsend
People Processes	If a DBPR Finance & Accounting current state Process Flow is not mapped to its corresponding future state Process Flow, then the process owner will not be prepared for day 1 processing in PALM	Open	3 (High/Low)	Mitigation - Validate all current DBPR Process Flows	Mappings are not 1 for 1 and are difficult. Tasks have been added to the Project Schedule to track and OCM lead will address. 20240408 OCM Manger is preparing for and reviewing current state process flows.	04/08/24	Gary Townsend
People Processes	If DBPR Finance & Accounting process owner resources are not available as needed, then the process flows may not be validated/developed, and this will impact DBPR PALM readiness	Open	3 (High/Low)	Mitigation - Complete Stakeholder Register after identifying process owners and work with them to ensure availability	Staff have multiple daily responsibilities that will need to be coordinated.	04/08/24	Gary Townsend
People	If DBPR process owners are not prepared from an Organizational Change perspective (training, documentation, understanding, and emotional), then PALM readiness could be negatively impacted	Open	3 (High/Low)	Mitigation - Analyze DBPR future Process Flows to identify new process steps, document them, and communicate with Process Owners	OCM Manger is working with the Project Manager to ensure all required tasks and deadlines are entered into the Project Schedule and managed accordingly.	04/08/24	Gary Townsend
Processes	If all new To Be Business Requirements are not captured, communicated, and reviewed by the technical team for feasibility, then DBPR future state processes may not be properly addressed (developed, tested, documented, etc.)	Open	3 (High/Low)	Mitigation - Ensure that all Business Requirements are captured in the RTM and shared with all key stakeholders	See new Assumptions around RTMs and traceability. 20240408 OCM Manger is working with the Project Manager to ensure all requirements are identified and entered into the Requirements Traceability Matrix (RTM) template.	04/08/24	Thomas Richardson
Processes	If approved DMS Rule 60GG templates and processes are not utilized/followed, then this project will be out of compliance with State regulations and is subject to a failed audit	Open	3 (High/Low)	Mitigation - Ensure all currently approved Rule 60GG templates and processes are used for this project	Project Manager has created and stored all Rule 60GG deliverable templates for the Initiation and Planning Phases.	04/08/24	Thomas Richardson

DBPR Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People Processes Technology Data	If Timing of Segment IV review & design workshops interferes with end of year Finance & Accounting activities, then F&A Business operations could be adversely impacted	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Planning, planning, planning. We will need to send as many CCN and SME members as possible to make sure understanding of reviews and design is captured, but end of year finance & accounting activities take priority.	The timing and content of the Segment IV business process model reviews and design workshops is not ideal, as has been acknowledged by the project. Impacts will definitely be felt at smaller agencies, like DBPR.	09/30/24	Sally Huggins

DCF Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Processes Technology	Cost Allocation Not Available in PALM. (See attachments)	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	TBD	DCF is revisiting as plans for remediating internal applications for PALM. Several overtures have been made to PALM RA to communicate functional impacts to DCF processes and requesting one or more sessions with PALM technical and DFS F&A staff regarding DCF concerns.	01/01/26	Joan Davis
Technology Data	SpeedKey functionality and ability to maintain at the agency level	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	DCF will work to get a better understanding of the speedkey functionality to maximize the use of speedkey to accurately capture encumbrance obligations, payments and minimize corrections to GL's.			

Processes Technology Data	DCF's journal distribution process	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	As DCF is moving forward with reviewing and updating processes, we have several concerns related to the journal distributions which is a critical business process in DCF. We have sent the related concerns to the PALM team and are awaiting their response and a meeting to be set up with the PALM tech leads and design architect team. Several of our updates are dependent on the concerns being addressed.	waiting on PALM team response		DCF team

DCF Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People Processes Technology Data	DCF will be able to timely access the available Administered funds to support PALM readiness activities.	Logged	07/17/23	DCF-Departmentwide	This assumption is currently an open issue.	
People Processes Technology	DCF's Project Sponsor will support the project by establishing and maintaining a project team that will manage the ongoing readiness activities and their associated dependencies.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes Technology Data	DCF executive leadership will support the project by providing resources, access to systems and stakeholders, and by supporting the organizational change management strategy created by the project team.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes Technology Data	DCF's project team possesses the necessary skills and expertise in the required disciplines to ensure project success.	Logged	07/17/23	DCF-Departmentwide	None.	
People	DCF's hybrid product/project management framework approach combining predictive and agile methodologies is suitable for the project's objectives.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes Technology Data	DCF business system owners will provide requirements for necessary system modifications with enough detail and time to implement the changes according to the Florida PALM schedule.	Logged	07/17/23	DCF-Departmentwide	None.	
People	DCF project stakeholders, involved parties, and other interested individuals will be available for feedback and review of documentation to meet readiness requirements and project milestones.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes Technology Data	DCF's Florida PALM project team can gain access to relevant documentation, specifications, and knowledge about the legacy enterprise systems and their data structures.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes Technology Data	State of Florida legacy enterprise systems have accessible data sources that can be utilized for extracting and integrating data into the Enterprise Data Warehouse.	Logged	07/17/23	DCF-Departmentwide	None.	
Technology Data	DCF's Enterprise Data Warehouse architecture and infrastructure can accommodate the additional data and effectively handle the integration process.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes	The external schedule for implementation is determined by the DFS Florida PALM project. All key milestones and transition dates are provided by the larger PALM Project.	Logged	07/17/23	DCF-Departmentwide	None.	
People Processes	The Florida PALM project will provide key information identifying the functionality, business processes, and timeline of the larger project in a timely manner to facilitate planning and execution.	Logged	07/17/23	DCF-Departmentwide	None.	

DCF Agency-Specific Readiness Activities					
Critical Operational Elements	Activity Description	Date(s)	Impacted Stakeholder(s) and/or System(s)	Objective	Reporting Period Comments or Updates
People Processes Technology Data	Scheduled internal meetings around specific readiness activities - particularly documentation of impacts to Business Processes and Systems out of segments 1 - 3.	04/01/24	DCF Department-wide	Documentation of impacts to Business Processes and Systems out of segments 1 - 3	Several meetings held to date and will continue through next quarter as needed.

DEM Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	Challenge in filling vacant positions in Finance & Accounting	Open	9 (High/High)	Utilize other Finance employees to assist when needed	No Change	12/24/23	Karen Peyton
People Processes	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Risks exist surrounding data management, reporting, payments, transaction differentiation, and incorrect updates based on assumptions of shared/not shared data in DEM business systems.	Open	9 (High/High)	The EOG and DEM have met with FL PALM to outline concerns and have requested additional meetings regarding pending inquiries. It was determined that many of the solutions initially discussed will not be able to be effectively implemented. We will continue to monitor and meet with the PALM team as the final design takes shape to determine the best methodologies for the differentiation of data.	Updated after the last meeting.	05/09/24	Karen Peyton
People	Ability to be fully devoted to the project because of unpredictable response activities related to natural disasters and other threats to the state and its citizens.	Open	4 (Medium/Medium)	Endeavor to utilize other staff members and/or employees from other agencies to assist	No Change	12/24/23	Karen Peyton
People Processes Data	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Detailed risk outline above relates to payment management. In reviewing the hardcopy draft of new warrants, if the wrong payment handling code is selected by DEM, EOG will not be able to tell who the warrant belongs to since BE is not printed on the warrant.	Open	4 (Medium/Medium)	The EOG and DEM have met with FL PALM to outline concerns. We will reach out to the PALM team during configuration to determine at what level certain codes can be defaulted to ensure this does not happen. As long as the warrants do not combine, we will be able to research to accomodate. If warrants combine, the entire warrant may need to be deleted and invoices re-vouchered.	The volume of invoices that are processed by DEM (especially those related to disaster activity) could possibly exacerbate this issue.	05/09/24	Karen Peyton

DEP Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology Data	Unclear Requirements and Potentially Changing Requirements could affect the agency business system remediation schedule	Open	9 (High/High)	FDEP needs to have sufficient knowledge of the changes to its financial systems and allow for adjustments to the implementation schedule for unplanned changes/updates to requirements and design.	Without finalized interface specifications, the application team may have limited visibility into the expected changes in the data formats and structures. This ambiguity can lead to misinterpretation or incorrect implementation of the new PALM interfaces. Additionally, there is the potential that previous design specifications could change as a result of subsequent discoveries in later design segments. - Design Specifications should be completed for all process areas by Segment IV. DEP is monitoring this risk.	11/13/23	Brady Schmidt
People Processes	<p>Based on the current PALM schedule, training delivery of processes is slated to begin at the same time as PALM UAT (User Acceptance Testing).</p> <p>There is a risk to the agency that the testers will not have a complete understanding of all the details of each process in time for them to participate in a UAT. Testers may not be able to understand all the nuances of the work end-to-end process they are supposed to be testing without full knowledge.</p> <p>This could potentially not only lead to ineffective testing results, but could possibly cause more confusion. If certain assumptions that were made by the agency on a particular process are no longer valid post-training, this could potentially lead to rework of agency documented procedures, and changes to ABS systems.</p>	Open	9 (High/High)	Use of the Knowledge Center and specifications received from Design sessions should help to some extent in understanding the processes. Once details of screen design functionality is available, the teams can get a better grasp of the end-to-end process flow.	Discussed this at the PALM Touchpoint meeting in April 2024.	04/02/24	Bento Eyles and Steve Waters
People Processes Technology	Risk to loss of knowledge due to staff turnover	Open	6 (High/Medium)	Ensure job-specific processes are properly documented.	FDEP has engaged the Division/District/Office staff throughout the department and is documenting key business processes to ensure knowledge sharing is continuing.	11/13/23	Lydia Griffin & Steve Waters
People Processes Technology Data	<p>The finalization and end-to-end walkthroughs of the business processes and screen flows pertaining to PALM functionality are now scheduled for early October through the Design Recap sessions.</p> <p>Since the business processes were staggered iteratively to the agencies with several missing pieces due to a design segmentation approach, and with high-level draft screenshots, there is little opportunity currently for agency personnel to have a walkthrough of the "end-to-end finalized business process workflows and screen flows" with finalized screen designs and functionality descriptions, which are now planned for October through the Design Recap sessions or as and when PALM indicates that designs have been locked down.</p>	Open	6 (High/Medium)	<p>PALM has added a 3 day Segment Recap Workshop in October.</p> <p>DEP will monitor this risk and continue to seek details of what will be received in advance of and during the Recap sessions from PALM.</p>	<p>The FDEP PALM project team brought this to the attention of the PALM Readiness coordinator for review. Further confirmation from PALM as to what details will be provided at the October Recap sessions is awaited. Risk monitoring will continue.</p> <p>The FDEP PALM project team will also work closely with agency personnel to apprise them of changes to designed processes, workflow,</p>	02/27/24	Bento Eyles and Steve Waters

	<p>The agency has to understand these final designs and then finalize agency business systems and understand how the changes affect the inputs to, and outputs from, PALM, while understanding how defined reporting may be affected.</p> <p>There is a risk of delay to agency business system updates unless the final designs are submitted by PALM well in advance of UAT, to allow sufficient time for agency business system changes to occur and be tested prior to PALM UAT activities.</p>				procedures, screen flows and reports as they are confirmed and published by PALM to the agencies.		
Processes Technology Data	<p>DEP needs details regarding PALM's Data refresh strategy in advance of UAT to allow DEP to test Agency Business systems (ABS) in advance of the UAT test Cycle and prepare accordingly for UAT.</p> <p>If PALM does not clarify their data refresh plans, DEP assumes the following risks:</p> <ul style="list-style-type: none"> - inaccurate test results due to outdated data data, - not having data that accurately simulates real-world scenarios, - inability to test time-sensitive features, - inefficient use of team members' time leading to waste (time spent waiting on refresh or creating new tests at the last minute), - ineffective scheduling of test activities, - inefficient or ineffective data integrity and flow between DEP systems and PALM (is the correct data transferred and updated at the right time, and are any necessary translations occurring as designed, and is there data loss or corruption), and - inability to effectively assess the scalability of the solution. 	Open	6 (High/Medium)	DEP will monitor this risk and continue to seek details of what will be received from PALM and by when.	The risk was brought forward for discussion at the PALM Touchpoint meeting on 3/13/2024 and PALM has responded that they will be working on this in a future data strategy update relating to test data refreshes.	03/13/24	Steve Waters and Dan Zimmerman
Processes Technology Data	Increased Risk of Application Update Errors	Open	4 (Medium/Medium)	Sufficiently documented business system processes and accurate sample data is necessary to ensure reduced risk of application errors. Testing applications thoroughly will mitigate this risk.	Rushing the update process or making assumptions without proper interface specifications and sample data can increase the risk of errors and inconsistencies. It may result in data integration issues, data loss, or inaccurate data processing, which can impact the reliability and functionality of the application.	11/13/23	Brady Schmidt

DEP Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People Processes Technology Data	SME Process & Business System Knowledge	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Catalog Desktop Procedures, Document Business System functionality and interfaces.	FDEP Project Team continues to facilitate information gathering and identifying financial data impacts. The results will be used for future planning of PALM implementation.	07/01/25	Lydia Griffin, Steve Waters
People Processes Technology Data	Identifying changes to processes and business systems as a result of a staggered design segmentation approach which can potentially change designs after the fact is hindering the ability of key business and technical resources to reach a decision or agreement about resulting impacts to agency business processes and systems due to known "unknowns".	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Identifying key requirements now while keeping an open mind to potential changes down the road and structurally delineating future state requirements into known vs. unknown may help in building incremental build components and requirements for agency business systems and processes.	<p>FDEP Project team continues to share latest PALM designs with DAS, Division SMEs and CCN Leads to help them identify potential changes to business processes based on published Segment designs from the PALM project. Technical SMEs are also working to identify potential changes to systems based on everything currently published by PALM.</p> <p>Changed resolution date to 12/30/2024 on conclusion of Change Analysis phase of PALM.</p>	12/30/24	Bento Eyles and Steve Waters

DEP Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People Processes Technology Data	SME Process & Business System Knowledge	Logged	11/13/23	Division/District/Office Business Systems remediation, processes and project management.	<p>FDEP Project Team has facilitated information gathering and identifying financial data impacts.</p> <ul style="list-style-type: none"> - DEP is conducting process reviews and SMEs are attending PALM Design reviews to gain knowledge of PALM processes. - SMEs are being tasked with documenting changes to the existing processes based on knowledge of PALM. 	
People Processes Technology Data	PALM Project Implementation Schedule	Logged	11/13/23	Division/District/Office Business Systems remediation, processes and project management.	In planning, the success of FDEP's implementation schedule is contingent upon the timely receipt of information from the PALM Project team.	
People Processes Technology Data	DEP cannot complete system remediation until the following conditions are fulfilled: 1) ALL applicable PALM Design Segment tasks related to said applications is completed. i. Process specifications ii. Interface specifications iii. Configuration Workbooks iv. Conversions v. Report specifications vi. DEP OTIS Requirement and Design Specs are completed	Logged	02/14/24	Division/District/Office Business Systems remediation, processes and project management, PALM Team	<p>Discussed at the PALM Touchpoint meeting on 2/14/2024 and 3/13/2024 with PALM.</p> <ul style="list-style-type: none"> - Agency shared that their remediation approach is based on phases, and the concern of having to do remediation re-work with major changes to occur after final design has been shared. - Monitoring of Design Segment updates is continuing, need confirmation that final screen designs will also be available to the agency as and when locked down by PALM, and in advance of the Design Recap workshop sessions proposed in October 2024. 	

4/ DEP Core Requirement and Design Specs are complete					- Updated based on Touchpoint meeting notes from 4/10/24
3) Majority of the DEP Tier II and III applications to be remediated require DEP to have completed the data mapping with PALM specifications and process requirements.					
4) Some Tier III applications are dependent on new design specifications for Tier I and II systems.

People Processes Technology Data	DEP RAID Log maintenance	04/30/24	DEP Core Team	To manage logging of risks, assumptions, issues, and decisions for the DEP PALM project. This document also tracks key Action items for the team from the Weekly Planning sessions.	Updated the document with identified risks this period, to include revisions to the initial documented entries from earlier in the project. Ongoing tracking of Action Items. These risks were shared at the PALM Touchpoint meetings.
People Processes Technology Data	PALM Segment III Design Workshop Reviews	04/16/24	DEP PALM Core Team and DEP DAS CCNs and SMEs	Design Workshop review meetings with DAS CCNs and SMEs to identify updates, changes, and issues as it relates to current agency processes.	Conducted with Administrative Services Managers via in person meetings during the month of April. Completed.
People Processes Technology Data	DEP PALM SharePoint Content Update	04/30/24	DEP PALM Core Team, DEP DAS CCNs, DEP Program Area CCNs	Updated SharePoint page showcasing specific content relevant to FA& staff and agency CCN.	Completed.
People Processes Technology Data	DEP-specific PALM tagline added to email signatures of Division of Administrative Services staff for PALM awareness.	04/19/24	DEP PALM Core Team, DEP DAS CCNs, DEP Program Area CCNs, End Users	Email was sent with instructions on how to load the new tagline to signatures.	Completed.
Processes Technology Data	Agency Business System Review with Division and Finance and Accounting stakeholders	03/06/24	DEP DAS CCNs, DEP Program Area End Users	Gather information on specific uses and requirements from different stakeholders on the DEP CRA business system to identify remediation requirements.	Second meeting held on 4/5/2024. Completed.
People Processes	OTIS Technical Team Progress for PALM Readiness Tasks - ADM Sprint 176, 177, 178	03/08/24	Division of Administrative Services and OTIS Staff	This Sprints included mandated, enterprise initiatives and application enhancements requests for CRA, PEAS, FIN-Maintenance, FIN-ARCCollections, FIN-ProjectReview, FIN-YES and the PALM project.	These were 3 week sprints completed during this reporting period. Completed
People Processes Technology	Update of the DEPNet website with additional content and new design	04/30/24	DEP PALM Core Team, DEP DAS CCNs, DEP Program Area CCNs	As part of OCM activities, updating pf the web page to bring awareness to new PALM content.	Added links to new PALM content, DEP PALM presentations and reference information. Completed.

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

DFS Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	ENTERPRISE A&A: The Project timeline is very conservative regarding flexibility, and A&A's involvement is critical for project success. Our level of involvement pulls our resources in multiple directions putting a strain on our time to complete tasks. A&A change management and internal preparation for A&A preparedness activities have already started, but having adequate resources will be key to successful implementation.	Open	9 (High/High)	• Recruit knowledgeable and skilled staff, not entry level positions, to help with preparedness activities and management of daily operations. • Retain our critical staff that are involved in Florida PALM activities and those who are picking up added job responsibilities so that subject matter experts can dedicate time to Florida PALM activities. • Provide expectations that staff will cross-train and provide knowledge transfer to increase the depth need to continue operating with a high level of service and accuracy. • A&A is seeking additional FTE through the LBR process with intent to onboard and train within the 2025 FY.	Still monitoring	10/11/23	Renne Hermeling
People	ENTERPRISE A&A: Resource impacts due to A&A operational staff spending a significant amount of time performing Project related tasks. This pulls resources from operations, increases workloads, and causes stress and an increased chance of employee burnout. • Project tasks may require additional time outside employees designated working hours to attend meetings, review time sensitive documents, or contribute to critical tasks. Some positions are not granted flexibility to flex time throughout the month, but they must flex it within the week. This policy limitation causes a strain on availability of resources. Allowing current staff more flexibility to flex their time beyond the work week would help with resource allocation. • As we get closer to implementation, the number of items that will require attention will continue to increase. This will include, assisting agencies with data management, preparing enterprise data for conversion, developing cut-over and FLAIR close out plans, participating in all levels of integration and UAT testing, validating testing results, participation and validation of mock and production conversions, developing policy around new processes.	Open	9 (High/High)	• Contract with staff aug who can help with data analysis, developing testing scenarios, perform testing functions, support cut-over, support FLAIR retirement activities. • Hire additional staff (FTE or OPS) to learn current operations so that our experienced staff can continue to participate with the Florida PALM Project in design, testing, and implementation activities. • Consider providing current staff with Special Pay Increase to acknowledge the increased job responsibilities and retain these critical members of the team. • Work with Human Resources to properly document team members who should be classified as SES staff. • Establish plans for reduction of current operational activities and prioritize responsibilities based on risk and probability. This could include posting all payments and suspending pre-audit activities, suspending Article V and Contract Management audits, suspending processing of EFT applications, as examples.	Still monitoring	10/11/23	Renne Hermeling
People	The loss of CCN resources would constrain current CCN staff capacity and could result in the loss of critical functional and institutional knowledge, which is imperative to the success of the Florida PALM Project.	Open	9 (High/High)	• Create a knowledge base of CCN operational processes and procedures; develop training methods to facilitate knowledge transfer; and provide cross-training among CCN members where feasible. • Use of dedicated back-up CCN Liaisons will aid in the short-term continuity.	Monitoring	02/19/24	Alexandra Weimorts
Technology	Florida PALM design release dates for	Open	6	• Develop initial agency business system future-state	Still monitoring	10/20/23	Stacey Pollock

	Segments III, IV, and Data Warehouse will decrease the build time for impacted agency business systems. This may impact the ability for applicable agency business systems to be ready for interface testing by January 2025.		(Medium/High)	designs as much as possible based on Segment I and II design information made available by the Florida PALM Project. Update ABS designs as soon as Segment III, IV, and Data Warehouse design information becomes available from the Florida PALM Project. • Work with Division/Office management to allow dedicated technical and functional resources to be available for agency business systems remediation efforts when design information is released.			
Processes	ENTERPRISE TREASURY: The consolidation of Disbursements bank accounts will cause changes in file transmissions, transaction volumes, pricing, and reconciliation processes. Bank account configurations in Florida PALM will need to be updated to reflect this change. Transaction volumes will potentially increase, which will cause an increase in monthly costs. Reconciliation processes will shift to the Division of Treasury, which will increase workload and potentially require additional positions.	Closed	6 (Medium/High)	• Continue to collaborate with the Florida PALM Project and seek resources through staff augmentation, additional FTE, or contracts as needs are discovered. Conversations were had between Treasury, A&A, and PALM. Issue has been resolved with no impact to billing.	Closed out	04/17/24	Sarah Dugan
Technology	Reduced duration for agency business system end-to-end testing with Florida PALM during UAT could impact Tier 1 agency business systems with significant changes, as well as those systems that will require downstream Tier 2 interface testing. As a result, DFS may not have enough time to successfully complete all of the testing needed for agency business systems, which in turn could impact agency readiness for go-live with Florida PALM.	Open	6 (High/Medium)	• Develop remediation timelines and resources to prepare the agency business systems to be ready for the start of ABS end-to-end testing with Florida PALM. • Work with Division/Office management to allow technical and functional resources to be available during the ABS end-to-end testing period with Florida PALM.	Still monitoring	10/20/23	Stacey Pollock
Processes	ENTERPRISE A&A: The Statewide Cost Allocation Plan (SWCAP) process changes: • Business Process Changes will impact actual agency costs that are currently reported in SWCAP • Process to identify and report the costs reported within the plan will change. • Significant changes to the SWCAP or incorrect reporting of SWCAP costs could result in inaccurate management decisions. • Inadequate reporting could result in loss of Federal funding if costs are deemed ineligible.	Open	6 (High/Medium)	• Work with agencies to reasonably identify processes that will be impacted and estimate changes to costs that will be allocated. • Identify reporting that will be needed and work with Florida PALM project to ensure needed reports are available and tested.	Still monitoring	10/11/23	Renne Hermeling
Processes	ENTERPRISE A&A: Planning for some critical activities has not been done. Until these plans have been developed, A&A cannot adequately determine needed resources, time and effort. • Cutover planning • FLAIR retirement planning • Stabilization period planning • Specialized knowledge that may be needed for new processes, such as processing States' taxes from payroll • Financial Reporting mappings and data rollout	Open	6 (High/Medium)	• Continue to collaborate with the Florida PALM Project and seek resources through staff aug. additional FTE or contracts as needs are discovered.	Still monitoring	10/11/23	Renne Hermeling
Processes	ENTERPRISE TREASURY: The current Concentration Account contract ends in March of 2026. If a different financial institution is awarded the contract during the procurement process, an implementation will need to occur with Florida PALM. The new bank and all of the subaccounts (currently 550+) will need to be configured in PALM, along with file transmissions, BAI codes, returned item processing, book to bank processing, cash transfer processing, and reconciliation rules. Agencies will be involved in this transition and will need to communicate new depository instructions to their vendors, including Federal agencies. They will also need to receive and distribute new depository supplies to their locations.	Open	6 (High/Medium)	• Continue to collaborate with the Florida PALM Project and seek resources through staff augmentation, additional FTE, or contracts as needs are discovered.	Still monitoring	12/13/23	Sarah Dugan
Processes	ENTERPRISE TREASURY: Discussions relating to the status of outstanding warrants at the cutover from December 2025 to January 2026 has not been finalized and could, potentially, have impacts to warrant recipients and reconciliation processes.	Open	6 (High/Medium)	• Continue to collaborate with the Florida PALM Project on policy relating to outstanding warrants. • Potential solutions being discussed between PALM and Treasury including the possibility that warrants would be maintained in FLAIR and concurrently canceled and reissued in PALM while maintaining warrant number. Note that solution is pending approval from Treasury.	Still monitoring	01/25/24	Sarah Dugan
Technology	Resource impacts due to unforeseen system changes from DFS divisions, other projects, and external entities could cause delays in the ABS Remediation timeline.	Open	4 (Medium/Medium)	• Work closely with the ABS functional and technical owners to coordinate the timeline of changes with the Florida PALM timeline. • Work closely with the ABS functional and technical owners on design strategies related to Florida PALM integration.	Still monitoring	10/20/23	Stacey Pollock
People	ENTERPRISE A&A: • All bureaus within the division will have significant process changes. • Insufficient preparation or reluctance to adopt and adapt to changes could result in delays; operational deficiencies; and critical operations, tools, technologies, and resources not being available. • Performance issues at implementation if staff are not able to adapt and produce results at the current, expected level of output. • Due to the unique activities that A&A performs at an enterprise level, reduced performance could have a negative impact on agencies.	Open	4 (Medium/Medium)	• Prepare staff through regular change management engagements. • Perform knowledge transfer on why things are done so we can ensure better understanding of future processes. • Complete thorough process analysis and mapping of each process, along with the technology, tools, and resources to future functionality can ensure that we have identified where operational changes will occur and to what extent it will be affected. • Monitor staffs' engagement. • Analyze current skill sets and mentor or provide training needed to acquire the proper skills and address skill gaps. • Review organizational charts and identify succession planning or knowledge transfers for known gaps. • A&A has contracted with two People Soft experienced resources to help with implementation activities, including identifying staffing model changes and process changes. Processes Technology Data	<p>A&A serves all other agencies, therefore our processes are at risk from external impacts:</p> <ul style="list-style-type: none"> Agencies – All A&A processes are downstream of agency processes. Agencies may lack their own training and resources for proper preparation. If agencies are not ready for implementation, this will cause significant issues for A&A to be able to continue operations at an acceptable level and could cause more significant increase in work or rework for A&A staff around go live. Project – There may be changes in Project directions or decisions that negative affect A&A that would cause an increase of time and resources or provide confusion and lack of clarity among A&A's expectations. Government/Florida Statutes/Regulations – Any potential changes to laws, regulations, or elected officials could change Project direction or restrict A&A's operations. Participate with all FFMIS and Enterprise partners to ensure remediation, testing and change management needs are understood and acted upon. Assist agencies with readiness tasks such as data analysis and cleansing. Develop contingency plans for agencies that are not prepared for Florida PALM implementation. Monitor activities, changes in rules and regulations, and agencies competencies. Establish contingency plans as risks become more probable (as information becomes available) and communicate those changes as quickly and clearly as possible. A&A is seeking funding through the LBR process to contract for financial expertise that State Agencies can use to identify knowledge gaps and areas needing improvement and address those issues. 			
Processes	ENTERPRISE TREASURY: Relating to CMIA, expenditures for agency covered programs will need to be tracked in PALM by CFDA number so clearance patterns can be calculated. Agencies will be responsible for providing the PALM chartfields for their covered programs and PALM will need to track the expenditures for those account codes. Clearance patterns will have to be calculated by CFDA Number for CMIA reporting. People Processes Technology Data	A&A - Bureau of Vendor Relations - Bureau discussions with end users	04/30/24	Vendor Relations staff	Bureau is conducting regular weekly meetings to discuss new processes and how Florida PALM is going to change the way suppliers and ACH activities will be performed and managed.	Entered as new Readiness Activity
People Processes Technology Data	A&A - Bureau of State Payrolls	04/30/24	BOSP Staff	Within BOSP, leadership is having regular weekly Business Process review meetings to go through the Business Process Models and any Functional Design documents that are created and associated with the BPM. Additionally, they have been having the GAI's review FD documents and ask questions to understand the process as it will exist in the future. This has been helpful to incorporate them since they are more the users of the system and can also think about the processes, they do today versus how it is being proposed to work in the future. BOSP has adapted the approach that the more they can include their staff, the better they feel about the transition to a new system, and they also feel involved with the project by being able to contribute to the reviews of the FD's. People Processes Technology Data	A&A - PTCM (OFFE)	04/30/24	OFFE Staff, PTCM, AA staff	The Office of Florida Financial Education has spent the last month or so developing a timeline and approach for our enterprise training team to start learning and cross training the training team on Florida PALM business process models. The object is to plan to spend the next 6 months review business process models and requirements so the team will get familiar with the concepts and processes that Florida PALM is bringing. Each business process grouping will be assigned a Projects, Training, and Change Management (PTCM) primary and backup SME – and these SMEs will lead team conversations. Our goal is to have peer lead conversations with SME created assessments (knowledge checks) that are confirmed by Annetta, Anne, and me. This will be a fluid process – but our goal is for the team to get comfortable with the process changes, roles, and terminology so when we're asked to support training, it won't be so foreign to A&A end users. RFP for project manager posted 11/06/2023. Candidate applications reviewed and will be scheduling interviews for business analyst. We will be postponing a decision on the project manager for now. 02/15/2024- Business analyst has been on-boarded, but is still becoming familiar with the agency and the project.	03/11/24	Sabrina Donovan
People Technology	Loss of technical CNN participant	Open	9 (High/High)	Backup technical CNN participant will need to take lead role. IT will be recruiting for replacement staff to support Finance & Accounting functions.	Position is still vacant. 04/23/2024 position is still vacant	02/26/24	Sabrina Donovan
Processes Technology	Changes to project scope potentially impacts agency planned mitigation.	Open	9 (High/High)	Review BPM's for changes to workflows to identify potential impacts to agency solutions, interfaces and processes.	Review continues 04/23/2024 this is a continuing risk.	03/11/24	Sabrina Donovan
Technology Data	The Finance & Accounting Microsoft Access applications that are used daily by staff must be modified in time for PALM interface testing.	Open	9 (High/High)	Agency will submit a funding request with a workplan and budget issue for two developers to program a replacement application that is compatible with PALM data.	New Risk.	04/23/24	Sabrina Donovan
People Technology	Technical Documentation: Lack of technical knowledge and/or documentation related to business systems and interfaces being impacted by the project.	Closed	4 (Medium/Medium)	Staff Aug business analyst to assist with gathering requirements.	Staff aug has been on-boarded, but is still becoming familiar with agency and the project. Additional staff aug will begin 03/25/2024.	03/11/24	Sabrina Donovan

DLA Issues

Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Processes Technology	Reengineer FLAIR accounting interfaces to Florida PALM.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Engage technical CNN participation to review data formats and interface options to determine optimal solution.	Continuing issue. 04/23/2024 - this is a continuing issue.	01/31/25	Sabrina Donovan
People Processes Technology	Software Integration Issues: Planned software integration may not work as expected, leading to re-design and re-work.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Engage technical CNN participation in design workshops and UAT.	Continuing issue. 04/23/2024 - this is a continuing issue.	01/31/25	Sabrina Donovan
Processes	Need ability to make corrections to closed reporting period	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Need a solution option	new issue moved from risk-I don't think this has a resolution. 04/23/2024 - still need to understand the transaction correction process in Florida PALM.	01/31/25	Darlene Faris
Data	Need the ability to request Activities to the Activity ChartField for use with the Project-related ChartFields or provide a list to DFS for updating the Activity ChartField.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Prepare a draft list to send to DFS for updating PALM.	New Issue	05/10/24	Sabrina Donovan
Processes	In order to process accounts receivable transactions into our ABS we must be able to use a Filler field of 10 to 12 alpha/numeric characters to add an identifier.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Need a solution option from PALM.	New Issue	05/14/24	Darlene Faris
People	Availability of Finance & Accounting SMEs: Due to workload and competing priorities SMEs may not be available.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	When the staff aug business analyst is engaged, interviews will need to be scheduled to minimize work disruption.	Scheduling of Segment IV workshops coincides with year-end activities,	01/31/25	Sabrina Donovan

	This may result in extending the overall schedule, and adding cost to the budget.			resulting in reduced availability. 04/23/2024 - this is a continuing issue.

DMA Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	Non-participation to complete task.	Closed	9 (High/High)	Continue communication.	Mar/Apr	03/15/24	Kevin Creech
Technology	Awaiting information about new tracking system to replace Quickbooks	Open	6 (High/Medium)	LBR request was denied. Working with PALM to develop either an interface or spreadsheet upload.	Mar/Apr 24	01/09/24	Jack McAlpine

DMA Issues

Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People Data	Non participation.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Continued communication with department supervisors. Ensure leadership involvement.	Mar/Apr 24 - improvment from involmnet with Staff.	07/30/24	Jack McAlpine
People Processes	Budget Administrator and Finance Supervisor are in the process of training several new personnel.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	To bring staff up to date with current processes within the Finance and Accounting Office.	Mar/Apr 24 Continue to train staff	06/30/24	Trixy Pacetti
People Processes Technology Data	Continued training of new staff members in additional to required training for budget.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Will resolve with time.	Mar/Apr 24 Continue to train staff	06/30/24	Trixy Pacetti
People	Behind on tasks	Closed	High - Impacts the ability of the agency to meet deadlines or milestones	Agency is behind on starting the tasks due on 4/12. Expecting ramp up the week of 3/4.	Jan/Feb	04/12/24	Jack McAlpine
People Processes Technology Data	Start planning process for 2-3 week downtime of system when FLAIR converts to PALM	Open	High - Impacts the ability of the agency to meet deadlines or milestones	DMA Staff must plan and implement downtime process necessary for the potential FLAIR offline due to conversion to PALM.	Mar/Apr 24	07/31/25	Kevin Creech
Technology	Quickbooks Replacement	Open	Low - All impacts not listed as Critical or High	It appears the request for a Quickbooks database will end up being denied based on previous offers from House and Senate. The agency will plan on moving forward with Quickbooks.	Mar/Apr 24 - Continue to work with PALM support on whether to have Quickbooks interface with PALM or provide a spreadsheet upload.	08/30/24	Jack McAlpine
Processes Data	Lump sum payment made for multiple items that become Assets: a. FLAIR allows these payments to be unitized into Assets by the Asset tag and cost per item. b. Palm allows these payments to be unitized into Assets by dividing the total costs by the total assets averaging the costs per unit rather than by the true costs.	Open	Low - All impacts not listed as Critical or High	Cost averaging is ok if every asset has the exact same cost but there are many assets purchased together where the costs are completely different. This will result in inaccurate asset valuations. Example would be a skid steer with multiple attachments.	Mar/Apr	07/05/24	Brad Bowman
Processes Data	FLAIR Pending table vs PALM staging table	Open	Low - All impacts not listed as Critical or High	a. FLAIR allows for pending items to be deleted. If payments are made for assets that fall outside the threshold of property by State and Agency requirements. These can be deleted. b. Palm allows for the pending item to be skipped but its can never be deleted.	Mar/Apr	07/05/24	Brad Bowman

DMA Assumptions

Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates
Processes	Changing of ARRO file format	Logged	03/05/24	Agency has concern about potential file changes that will be required from ARRO without missing any bi-weekly payrolls.	Jan/Feb
People Processes Technology Data	A downtime plan for FLAIR will be in place prior to the conversion to PALM.	Logged	07/31/25	All agency business systems	Mar/Apr 24
Technology	The agency has submitted an LBR for Project Manager to help manage implementation of Florida PALM and travel to Tallahassee for meetings.	Removed	04/29/24	All agency business systems	Mar 24 - Funds received for PM

People Processes Data	The agency is expecting Florida PALM funding in the 3rd quarter of Fiscal Year 2023-24.	Removed	04/29/24	Agency stakeholder and systems processess.	Mar 24 - Funds received for PM

DMS Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes Technology Data	The requirement of Speedkeys for transactions can pose a problem for several of our enterprise systems. If the speedkeys are still hardcoded and unable to be changed once entered there is an additional risk of user error both on the entry of the speedkey and the selection.	Open	6 (Medium/High)	This topic was recently brought up in our monthly PALM Touchpoint with the DMS RC. DMS is seeking additional information on requirements.	Logged April 25, 2024	04/25/24	Finance and Administration / Eric Thiele
People Processes Technology Data	Pulling reports from FLAIR/PALM is mandatory to complete the statutory requirement to publish the ACFR by December 31st. Multiple agencies are involved in this publication.	Open	6 (High/Medium)	Reports are available. Plan for report identification and testing.	Logged Nov 6, 2023 Reviewed again on Dec 20, 2023. No change. Reviewed again on Feb 9, 2024. No change. Reviewed again on April 19, 2024. No change.	11/07/23	Division of Retirement / Megan Biederman
People Processes Technology Data	Functionality. Will PALM deliver the functionality needed for DMS operations?	Open	6 (High/Medium)	Develop a testing plan. Use the PALM Sandbox environment. Functionality assessment in progress. Sandbox environment is approved for a limited number of DMS employees. PALM is addressing this risk.	Logged April 26, 2023. Reviewed again September 6, 2023. Reviewed again Nov 2 - no change. Reviewed again Dec 20 - no change. Reviewed again April 24, 2024. Re-opened. Continuing to monitor.	02/22/24	Finance and Administration / Jennifer Gaines
People Processes Technology Data	Resources and Functionality. Full implementation simultaneously with "FLAIR-end" seems risky with the current change solutions. The seen and unforeseen functionality and compatibility issues at CMS Wave implementation adversely impacted and even stopped certain critical business processes for agencies.	Open	6 (High/Medium)	Mimic FLAIR functionality EXACTLY or as close to exactly as possible. Any deviations should require extensive testing and re-testing with sufficient sandbox training and focus from agencies a minimum of one year in advance of implementation. So far, agencies do not have enough appropriate staff, support, or available resources for implementation and its aftermath which is difficult to plan for with so many unknowns. Allowing for that year of testing, sandboxing, and training to allow agencies to prepare is another suggested solution for this inherent risk.	Logged April 26, 2023. Reviewed again September 6, 2023. Reviewed again Nov 2 - no change. Continuing to monitor. Reviewed again Dec 20 - no change. Continuing to monitor. Reviewed again Feb 22 - no change. Continuing to monitor. Reviewed again April 24, 2024. No change.	11/02/23	Finance and Administration / Sandy Watson
People Processes Technology Data	Variable risks at this time with People First. People First is currently working on its next-generation solution and plans to issue an ITN in early 2024. The current contract expires August 2026 and the platform reaches end of life in Dec 2027. The primary risks are converging timelines, and limited information on the level of remediation necessary for PF/PALM integration.	Open	6 (High/Medium)	PALM integration will be addressed in current People First Solution and required in the next generation solution. DMS will work in good faith to request and dedicate appropriate resources to ensure effective coordination of efforts between People First and PALM and will plan for contingencies within the requirements of the next generation solution.	Logged April 22, 2023. Reviewed again September 6, 2023. Reviewed again Nov 2 - no change. Updated Dec 15, 2023. Reviewed again April 24, 2024. Continuing to monitor.	12/15/23	People First / Stephen Eaton
People Processes Technology	Unknown risks due to changes to major statewide systems during modernizations. (Example: Changes to HR Class Code System,	Open	4 (Medium/Mediu	Solution is continued information sharing and communication with PALM team and Retirement. As well as adhering to the Retirement reporting format.	Logged Nov 6, 2023 Reviewed again Dec	11/07/23	Division of Retirement / Megan Biederman

Data	Changes to People First System)			Continuing to monitor Class Code implications.	20, 2023 and updated mitigation. Reviewed again on Feb 9, 2024. No change. Reviewed again on April 19, 2024. Class Code System changes could create high impact for Retirement Interface Files.		
People Processes Technology Data	Functionality. Will Agencies have enough time to work in the sandbox environment to ensure their respective divisions can test and see if the current work they perform in FLAIR can be achieved in the PALM Environment? If time is limited and a required field is missing, will there be enough time for it to be fixed and re-tested prior to the January 2026 go live date?	Open	4 (Medium/Medium)	Roll out sandbox test capabilities as sections are completed for Agencies to test. Sandbox environment is not secure for testing - PALM needs to work on true test environment. Sandbox status has not changed, PALM is addressing this risk.	Logged April 21, 2023. Reviewed again September 6, 2023. Reviewed again Nov 3, 2023. Mitigation notes updated. Reviewed again Dec 15, 2023. No change. Continuing to monitor. Reviewed again Feb 2 2024. No change. Continuing to monitor. Reviewed again April 24, 2024. No change. Continuing to monitor.	11/03/23	Division of State Group Insurance / Jason Ottinger
People Processes	Timeline. Competing deadlines immediately prior to go-live. Fiscal accountants and other users will be trying to learn PALM as well as changes to departmental and enterprise systems affected by PALM implementation, at the same time. The STMS Team, as well as other system owners, may need to make late changes while also trying to train end users.	Open	4 (Medium/Medium)	Identify impacted users and trainings that will be offered, to coordinate a DMS training schedule. Meetings with PALM have been initiated. Still early in the process. Reviewed again April 24, 2024. No change.	11/06/23	STMS / Matt Giglio
People Processes Technology Data	Retirement benefits payments must be supported by PALM to allow for timely release of funds. This would create a loss of earnings for the trust funds if transfer is delayed.	Open	3 (High/Low)	Programming needs to be completed to allow for flexibility so funds can be released timely. Need more details on how this will work in PALM.	Logged Nov 6, 2023 Reviewed again on Dec 20, 2023. No change. Reviewed again on Feb 9, 2024. No change. Reviewed again on April 19, 2024. No change.	11/07/23	Division of Retirement / Megan Biederman
People Technology	Functionality. Inability to design new STMS user interface for creating vouchers.	Open	2 (Medium/Low)	Provide training in PALM for creating vouchers so that we can attempt to replicate the process and minimize confusion for users in both systems. Provide information about flat files with information required to build vouchers in STMS and confidently pass combo edit checks using the PALM Combo Edit Check API. Meetings with PALM have been initiated. Still early in the process.	Logged Sept 8, 2023. Reviewed again Nov 6, 2023 - no change. Reviewed again Dec 20 - no change. Reviewed again Feb 29, 2024. DMS Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Processes Technology	The Florida PALM Team has decided to not provide a webservice/real time interface for budget pre-check or vouchers. This does not match up to current FLAIR functionality and presents a significant risk in increasing payment cycle time, which has direct impact on agencies' ability to meet prompt payment requirements.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	The recommended proposed solution is for the Florida PALM team to provide a budget pre-check and voucher webservice/real time interface, in addition to the Combo Edit Check and Encumbrance webservice they have already offered.	Interface: There are also impacts to emergency operations invoice payment in the event a vendor needs to be paid quickly to secure emergency supplies or services during Emergency Operations Center (EOC) activation.	07/01/24	State Purchasing / Tyler Brown

					Reviewed again April 24, 2024. Continuing to monitor interface design progress. Will evaluate the end of the fiscal year.		
People Processes Technology Data	Promised piece of \$20M administered funds not being provided, System remediation and FLAIR clean up can not move forward without funding.	Closed	High - Impacts the ability of the agency to meet deadlines or milestones	Release of funds to agencies is the proposed solution. New LBRs are currently in development. Waiting for session completion for 2024 or signature of the GAA.	Resources: Funding is a major factor to the success or failure of this effort. Reviewed again on Dec 20, 2023. No change. Reviewed again Feb 22, 2024. No change. Continuing to monitor. Reviewed April 24, 2024. Funding provided for fiscal year 24/25. Closed this issue. Will readdress the budget in the next fiscal year.	04/24/24	Finance and Administration / Eric Thiele
People Processes Technology Data	Business System (IRIS) upgrade is happening at the same time as the PALM implementation. This impacts resources and a new system, with new screens and interfaces.	Open	Low - All impacts not listed as Critical or High	Testing and training in advance - plan to be developed.	As long as we can produce an accurate accounting file and benefit payroll file, and process the incoming state retirement file from BOSF, as well as the information transferred between IRIS and PALM is correct. Reviewed again on Feb 9, 2024. No change. Reviewed again on April 19, 2024. No change.	12/01/25	Florida Retirement System / Megan.Biederman
People Processes Technology Data	EFT processes, including payment information for retirees, pre-noting, bank account changes, EFT returns, stop payments, etc., not being automated or not being processed timely and/or accurately.	Open	Low - All impacts not listed as Critical or High	Going through confirming requirements, build an acceptable design, extensive testing. Clearly define processes, make sure no interfaces are missed - all designs/build/tests are accounted for. Some items have a work around, some do not - unknown solution at this time. The only option would be to use the FLAIR system if PALM was not working.	Reviewed 2022 entry. Re-entered April 19, 2024. Outstanding currently. Confident that PALM will address and work with FRS to resolve.	12/01/25	Florida Retirement System / Megan.Biederman

DMS Assumptions

Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates
People Processes Technology Data	Decreased timeliness and staff familiarity with the new PALM prior to go live. Unforeseen vacant positions in key role areas will have an effect on over utilization on staff not familiar with PALM in general.	Logged	09/07/23	Logged by: State Group Insurance / Jason Ottinger All DMS PALM end users are impacted.	Start PALM training on new system and UAT testing as soon as possible. Ensure units have backup staff trained along with primary staff early on to be able to continue with PALM functions in the Division. Reviewed again on Dec 27. No change. Reviewed again on Feb 2, 2024. No change. This assumption is directly related to the risk associated with the Sandbox. Reviewed again April 24, 2024. No change. Intend to address this general assumption in more detail with the End User Survey Analysis.

DOH Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology	Lack of Testing Environment: Subject matter experts can determine the processes needed, document those processes, and train staff within a sandbox environment prior to go live. Subject matter experts can also start working through processes and identify gaps for the staff and determine additional training requirements.	Open	9 (High/High)	DOH has raised this risk to PALM Project. The delivery of test environment is scheduled in April 2025. Upon delivery of this we will remove the risk.	N/A	02/14/22	PALM & DOH
Processes Technology	Awaiting confirmation and finalized requirements, process flows, configurations, and interfaces so DOH can calculate work effort on remediation and develop project timelines for completion of necessary tasks.	Open	9 (High/High)	Pre-design and design activities based on calculated assumptions.	N/A	02/14/22	PALM & DOH
People Processes Technology Data	Payroll Design Sessions are scheduled to complete / finalize by the PALM project in July-October 2024 (Segment IV). Agencies may not have enough time to understand and implement change of processes, requirements, interface files.	Open	9 (High/High)	Pre-design and design activities based on assumptions. Our most complex business operations are based on Payroll design and requirements. This gives us on 12 months to remediate some of Department's key applications.	N/A	04/30/24	PALM & DOH
Processes	Agency is unable to determine how the Trial Balance, Schedule of Allotment Balances, year-end closing processes and Schedule I processes will be completed with the Account field which combines the current FLAIR General Ledger Code and Object Code.	Open	9 (High/High)	DOH would like to review the envisioned example of a Trial Balance and speed key. DOH would like to see the account field values and an explanation of how the account field enables us to record the current level of information. Meeting set up with DFS the week of 4/29 and 05/06	N/A	04/30/24	PALM & DOH
Processes	The intention is for DFS to setup all of our organization codes and they have to route through their team for an approval process as well.	Open	9 (High/High)	Work with PALM and DFS to set up a successful Service Level Expectation.	N/A	08/16/23	PALM & DOH
Technology	Lack of prototype system. Agency would like a demo of the overall process in the PALM to better understand how the processes would start and end.	Open	9 (High/High)	DOH would like to see a prototype system, actual screens so SME's can figure out the processes.	N/A	08/21/23	PALM & DOH
Processes	DOH currently uses multiple RDS and existing reports in preparation of Federal Grant Reporting. DOH is concerned how the agency will generate Grant Reporting within PALM.	Open	9 (High/High)	Review and understanding of Grant Reporting functionality within PALM	N/A	08/23/23	PALM & DOH
Processes	PALM eliminating the IBI field for DOH	Open	9 (High/High)	Department recognizes and has addressed this risk with the PALM Project team. Department is waiting for further guidance from the PALM project team.	N/A	02/14/22	PALM & DOH
People Processes Technology	The training timeframe given will not be enough time for us to create and launch agency specific trainings. End users won't have time to take them before go live either.	Open	9 (High/High)	We have to be trained by PALM, train our trainers or area SMEs, and build agency specific trainings (on top of the trainings we'll have to update due to the impacts of PALM)	N/A	09/25/23	PALM & DOH
Technology	Lack of Training: The training needs to be specific to the State of Florida implementation, including specific Chart of Accounts ChartField values as well as other configured elements. In addition, there also needs to be technical related training for interfacing methods, data access for the IW, and remediation techniques	Open	6 (High/Medium)	DOH can create DOH's specific training. SPM team is part of PALM Readiness updates and is attending all PALM meetings.	N/A	02/14/22	PALM & DOH
Processes	With the implementation of PALM there will be many enterprise processes that are overseen by one agency that will impact all agencies. One example of this is DFS. DFS oversees areas such as Vendor Relations, Auditing, Financial Statements and New Account Codes. DFS will solely establish processes that will impact the successful implementation of PALM at the agency level based on these processes in relation to PALM being provided prior to implementation.	Open	6 (High/Medium)	DFS publishes the processes well in advance for DOH has time to adapt and modify current processes.	N/A	10/18/23	PALM & DOH
People Processes	Enterprise entities like AG/IG's offices or Agencies like DMS, DFS may present new processes / changes at or close to Go-Live or during Hypercare, that may present more work on the Agency. For example, auditing of payments and the increased number of returns and possibly hold up of payments all while transitioning and learning how to work within PALM. Back in 2019 when we moved from the Statewide Transit	Open	6 (High/Medium)	DOH would like to know if there are any new processes and changes that are discussed at Enterprise level that will impact DOH	2/21/2024	02/21/24	PALM & DOH

	when we went live with the Statewide Travel Management System (STMS), our trips were sampled for audit and returned by DFS increased from approximately 0-2 trips returned per month to 34 trips returned in April 2019 and 197 trips returned in May 2019. Once these trips were returned, we had to review the return and clear up the issue with the returns which meant coordinating with each traveler for each trip returned. This was very time consuming and a struggle to learn a new system and deal with the influx in sampled trips being returned.						
Processes	Payroll Reallocation Voucher Adjustment: • How will we complete payroll reallocations for a voucher that posted in FLAIR in November or December 2025 when PRP is to process in January 2026 using the PALM data? • How will FIRS or CHDs edit or correct any vouchers between July-Dec 2025 when we go to PALM Jan 2026? • If only the balances are rolling over to PALM, then what about the voucher details? This is specific for Payroll Reallocation, but this will be true for all Vouchers.	Open	4 (Medium/Medium)	DOH needs to know how this will work in PALM	N/A	10/18/23	PALM & DOH

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

DOR Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	Legislation enacted in the 2024 legislative session that creates new taxes or modifies existing taxes may impact GTA's ability to complete remediation to SUNTAX on 2024/2025 due to staff augmentation resources being involved in system modifications to implement new legislation.	Open	6 (High/Medium)	Request funding to contract for additional GTA staff augmentation resources in FY23/24, FY24/25 and FY25/26.	A budget amendment was submitted for staff augmentation resources for Florida PALM agency business system remediation. Additional staff augmentation resources may be needed for system modifications to implement new legislation. Funding was received for FY23/24.	11/02/23	Laura Dukes, Budget Officer; Lisa Morgan, GTA Budget Liaison
Processes Data	DOR collects and distributes funds to 16 other state agencies. We are going to request that they provide the business unit specific ChartField values needed to effect those collections and distributions within PALM. Due to individual agency readiness activities, data from one or more of those agencies may not be available and could result in DOR not being able to collect and distribute their funds to them.	Open	6 (High/Medium)	Coordinate with other agencies to gather, confirm and validate ChartField data.	Discussed with DOR's Readiness Coordinator and other Florida PALM project staff during November 2023 Touchpoint meeting.	11/02/23	Steve Welch, GTA PMO
People	Natural Gas project #006277 for GTA has an implementation date of January 2026, same time as PALM financials wave implementation date, and could create a resource issue.	Open	4 (Medium/Medium)	Plan efficiently with the resources provided.	Continue monitoring risk. We plan to kick-off this project Fall 2024 to ensure we have sufficient time for all projects. Updated risk owner and backup.	11/02/23	Catherine Barber, GTA; Andrea Hunter, GTA, Backup Owner
People	The GTA E-services project may be conducted at the same time agency business system remediation is conducted.	Open	4 (Medium/Medium)	Plan efficiently with the resources provided. This project will begin in July 2024. Staff augmentation resources to support Florida PALM activities have been requested for FY24/25.	Continue monitoring risk.	10/17/23	David Potter, GTA - BTO
People Processes	DOR-GTA receives wages from DMS (DOR Batch Job ZUD105) from all state agencies to process Quarterly filing requirements for Re-employment tax. The ORG Codes are listed on each Location for each State Agency and the individual employee is linked to that specific location by the org code.	Open	3 (High/Low)	Need to continue to receive this file from DMS in order to process RT collections for Commerce.	New Risk, also logged as an assumption.	02/29/24	Wynette Davis, Steve Welch
Technology	RADS system is being migrated to SAP (SUNTAX) at the same time SUNTAX will need to be remediated for PALM interfacing. Interface testing begins January 2025 and UAT is planned for April 2025 and full integration testing planned for July 2025. RADS migration to SUNTAX will need to be completed and remediated for PALM by July 2025.	Open	3 (High/Low)	We have a new contracted SAP developer to work on system remediation for PALM migration and can help with RADS migration to SUNTAX. Many of the same resources working on RADS migration are also involved in ABS remediation.	New Risk	03/26/24	Miranda McClure, Steve Welch

DOR Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Processes	DOR-GTA receives wages from DMS (DOR Batch Job ZUD105) from all state agencies to process Quarterly filing requirements for Re-employment tax. The ORG Codes are listed on each Location for each State Agency and the individual employee is linked to that specific location by the org code.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	2/29/24: Request that this information be sent from DMS as is done currently.	Issue opened February 2024	05/31/24	Wynette Davis
Processes	DOR GTA will not know if they will be using OA 1 or OA 2 values until Segment IV inter/intra unit transaction section is rolled out. Currently we are not listing any values for the Other Accumulators for GTA, but will only know for sure until after Segment IV.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	We have included all OA 1 and OA 2 values for CSP who was the only Program that used OCA values in FLAIR and will list the other values for OAs if GTA needs them after Segment IV is released.	Issue opened May 2024	08/30/24	Miranda McClure

DOR Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
Data	The current PALM Chart of Accounts (COA) structure will not be changed.	Logged	07/01/23	All agency business systems	DOR will begin agency business system remediation in FY23/24.	
People	Administered funds will be available for use in procuring staff augmentation resources for agency business system remediation.	Logged	07/13/23	All agency business systems	During July, DOR submitted a budget amendment requesting funds for staff augmentation to perform project management and IT consulting activities for agency business system remediation and pre-remediation evaluation activities. Funds were approved and released for FY23/24.	
People Processes	DOR-GTA receives wages from DMS (DOR Batch Job ZUD105) from all state agencies to process Quarterly filing requirements for Re-employment tax. The ORG Codes are listed on each Location for each State Agency and the individual employee is linked to that specific location by the org code.	Logged	02/27/24	General Tax Administration	Need to continue to receive this file from DMS in order to process RT collections for Commerce.	
Data	New chart of account data from the configuration workbooks will be loaded by the Florida PALM Project Team into all enterprise business systems.	Logged	03/08/24	All agencies, all agency business systems.	Needed before UAT so that the new COA data may be utilized in UAT to validate agency business system remediations.	
Data	People First data will be cleansed and updated chart of accounts data will be available in a test environment for UAT.	Logged	04/12/24	All agencies, all business systems that use People First data.	Data cleansing needed and new COA data available for UAT. Also, old data must be purged from People First prior to first live payroll in PALM to avoid errors in payroll processing.	

DOR Agency-Specific Readiness Activities					
Critical Operational Elements	Activity Description	Date(s)	Impacted Stakeholder(s) and/or System(s)	Objective	Reporting Period Comments or Updates
Processes Data	Ensure that People First is included in the Department's data cleansing activities.	03/08/24	People First and all agency business systems that receive FLAIR/PALM data from People First	Ensure that agency business systems receiving organization codes from People First receive only cleansed data.	3/8/24: New activity.

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

DVA Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes Technology	Setup and Integration Staffing	Open	9 (High/High)	Agency is seeking to hire contract personnel to support the setup and integration of FLORIDA PALM within the Agencies overall structure. This is an unfunded mandate and the Agency critically needs these assets to support a successful transition of this system. The Agency submitted a Legislative Budget Request to secure funding mitigate this shortfall.	No subject matter expertise in local area. Agency is challenged to hire its internal staffing shortages. 8 March: Received solicitation documents from DBPR and will use them to develop solicitations for Agency. 14 May 2024: Reviewing question responses from Vendor but initial assessment is the vendor is not qualified to do the work we require.	05/14/24	Al Carter, Chief of Staff
Processes Technology	PeopleFirst Payroll integration may be impacted as we are unclear how this interface will work.	Open	6 (Medium/High)	Monitor PeopleFirst updates to ensure we can adapt to any new dependencies that may evolve.	No change. 14 May 2024: No change; monitoring continues.	05/14/24	Al Carter, Chief of Staff
People	Contracting and Procurement	Open	6 (High/Medium)	Our Agency is unique and may require system remediation as a product of implementation as our processes and procedures change as federal, state, and local statutes, laws, and administrative codes change. FDVA may have to redesign or retool existing business processes and designs. This could impact the Agency meeting its deliverables to its clients and impact the overall implementation of the project statewide.	Continuous process. Agency continues to work with FLAIR, MATRIXCARE and the like to determine if PALM will seamlessly transition these programs in part of totally based on our Agency day-to-day requirements.. Agency met with one Vendor and provided questions for validate vendors ability to perform Project Management function. Based on initial responses to questions, indications are that it is doubtful the vendor can meet Agency requirements.	05/09/24	Al Carter, Chief of Staff
People Processes Technology Data	Resources and Functionality. Full implementation simultaneously with FLAIR-end is a risky proposition given the unknown compatibility issues with other systems and business processes our Agency employs to conduct its day-to-day operations.	Open	6 (High/Medium)	Mimic FLAIR functionality exactly or as close to this standard as possible. If there are deviations from FLAIR functionality, there should be extensive retesting and training, hopefully a year ahead of implementation. Agencies are limited in staff, support and available resources for the implementation and the execution following implementation. Allowing some lead time prior to implementation to prepare may reduce inherent risks.	In progress. 14 Apr 2024: Vendor, based on questions provided may not be able to provide the assistance our Agency needs. If this solicitation is not fruitful, this will significantly impact our timeline and ability to complete required and recommended tasks.	05/14/24	Agency Fiscal, Finance & Accounting, and Billing
People Processes	Agency size and small administrative staff has a few people having multiple roles.	Open	4 (Medium/Medium)	Staff will have to be flexible and OPS personnel may be required to augment existing staff to get project implemented.	Information Technology staff working to hire personnel to work the PALM infrastructure transition while simultaneously working its telephony and network infrastructure project. 8 Mar 2024: Agency is undertaking a telephone and infrastructure upgrade simultaneously as we work through PALM integration matters, making it difficult to	03/08/24	Dr. Teresa Stillwell/Romelle Dials

					training is limited to focus limited Information Technology resources.		
People Technology	IT staff has limited knowledge of the FLORIDA PALM system and will take time to get trained up, especially given their existing Agency requirements.	Open	4 (Medium/Medium)	We will have to grow IT Staff experience as we move through the implementation process.	Ongoing. Internal staff working to learn PALM nuances on top of revamping the Agencies telephone and network infrastructure statewide, with only 9 IT personnel. Agency has drafted and will be submitting a FY 2025/26 Legislative Budget Request for additional IT personnel to support PALM integration.	04/25/24	Al Carter, Chief of Staff
Processes Data	FLAIR and FLORIDA PALM data will be different in its representation which may cause challenges when performing data analysis functions.	Open	4 (Medium/Medium)	Staff will incur extra time and possible productivity lag when trying to crosswalk and translate data.	14 May 2024. Down two key team members during this reporting period, which slowed productivity. We have no 100% dedicated assets to this project as we are one person deep in most of our functional areas and those assets must do their day-to-day job as well as work through the PALM activities.	05/14/24	Al Carter, Chief of Staff
People Processes	Staff Turnover. Agency staff turnover while decreasing, still remains over 16% in the Administrative areas mostly impacted by FL PALM.	Open	4 (Medium/Medium)	We continue to put out job announcements and canvas local colleges and universities. The respective candidates respond that State salaries are too low. We don't have to sufficient Agency budget to increase salaries to support our existing requirements, not to mention this increased workload. Reaching out to other Agencies to see what their strategies are, beyond contracting personnel.	Reached out to DoH on 7 March 2024 to determine what options they are using beyond contracting and to gain insights into the strategies they used to remediate infrastructure shortfalls. 14 May 2024: Job announcements continue to be reposted but to date, no bites in our immediate and surrounding areas.	05/14/24	Al Carter, Chief of Staff - Coordinator

DVA Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People	Personnel to support the implementation of FLORIDA PALM within the Agencies processes	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Request resources via the Legislative Budget Request process.	Legislative budget requests are granted at the end of the Legislative Session which occurs during the first week of May, but if approve, are effective 1 July of the next fiscal year.	08/30/24	Al Carter, Chief of Staff
People Processes Data	Submitted a contract solicitation for a Project Manager	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Solicitation done week of April 17, 2024. Will hopefully select an appropriate vendor to meet Agency needs.	Only one Vendor replied to procurement, and Agency is not confident the vendor can meet Agency needs.	05/31/24	Al Carter, Chief of Staff

DVA Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People	Funding will be approved/provided by the Florida Legislature to secure personnel needed to support the Agencies PALM transition.	Logged	09/18/23	FDVA and the overall Statewide PALM project implementation	Requested in Agency LBR as of August 15, 2023	
Technology	Sufficient contract personnel will be available to support the Agency as it undergoes its PALM integration.	Logged	09/18/23	FDVA and the overall Statewide PALM project implementation	TBD after funding is secured. Procuring a vendor who can provide a Project Manager to oversee/support PALM integration O/A April 25, 2024.	
People Processes Data	FDVA Executive leadership, including Project Sponsor, will support the project by providing resources, access to systems and stakeholders and by supported the organizational change management strategy created by the project team.	Logged	09/18/23	Agency wide	State provided resources, but not timely to allow Agency to secure project management and contract support staff resources. Those agencies undergoing the initial implementation were able to secure contract staff with PALM and related accounting staff. Current solicitations have yielded only one vendor, who at initial glance may not be qualified to do the work.	
People Processes Technology Data	FDVA project stakeholders, involved parties, project team, and other involved parties will be available to provide support, feedback, and review of material to meet readiness requirements and project milestones.	Logged	09/18/23	Agency wide	Missing project manager and some key IT and related accounting vendors to support this impending implementation. Working through this process.	
People Processes Technology Data	The State level Florida PALM project team will provide key information identifying the functionality, business processes, and timeline of the larger project, in a timely manner, to facilitate timely planning and execution.	Logged	09/18/23	State and Agency implementation team.	Agency continues to work with the assigned readiness coordinator to meet tasks. Our unique functions limit the amount of assistance that Ms. Thomas can render. Hopefully with the eventual hiring of a Project Manager, we will meet deployment objectives.

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

EOG Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People Processes	The EOG has limited staff and technical/training resources.	Open	9 (High/High)	Discussed with FL Palm limited staffing resources and need for in person training.	No change.	10/31/23	Kelley Sasso
People Processes Technology Data	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Risks exist surrounding data management, reporting, payments, transaction differentiation, and incorrect updates based on assumptions of shared/not shared data in DEM business systems.	Open	9 (High/High)	The EOG and DEM have met with FL PALM to outline concerns and have requested additional meetings regarding pending inquiries. It was determined that many of the solutions initially discussed will not be able to be effectively implemented. We will continue to monitor and meet with the PALM team as the final design takes shape to determine the best methodologies for the differentiation of data.	Updated after most recent meetings.	04/16/24	Kelley Sasso
People	There will be many competing priorities for staff working on this project. Staff on the project may serve in more than one capacity and time may not be fully dedicated to accounting and FL PALM work.	Open	6 (Medium/High)	The EOG will monitor staff workload.	No change.	10/31/23	Kelley Sasso
People Processes	FL PALM transactions are based on roles with an approval workflow. Because of EOG's limited staff, transactions requiring approvals will likely bottleneck with 1 or possibly 2 staff members. There is insufficient staffing for backup processors and approvers.	Open	6 (Medium/High)	The EOG has discussed this risk with FL PALM and communicated its inability to have role backups and the risk of transaction approval bottlenecks with so few individuals available to work on any given process. There exists the possibility for some transactions to utilize a spreadsheet upload of transactions rather than individual transaction approvals.	No change.	10/31/23	Kelley Sasso
People Processes	Some of the FL PALM project activities and tasks coincide with the busiest times for financial and accounting agency resources.	Open	4 (Medium/Medium)	The EOG will monitor staff workload.	No change.	10/31/23	Kelley Sasso
People Processes	The Division of Emergency Management is physically and functionally separate from the Executive Office; however, the two entities share the same OLO/business unit. Detailed risk outline in Line 007 relates to payment management. In reviewing the hardcopy draft of new warrants, if the wrong payment handling code is selected by DEM, EOG will not be able to tell who the warrant belongs to since BE is not printed on the warrant.	Open	4 (Medium/Medium)	The EOG and DEM have met with FL PALM to outline concerns. We will reach out to the PALM team during configuration to determine at what level certain codes can be defaulted to ensure this does not happen. As long as the warrants do not combine, we will be able to research to accommodate. If warrants combine, the entire warrant may need to be deleted and invoices re-vouchered.	No change.	01/23/24	Kelley Sasso
People Processes	Due to limited staff and staff turnover, there exists a risk that relevant or important steps in a new or revised task will be missed or not completed.	Open	2 (Medium/Low)	The EOG will outline as many processes as possible to mitigate risk of missing a step. The EOG will ensure that all staff attend training, perform work during UAT, and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso
People Processes Technology	With the revision of interfaces for all Enterprise business systems, such as Works, STMS, and MFMP, and staff learning the updates to all new systems with FL PALM, it may be more difficult to pinpoint the source of errors in transaction processing.	Open	2 (Medium/Low)	The EOG will monitor all tasks and attempt to report issues to all relevant parties.	No change.	10/31/23	Kelley Sasso
Processes Technology Data	The EOG uses a purchased software that accepts an FTP download of FLAIR recorded asset data and transmits the data to a mobile device for state asset inventory purposes. A risk exists that the inventory software is not ready to purchase during the first year of go-live.	Open	2 (Medium/Low)	The EOG will monitor progress with other state agencies who also use this software and/or have this business need. The EOG will test PALM's inventory solution during UAT to determine if it will meet our agency's needs.	No change.	04/16/24	Kelley Sasso
Technology	Staff are already able to access PALM; therefore, we do not anticipate any technological risk related to accesses/access control.	Open	1 (Low/Low)	No risks determined at this time.	No change.	10/31/23	Kelley Sasso
People Data	Risks relate to attachments of documents in FL PALM. Staff will need training on what can and should be attached or redacted prior to attaching in FL PALM.	Open	1 (Low/Low)	The EOG will outline as many processes as possible to mitigate risk of incorrectly attached documents, and will ensure that all staff attend training and have access to PALM resources when appropriate.	No change.	10/31/23	Kelley Sasso

EOG Assumptions					
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates
People Processes Technology Data	EOG assumes that FL PALM will provide adequate in-person training and will assist in workflows where there is insufficient staff for approvals.	Logged	10/31/23	All Administrative Services.	Updated to consolidate this assumptions for all 4 critical operational elements. Removed duplicative assumptions.
People Processes Technology Data	EOG assumes that while processor roles cannot approve his/her own transactions, the processor can also be assigned an approver role, so that in all cases, staff can function as backup processors or approvers.	Logged	01/23/24	All Administrative Services.	Discussed with D. Thomas on 1/19/2024.

	People	328	Document Current Agency Business Processes	07/31/23	12/15/23	50% - In Progress		We have contracted with KPMG in February to map out all of FDC/FCOR business processes and complete narratives and flows by June 2024. KPMG has been holding weekly and as needed meetings with SME's regarding current business processes. Currently we have received one narrative to review on one of our processes.		
Direct	Data	513	Complete Configuration Workbooks for Segments I and II	02/12/24	05/13/24	25% - Beginning Initial Internal Meetings and Information Gathering		SME's are still working on these configurations of the location codes and have been holding meetings to facilitate the completion of this task. We expect to have this task completed by the due date of 5/10.		
N/A	Data	514	Complete Data Readiness Analysis and Data Cleansing Activities for Segments I and II	01/29/24	04/12/24	50% - In Progress		We've updated the current data cleansing process, Assets, Revenues, Grants, General Ledgers. FDC F&A is currently deciding on contracting with someone to support and accelerate our data cleansing efforts, we will require more time to complete this task. We are also working with DFS on the FLAIR Master Balance File Cleanup. We have completed the A/R data cleansing (4/11).		
N/A	Processes	515	Identify Change Impacts and Update Agency Business Process Documentation for Segments I and II	01/29/24	04/12/24	50% - In Progress		We have contracted with KPMG to assist with this task. FDLE Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Processes	Lack of understanding and process for granting and rescinding PALM access to the entire agency workforce who would need to access salary documents previously housed in Employee Information Center (EIC).	Open	6 (Medium/High)	Mitigate this risk.	Researching how to best resolve.	04/29/24	Terri Speed
Processes Technology	The new "Account" COA field will be replacing the GL and Object codes.	Closed	6 (High/Medium)	Once information is relayed from PALM, we will have to analyze how this will affect remediation of RAMS.	Review and crosswalk Accounts provided for Revenue and Expenditure	04/26/24	Terri Speed / Ajay Katta
People	Onboarding new resources continues to be a challenge, despite having the funding to support the role(s)	Open	6 (High/Medium)	Risk ACCEPTANCE.	Owner will continue to follow up with Department background process team. 4/26/24 AK: PALM Program Manager and RAMS Functional Consultant have been on boarded. Project Manager background check completed and awaiting joining on 5/6/24. RAMS Technical Consultant selection completed and background check paperwork in progress.	04/26/24	Andrew Gutsch
Data	That we will be unable to do life-to-date tracking and trend analysis for data that is in both FLAIR and PALM.	Open	4 (Medium/Medium)	Develop crosswalk methodology if the new Data Warehouse will not provide this capability.	None	07/01/23	Mike Moore
Technology	Development and Test instances of affected agency business systems are not available.	Closed	3 (High/Low)	Agency will provide development and test instances for all affected agency business systems.	Monitoring 4/26/24 AK: PALM DEV and TEST instances have been created. This risk has been mitigated.	04/26/24	Andrew Gutsch
People	If funding is not approved, we will be unable to hire/retain additional technical and project management staff.	Closed	3 (High/Low)	LBR requests have been submitted for funding to hire/retain staff required to complete the project.	Awaiting close of FY 24/25 legislative session. 4/26/24 AK: Funding has been approved for all of project management staff	04/26/24	Becky Bezemek / Charlotte Fraser
Technology Data	FDLE uses Object code for various purposes. PALM is replacing this with Account. As a result it will be challenging to reconcile RAMS with PALM and get details at transaction type level.	Open	3 (High/Low)	New chart of accounts and transaction types have to be setup to fulfill PALM and FDLE accounting requirements.	Analyzing PALM account codes provided to determine if additional fields need to be utilized.	10/31/23	Terri Speed / Andrew Gutsch
Processes Technology Data	New hardware, hardware OS and EBS application upgrade will not be completed as planned	Open	3 (High/Low)	Coordinating with multiple teams and testing extensively on all the new instances to ensure upgrade project is completed.	Oracle EBS system (RAMS) hardware and software upgrade is work in progress	02/29/24	Andrew Gutsch
People	RAMS PALM PM and ERP Technical Consultant not onboarded	Open	3 (High/Low)	PM background check completed and tentative start date is 5/6. Interviews for ERP Technical resource completed and waiting on background check	PALM work being managed by using existing resources	04/24/24	Andrew Gutsch

People Processes Technology	Current systems have high visibility and are available to end customers 24/7. There is no cutover plan to transition from current systems to PALM compliant systems in future on the day of PALM go-live.	Open	2 (Medium/Low)	Project Manager will identify cutover schedule for all affected applications and provide detailed plans much before PALM go-live date.	Pending Project Manager being hired	10/31/23	Andrew Gutsch
People	New consultants and existing team do not have much knowledge of PALM and its impact.	Open	2 (Medium/Low)	Project Manager will need a plan to update everyone on PALM technical and functional features based on which teams can prepare.	Pending Project Manager being hired	10/31/23	Andrew Gutsch

FDLE Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Processes	Several Tasks were rejected	Open	Low - All impacts not listed as Critical or High	Working to remediate the tasks.	Meeting with RC to clarify direction	05/10/24	Angela Willis-Clay

CCN Composition

The Change Champion Network dial reflects the completeness of your CCN makeup.

RW Task Completeness

The Readiness Workplan Tasks Completeness dial reflects the completeness of your agency's submission of RW tasks, starting with RW Task 512.

RW Task Timeliness

The Readiness Workplan Tasks Timeliness dial reflect the timeliness of your agency's submission of all RW tasks to date.

Project-led Meeting Participation

The Participation dial reflects your agency's attendance at Project-led meetings during the current reporting period.

Change Champion Network:

- Unique Filled Role = 27
- Duplicate Filled Role = 0
- Vacant Role = 0

RW Task Completeness:

Score = 100.00%

- Submitted Complete = 5
- Submitted Incomplete = 0
- Completed After Submission = 0

RW Task Timeliness:

Score = 81.56%

- Submitted On Time = 16
- Submitted Late = 12
- Pending Submission = 2

Meeting Participation:

- Meetings Attended = 7
- Meetings Missed = 0

The dials above include an intuitive Green-Yellow-Red spectrum, where green indicates the measure is in a positive range, yellow represents that the gaps in expected results present an increasing risk to the agency, and red indicates that there are significant gaps in expected results that present an elevated risk level for the agency.

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

FDOT Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology	Impacted asset inventory inconsistencies cause problems in planning remediation efforts.	Open	9 (High/High)	Control - Regularly reviewing asset impact and assessing priority to asset for planning purposes	No comment this period	11/01/23	Brian Boyd
Data	The new "Account" CoA field will be replacing the GL and Object codes. FDOT needs the specifications for how to cross walk GL and object codes to account in PALM. Delay in this information delays our ability to remediate our systems.	Open	9 (High/High)	Mitigation	No comment this period	11/01/23	Brian Boyd
Processes	Major schedule changes in PALM solution would impact our remediation efforts.	Open	9 (High/High)	Accept - Monitor PALM schedule and adjust FDOT schedule as needed	No comment this period	11/01/23	Brian Boyd
Processes	Delay or loss of planned funding for the program	Open	9 (High/High)	Avoid - Document program funding requirements and communicate with FDOT leadership, Governor's office, and House/Senate staff.	Received funding, and actively monitoring	11/01/23	Brian Boyd
Technology	Timeliness of PALM Nightly Batch Files and Data Warehouse Updates	Open	9 (High/High)	Transfer - Expecting the PALM solution to have timely or as needed batch files and Data Warehouse needs are available in agency or from interfaces until DW is fully available.	Outstanding question looking for guidance in Segment IV	11/01/23	Brian Boyd
Technology	PALM interfaces are not fully designed/documented, and currently defined interfaces are subject to change. FDOT is unable to accurately define impacts to our systems without complete specifications on the interfaces for supplier functionality, commitment control module, and project grants module.	Open	9 (High/High)	Monitor / Quantify - Reviewing and notifying of interface consistency as we prepare to remediate for PALM.	Shared concerns and reviewing feedback	11/01/23	Brian Boyd
Technology	Vendor specifications are incomplete. FDOT TVI uses TIN and Seq # for vendors; Supplier is the new name for vendor and Traveler is new name for sub vendors. FDOT needs additional specifications on vendor functionality to determine TVI remediation requirements.	Open	9 (High/High)	Mitigation	No comment this period	11/01/23	Brian Boyd
Technology	MFMP revisions and impact on TVI is unknown. FDOT needs additional specifications on MFMP changed functionality to determine TVI remediation requirements.	Open	9 (High/High)	Mitigation	No comment this period	11/01/23	Brian Boyd
Processes	Delay of budget release on LBR funds preventing change orders for staff augmentation purchase orders.	Open	9 (High/High)	Acceptance- Document program funding requirements and communicate with FDOT leadership, Governor's office, and House/Senate staff.	No comment this period	11/01/23	Brian Boyd
Processes	Scope changes in PALM solution	Open	9 (High/High)	Mitigation- Monitor PALM scope and adjust FDOT scope as needed	No comment this period	11/01/23	Brian Boyd
Processes Technology	Capability to upload Excel Spreadsheets to PALM will be replacing existing FLAIR emulator scripting processes.	Open	9 (High/High)	Mitigation	No comment this period	02/20/24	Brian Boyd
Data	If project category is included on a voucher, does it need project category to match on the distribution line of a purchase order (encumbrance)?	Open	9 (High/High)	Mitigation	Identified this period	03/07/24	Brian Boyd
Data	PALM has provided incomplete information for Object code impacts expansion option. Lots of places in code. What do we replace with ?	Open	9 (High/High)	Mitigation	Attempting to conduct partial remediation where able, but	03/07/24	Brian Tippel

					additional efforts identified when systems need to be revisited at future segment intervals.		
Processes Technology Data	Florida PALM is not providing ERD's or DDL files.	Open	9 (High/High)	Strategize - Considering building needed database infrastructure within agency with heightened risk of future changes causing greater effort.	Work continuing and will involve more manual steps since PALM will not be providing ERD or DDL files. Increase work on resource. Increase risk with manual entry.	04/02/24	Brian Boyd
Processes	Issues not resolved in a timely manner	Open	6 (High/Medium)	Conduct monthly RAID meetings and promptly escalate issues to FDOT leadership and PALM leadership	No comment this period	11/01/23	Brian Boyd
People	Limited qualified staff availability for requirements gathering, application remediation, remediation testing, and other critical activities	Open	6 (High/Medium)	Request LBR funding for staff augmentation	Actively seeking and hiring qualified personnel.	11/01/23	Brian Boyd
Processes Data	Need revenue, expenditure, and balance sheet account code mappings for inter and intra agency funds transfer to begin data conversion preparation.	Open	6 (High/Medium)	Mitigation	Identified this period	03/07/24	Brian Boyd
Processes Data	The concept of splitting up the new PALM Accounting system into reviewable Segments is not reasonably workable with many ABS's since systems were architected from broader financial/functional perspectives. This may cause delay in remediation completion of systems as they wait for future segments to provide answers/guidance towards full remediation.	Open	6 (High/Medium)	Mitigation	Attempting to conduct partial remediation where able, but additional efforts identified when systems need to be revisited at future segment intervals.	03/07/24	Brian Boyd
Processes	Scope and schedule alignment of individual department remediation efforts with FPST.	Open	4 (Medium/Medium)	Mitigation- Monitor scope and schedule changes of individual efforts. Reassign resources as needed to avoid schedule changes. Carefully evaluate proposed scope changes.	No comment this period	11/01/23	Brian Boyd
Processes	Inconsistent processes and standards across FDOT business units could impact efforts to perform remediation for PALM impacts	Open	4 (Medium/Medium)	Evaluate opportunities for process standardization	No comment this period	11/01/23	Brian Boyd

FDOT Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Data	Interface layouts contain errors.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Notify PALM and work to gain clarity and accuracy on interface layouts.	Contact_Sequence_Num	05/31/24	Brian Tippel
Data	Interface schema relationship details not provided in layouts, samples, or knowledge center.	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Reaching out to PALM technical staff to gain guidance on entity relationship diagrams.	Identified this period	05/31/24	Mark Rissinger
Technology	The New 8.6 GEN COM Bridge and HIS windows server have been built. Efforts are underway to migrate to the Dev and Test environments for additional testing. Errors have been encountered and the Department is working through a resolution.	Closed	High - Impacts the ability of the agency to meet deadlines or milestones	Continue efforts to finalize migration.	Resolved this period.	03/01/24	Brian Wilson

FDOT Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates

CCN Composition

The Change Champion Network dial reflects the completeness of your CCN makeup.

Change Champion Network:

- Unique Filled Role = 4
- Duplicate Filled Role = 10
- Vacant Role = 0

RW Task Completeness

The Readiness Workplan Tasks Completeness dial reflects the completeness of your agency's submission of RW tasks, starting with RW Task 512.

RW Task Completeness:

- Score = 87.14%
- Submitted Complete = 3
 - Submitted Incomplete = 0
 - Completed After Submission = 4

RW Task Timeliness

The Readiness Workplan Tasks Timeliness dial reflect the timeliness of your agency's submission of all RW tasks to date.

RW Task Timeliness:

- Score = 94.06%
- Submitted On Time = 24
 - Submitted Late = 6

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

FGCC Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology	Our configuration workbooks are out of date and there is no set timetable for when they will be refreshed	Open	9 (High/High)	FGCC has requested that our workbooks get refreshed and that we establish a regular schedule to refresh them so that as we make updates to FLAIR the workbooks will also get updated		05/02/24	Rob Stoner
Technology	FGCC is exploring options to acquire a new licensing systems and this system will likely not be complete in time to perform testing with Florida PALM.	Open	6 (High/Medium)	FGCC currently is requesting in FY 24-25, 10 million dollars to provide a licensing solution that will take the place of Versa Regulation. The Palm project and this new application will need to coordinate heavily,	Monthly.	09/11/23	Lisa Mustain, Director of Administration
Technology	The Current State Business Process smartsheet does not have columns for both spreadsheet uploads and PALM Interfaces. Therefore, we do not have the ability to track and report progress for our business systems that may use PALM Interfaces	Open	4 (Medium/Medium)	FGCC has requested that the smartsheets be updated to allow this capability		05/02/24	Rob Stoner
Technology Data	When do not have an estimated time frame of when we will be able to test both upload and download PALM Interfaces	Open	4 (Medium/Medium)	FGCC has asked for an update on when we can expect to be able to test an upload interface file and when we will be able to test a download interface file with our test/conversion data		05/02/24	Rob Stoner
Technology	Conversion Inventory and Data Readiness smartsheet does not allow for us to identify those data types that will have conversion data from both FLAIR and Agency Business systems. Currently, the smartsheet treats the option as one or the other and we anticipate some conversion from both	Open	4 (Medium/Medium)	FGCC has requested that the smartsheet be updated to allow this capability		05/02/24	Rob Stoner
Technology	Conversion Inventory and Data Readiness smartsheet utilizes a column called Agency Maintain Data Source. Due to the fact that each data source requires a date evaluation, cleanliness plan, and data monitoring, this column seems to be the same as Agency Business Systems but the smartsheet does not link to the business systems smartsheet.This makes it difficult to identify and track progress associated to data source clean up and business system remediation.	Open	4 (Medium/Medium)	FGCC would like to get clarification on the distinction between an Agency Business System and an Agency Maintained Data Source as well as insight into how to track how data from agency systems that is not in the primary sources gets converted into PALM.		05/02/24	Rob Stoner

FGCC Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People	FGCC lacks the appropriate staffing levels to fully support readiness activities.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	FGCC has requested Administered Funds.	FGCC is recruiting additional staffing.	04/01/24	Brice Kayiranga, Chief of Financial Support Services

FGCC Assumptions						
Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates	
People Processes Technology	FGCC will be able to access the available Administered Funds to support readiness activities.	Logged	02/29/24	All agency business systems.	12/14/2023 Update: Appropriation received. 02/29/2024 Update: FGCC is actively recruiting a Project Manager for the implementation of Florida PALM at FGCC. 03/12/2024 Update: FGCC conducted interviews for the Project Manager position during the week of March 8th.	
Technology	FGCC will have a replacement for Versa Regulation by PALM go live	Logged	11/13/23	Revenue Management	Ongoing.	
Technology	DBPR will continue to update and keep FGCC abreast on any modifications or remediations, if any, of Versa Regulation.	Logged	01/10/24	Revenue Management	Ongoing.	
Processes Technology Data	FGCC will establish an agency consolidated financial database that will serve as a single repository for historical FLAIR data as well as ongoing PALM data	Logged	04/11/24	All agency business systems	Ongoing

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

FLHSMV Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Technology	HSMV processes large volume of data through its FAME application (Revenue Distribution, WEX, Goodyear, PRIDE, etc.). It is imperative that the interfaces work properly when designed.	Open	3 (High/Low)	HSMV has been working with the Florida PALM team to identify which interface files should be used to send and obtain data between FAME and Florida PALM. HSMV has mapped its current FLAIR interface file to the Florida PALM interface file. HSMV will begin building a new interface file in early 2024 in preparation for interface testing in late 2024.	No change	09/01/23	Steve Burch / Mike Alexander / Nate Seabrooks
Technology	HSMV uses a mainframe application to process Hireback payroll outside of People First. HSMV needs to have the ability to process payments to multiple FHP Troopers for Hireback jobs worked at different hourly rates.	Open	3 (High/Low)	HSMV has met with Florida PALM staff to understand how Hireback pay will be processed. Florida PALM is looking at creating an interface that will be used by HSMV. HSMV is waiting to see the Payroll Business Processes to better understand how Hireback will work.	No change	09/01/23	Mike Alexander / Aquila Franklin

FLHSMV Issues

Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
People	FLHSMV has a large number of key vacancies within the Bureau of Accounting. Due to difficulties in filling these positions, FLHSMV will need to move duties performed by vacant positions to other employees reducing the amount of time that can be committed to complete Florida PALM Tasks.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	HSMV will attempt to fill these positions.	Received approval to fill 5 vacancies. Two positions have been filled. Three additional positions have become vacant that have not been approved to be filled. There is one position that is anticipated to be vacant in May 2024 due to staff retirements.	07/01/24	Steve Burch / Mike Alexander

FLHSMV Assumptions

Critical Operational Elements	Assumption	Status	Date Logged or Removed	Impacted Stakeholder(s) and/or System(s)	Reporting Period Comments or Updates
Data	Florida PALM will provide similar functionality as FLAIR@HSMV	Logged	08/31/23	All Accounting and Budgeting areas of HSMV	HSMV relies heavily on FLAIR@HSMV to query FLAIR data on a daily basis. Without a process to easily query data, it will have a significant impact on HSMV staff.
People Technology	Departmental technical resources will be available to update internal databases and reports for distributions from FRVIS to FAME for the new PALM Account codes.	Logged	08/31/23	Selected State Agencies, Not for Profit and, local governmental entities.	No Change
Processes	Vouchers will not be produced or required by DFS for auditing purposes. FLHSMV will need to determine how to create vouchers for retention outside of Florida PALM.	Logged	10/31/23	Accounts Payable Section	State Agencies are required to produce vouchers for DFS audit and retain for documenting purposes.

Agency Reported

The Risks, Issues, Assumptions and Readiness Activities tables below display only items that were opened/logged, closed/resolved or active during the reporting period.

FWC Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
People	Limited subject matter expert (SME) availability	Open	6 (Medium/High)	1. Identify any planned schedule issues 2. Obtain and include backup resources in activities	No change	11/06/23	Laurie Kershaw
People	Team Attrition	Open	6 (Medium/High)	1. Ensure sufficient cross training in all project activities 2. Establish and enforce adequate documentation standards	No change	11/06/23	Laurie Kershaw
People	Resistance to change	Open	4 (Medium/Medium)	1. Include impacted stakeholders early in the process and often 2. Educate the reason for the change and impact	No change	11/06/23	Laurie Kershaw
Technology	PALM interfaces are not fully designed/documented, and currently defined interfaces are subject to change. FWC is unable to accurately define impacts to our systems without complete specifications on the interfaces.	Open	4 (Medium/Medium)	1. FWC Analysis and design is being based on calculated assumptions	We reduce the risk rating on this item since most of the interfaces have been designed.	11/06/23	Laurie Kershaw

The Change Champion Network dial reflects the completeness of your CCN makeup.

The Readiness Workplan Tasks Completeness dial reflects the completeness of your agency's submission of RW tasks, starting with RW Task 512.

The Readiness Workplan Tasks Timeliness dial reflect the timeliness of your agency's submission of all RW tasks to date.

The Participation dial reflects your agency's attendance at Project-led meetings during the current reporting period.

Additionally, the agency has started a series of meetings to involve the JROs and keep them informed of the project progress and current status.	The JAC met with all JROs between March 6 and April 12.	04/29/24	Rip Colvin, Executive Director	
Data	The access to data must be segregated by each Judicial-Related Office (JRO) to ensure that JROs can only see their information. This is critical to protect indigent defendants' rights and the defense's trial strategies.	Open	6 (High/Medium)	Transfer: The agency has been discussing mitigation options with the PALM team.	We had an excellent meeting with the Florida PALM team on 02/19/2024. We believe they understand our concerns and will work toward a resolution.	04/29/24	Rip Colvin, Executive Director	
People	Availability of staff to work on the project/Limited qualified staff	Open	6 (High/Medium)	Mitigate: The agency is looking at ways to supplement current staff.	The agency has 5 Technical Writers working. We plan on adding additional staff to assist in completing other tasks.	04/29/24	JAC Directors	
Processes Technology	Delays in PALM information will create delays in remediating our processes	Open	6 (High/Medium)	Accept: The agency will continue to monitor information received	No new comments	04/29/24	JAC Directors	
People Processes Technology Data	Funding insufficient for project costs	Open	6 (High/Medium)	Mitigate: The agency will continue to look at projected costs and request needed funding	The legislature granted our FY 2024-2025 request in the GAA. We continue to be mindful of funding needs. We will prepare an LBR for FY 2025-26	04/29/24	Rip Colvin, Executive Director	
Technology	Org code updates may not be established and implemented which will allow correct reporting especially for grants and projects	Open	3 (High/Low)	Mitigate: The agency is initiating discussions with internal partners to create a new org code structure with a goal of implementing on July 1, 2025	The JAC has almost finalized our org code plan.	04/29/24	Dina Kamen	
Technology	External business system (BOMS) may not be updated with proper accounting fields for integration with PALM	Open	3 (High/Low)	Avoid: The agency needs to engage the business system vendor to discuss new chartfields once the agency has additional technical information	The JAC has formed a PALM/BOMS Advisory Council. This Council will be the go-between for this effort. A liaison has been appointed.	04/29/24	Kathy LaCorte	
People Processes	Replacement or major upgrade of PeopleFirst involving the same team members as the PALM Project	Open	3 (High/Low)	Mitigate: The agency will review all available information regarding this potential new contract and then plan accordingly.	No new comments	04/29/24	Jamie Johnson	
Data	Data may not be sufficiently cleansed at Go-Live	Open	2 (Medium/Low)	Avoid: The agency is preparing a plan for Data Cleansing	The agency plans on hiring an OPS to perform data cleansins	04/29/24	Nona McCall	
Processes	Downtime during transition	Open	2 (Medium/Low)	Mitigate: The agency will create a plan to minimize this risk such as front loading work in December 2025.	Item to create a plan added to the Agency's Implementation Plan for August 2025.	04/29/24	Dina Kamen and Jamie Johnson	
Data	Data may not be sufficiently cleansed at go-live due to the JACs inability to adjust FLAIR records which are no longer active in FLAIR. DFS manages these records, and there is not guidance on how DFS will eliminate these records prior to go-live.	Open	2 (Medium/Low)	Transfer: The agency will continue to discuss this issue with DFS staff and react to their guidance	DFS has begun to remediate.	04/29/24	Nona McCall	
Processes	PALM fails to integrate properly with other state-owned systems such as PeopleFirst, STMS, and PCard Works	Open	2 (Medium/Low)	Accept: The agency will continue to monitor information being received from the PALM team and other agencies.	No new comments	04/29/24	Nona McCall

LEG Risks							
Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator

LEG Issues							
Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Technology	Reports - A great deal of management information is created (by reports) and distributed by FLAIR and RDS, as well as information to external users. These reports have been optimized over time to efficiently provide the information these users in a familiar format. The ability to create and distribute these financial reports in a useable format may be critical both within and external to the F & A office. Further, as it appears that PALM will use a skill set for reporting that the employees in the F&A office may not posses, if not mitigated, could have a significant impact on operations either within our external to the F & A office.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	We have a "Leg Current State Report (Smartsheet)" containing current reports (updates continue as discovered), which DFS has asked for to possibly be provided by DFS or PALM either At Go-Live, Within 30 days of Go-Live, within 180 days of Go-Live, or later. None of these options allows for testing prior to Go-Live and thus could impact productivity either internal or external of the F & A Office. This may more likely be a state standard (more generic version of report to cover multiple agencies needs- similar to FLAIR approach when it was implemented). Train or hirer F & A employee with skill set to write or modify reports in PALM. Access other Legislative units who may have ability to create reports with PALM data (OAG or OLITS).	Much about Reporting is still unknown so it is difficult to assess this issue at this time.	05/31/24	Mike Mentillo
Technology	Reports - Current staffing levels are based optimized use of FLAIR over the last 40 years developing efficiencies through both process knowledge and information reports. Both of these things are going to change which could impact current productivity of staff. The current report catalog (61 row is predominantly process reports for system functions, transactions in process, transactions, and reconciliations (which are necessary, however, very different from reports we use in FLAIR). The Report Catalog from 3-10-2022 was 415 lines and included many management reports. Reporting may be one of our larger change management issues both functional users and for internal and external users of financial information. Current Report examples in the PALM Reports Catalog are mostly reports for functional users involved in the business processes in PALM, and the reports very significantly from the reports we use today. This will present a significant change management issue, but with the reports available well in advance of Go-Live, training and opportunities to use the reports in the sand box prior to Go-Live it should be able to be mitigated. Part Two: Internal and external users of financial information.	Open	Low - All impacts not listed as Critical or High	This is a training issue and can be accomplished through end user training and practice in the sand box.	Examples in report catalog are very different than reports we use in FLAIR. Why was the report catalog reduced so much?	05/31/24	Mike Mentillo

SCS Risks

Critical Operational Elements	Risk Description	Status	Risk Rating	Mitigation/Response Strategy	Reporting Period Comments or Updates	Date of Status Change	Owner / Coordinator
Processes	Allocation to Object Code. State Courts does not allocate to the Object Code level. This would be a severe impact to the Legislative Branch. Not only our process would be hugely impacted but also our need for additional FTE	Open	9 (High/High)	We have verbalized to FL PALM the impact of this proposed change to the Legislative Branch. We are waiting for updates on the proposed design			Budget
Processes	Warrant cancellation, On Demand and Salary refunds.	Open	9 (High/High)	We do not use			Human Resources
People	Additional/adequate human resources for accounting roles	Open	6 (Medium/High)	Prepare LBR to request additional funding or FTE. Cross train employees to assume different work responsibilities.	This was discussed during our last touchpoint meeting 12/12/23	12/12/23	Finance & Accounting Chief and Budget Chief
Technology Data	Data conversion integrity	Open	6 (High/Medium)	Working with PALM to see what resources will be provided to the agencies.	This was discussed during our 12/12/23 Touch Point meeting that we need assistance to convert our ORG Code listings.	12/13/23	F&A, OIT and HR
Technology	Purchasing of new services and acquiring additional resources	Open	4 (Medium/Medium)	Looking for the appropriate products and services	Funding was received and resources are being identified to prioritize spending.	12/15/23	OIT/Technical Liasian
People	Training for all stakeholders at deployment.	Open	4 (Medium/Medium)	We will take advantage of all available training provided by PALM. Update our process and procedures			Finance & Accounting
Processes	Proper documentation of current processes and procedures.	Open	2 (Medium/Low)	In the process of updating and documenting all our processes.	Processes were updated to complete FL PALM TASK 328	11/30/23	SCS
People Technology Data	Our Agency planned to develop a cloud environment for remediating the Transaction History, Payroll, and Contracts/Tracker applications; however this has been delayed due resource allocation needs.	Open	2 (Medium/Low)	Training for employees to use the new development/Cloud environment. We will need to be monitored for best practice to train and implement this tool to help us remediate our business systems.			OIT
People	Ongoing Communication about project	Open	1 (Low/Low)	Working on a communication plan. Task 523 has required us to document our communications. We are increasing our communication efforts.	Planned bi-monthly SCS communication beginning 2024. Intranet updates. As PALM implementation comes closer, we will create a mass communication SCS campaign.		Finance & Accounting
Technology Data	Business system development and integration	Open	1 (Low/Low)	We develop as best as possible			Finance & Accounting, OIT

SCS Issues

Critical Operational Elements	Issue Description	Status	Priority	Resolution Plan	Reporting Period Comments or Updates	Planned or Actual Resolution Date	Owner / Coordinator
Data	Data conversion with our ORG Code Listing to COA	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	As soon as possible, we will begin the conversion process from FLAIR Accounts to COA	This was discussed with Readiness coordinator to see what recourse	12/12/23	Finance & Accounting
Processes Data	SCS does not utilize HRIS for timesheet reporting, this apart of the payroll life cycle in PALM	Open	Critical - Impacts the ability of the agency to move forward with work without resolution	Request our attendance and reporting software (ARS) to interface with PALM for reporting time and attendance			Human Resources
Processes Data	HRIS payroll reports not utilized to send data to PALM	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Request payroll reports for SCS to be generated - LWOP, missing timesheet reports, over and under payment report			Human Resources
Processes	Entering OPS paper timesheets, Shift and On-call payments into People First manually in the Alternate Time Entry screen	Open	High - Impacts the ability of the agency to meet deadlines or milestones	Request approval for OPS employees be allowed to use the HRIS system to submit timesheets.			Human Resources

Processes	LWOP entered as Unpaid hours in Alternate Time Entry screen when notified timely	Open	High - Impacts the ability of the agency to meet deadlines or milestones	We are still trying to figure out how this change will affect us. We are anticipating updates from FL PALM			Human Resources
People Processes Technology Data	We have built our Business (Invoice Management System) to interface with FLAIR with a batch upload file. We have not tested this output extract due to a MOU yet to be provided by DFS.	Open	High - Impacts the ability of the agency to meet deadlines or milestones	We will follow up with DFS to get an MOU signed so we can move forward with testing.			OIT and Finance and Accounting
People Technology	Our Agency planned to develop a cloud environment for remediating the Transaction History, Payroll, and Contracts/Tracker applications; however this has been delayed due resource allocation needs.
