Planning, Accounting, and Ledger Management

ADVISORY COUNCIL MEETING

SEPTEMBER 18, 2024

BUDGET ALLOTMENTS – CONTROL OPTIONS

Agenda

- ▶ Budgetary ChartField Values – Account ChartField Update
- ▶ Budget Allotments Review – Control Options
 - Control – Strict
 - Track with Budget – Less Strict
 - Track without Budget – Flexible
 - How Will Budget Checking Respond?
- ▶ Organization ChartField Rollups for Allotments
- ▶ Agency Confirmation – Wrap Up

BUDGETARY CHARTFIELD VALUES – ACCOUNT CHARTFIELD UPDATE

Budgetary ChartField Values

Account ChartField Update

- ▶ Budgetary Accounts
 - Established by DFS
 - Agencies can not add or modify Account values
 - Agencies must select which Account ChartField Tier (only one) to use for budget allotments
 - Available for input on agency budget journals (allotments and revenue estimates), if applicable
 - Not available for use on non-budget transactions such as vouchers and GL journal entries

Account Tree Structure – Budgetary Accounts

Account ChartField Update

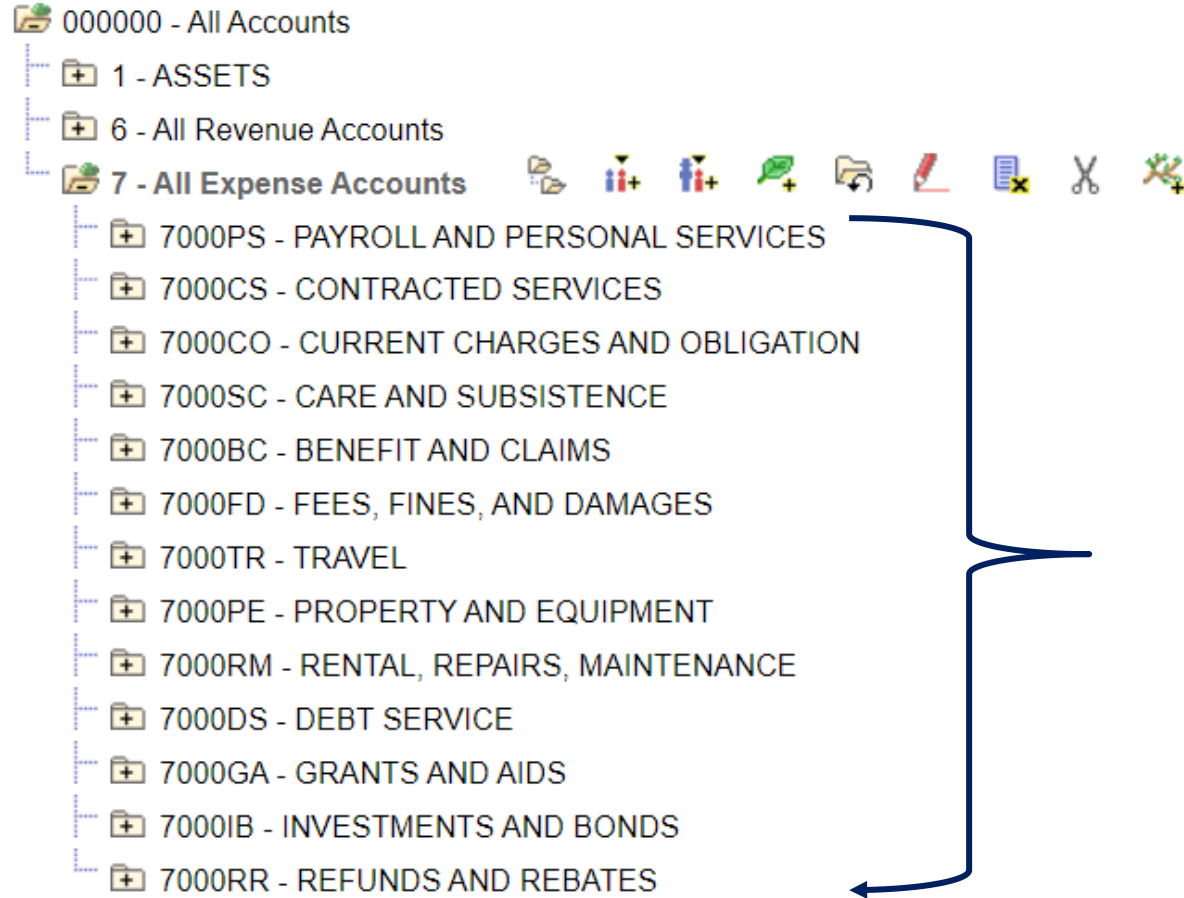

Tier 1: Highest

Account Tree Structure – Budgetary Accounts

Account ChartField Update

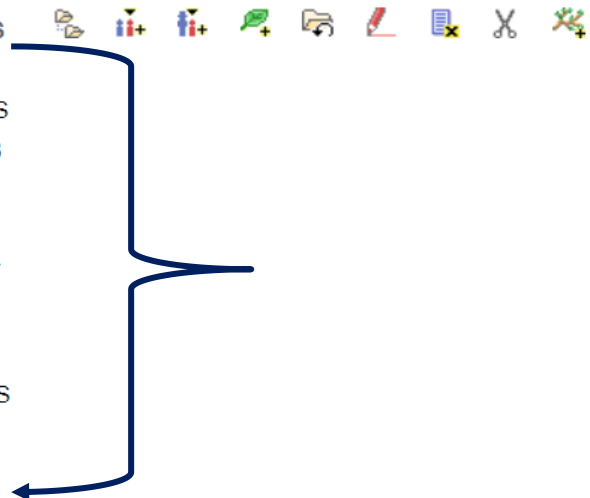

Tier 2: Groupings

Account Tree Structure – Budgetary Accounts

Account ChartField Update

- 000000 - All Accounts
 - 1 - ASSETS
 - 6 - All Revenue Accounts
 - 7 - All Expense Accounts
 - 7000PS - PAYROLL AND PERSONAL SERVICES
 - 700000 - SALARY AND WAGES
 - 700100 - OTHER PERSONAL SERVICES OPS
 - 700200 - FICA RET OTHER EMPLOY CONTRIB
 - 700300 - INSURANCE CONTRIBUTIONS
 - 700400 - MOVING EXPENSES
 - 700500 - MOVING EXPENSES THIRD PARTY
 - 700600 - AWARDS REWARDS EMPLOYEE
 - 700700 - PERQUISITES
 - 700800 - CHILD SUPPORT DISBURSEMENTS
 - 700900 - DEFERRED COMPENSATION
 - 701000 - HMO
 - 7000CS - CONTRACTED SERVICES
 - 7000CO - CURRENT CHARGES AND OBLIGATION
 - 7000SC - CARE AND SUBSISTENCE
 - 7000BC - BENEFIT AND CLAIMS
 - 7000FD - FEES, FINES, AND DAMAGES
 - 7000TR - TRAVEL
 - 7000PE - PROPERTY AND EQUIPMENT
 - 7000RM - RENTAL, REPAIRS, MAINTENANCE
 - 7000DS - DEBT SERVICE
 - 7000GA - GRANTS AND AIDS
 - 7000IB - INVESTMENTS AND BONDS
 - 7000RR - REFUNDS AND REBATES

Tier 3 : Family

BUDGET ALLOTMENTS REVIEW – CONTROL OPTIONS

Budget Allotments Review

Budget Allotments Review

- ▶ GAA/Adjusted Appropriations – posted to the Account, Florida PALM Budgetary Fund, Budget Entity, and Category level
- ▶ Budget Allotments – recorded to the Account, Florida PALM Transactional Fund, Budget Entity, and Category level; can also include agency-specific ChartFields (Organization, Contract, Grant, OA1, and OA2)
 - No Project ChartField on budget allotments. Recorded only in Project Costing
- ▶ Budget Allotments cannot exceed appropriations and will be prohibited from doing so by the parent/child relationship of appropriations and allotments
 - There are three methods to create budget allotments which are manual online, spreadsheet upload, and interface (if using an agency business system)
 - Workflow is provided to request, adjust, and approve/edit/reject manual online allotment budget journals; reports and online inquiry screens are available.

CONTROL OPTION: CONTROL

Budget Allotments

Allotment Keys and Translations – Control Option

- ▶ The following provides an overview of the Allotment Keys and Translation for **Control Option**:

Key ChartFields	Value Required	Translation	Tree Level
Account	Required	Tree	<i>Agency Selected Tier</i>
Fund	Required	Tree	Transactional Fund Level
Budget Entity	Required	Not Applicable	
Category	Required	Not Applicable	
Organization	Required	Tree	<i>Agency-Wide or Agency-Defined</i>
Grant	Optional	Not Applicable	
Contract	Optional	Not Applicable	
OA1	Optional	Not Applicable	
OA2	Optional	Not Applicable	

Budget Allotments

Allotment Keys and Translations – Control Option

- ▶ **Agencies must enter all required key ChartFields on budget allotments**
- ▶ Below are the benefits and impact of Allotment Keys and Translation setup on agency operations:
 - **Benefits:**
 - Agencies have greater control over managing and tracking budget allotments
 - Agencies can create budget allotments using Optional ChartFields
 - **Impact:**
 - **Control Option** imposes a **hard stop** on transactions:
 - If ChartField combination on the transaction being budget checked does not have an associated budget allotment, a **no budget exist error** will be returned
 - If ChartField combination is found, then budget check looks to determine if sufficient budget is available; if not then, an exception of **exceeds budget tolerance** is issued

CONTROL OPTION: TRACK WITH BUDGET

Budget Allotments

Allotment Keys and Translations – Track With Budget Option

- ▶ The following provides an overview of the Allotment Keys and Translation for **Track With Budget Option**:

Key ChartFields	Value Required	Translation	Tree Level
Account	Required	Tree	<i>Agency Selected Tier</i>
Fund	Required	Tree	Transactional Fund Level
Budget Entity	Required	Not Applicable	
Category	Required	Not Applicable	
Organization	Required	Tree	<i>Agency-Wide or Agency-Defined</i>
Grant	Optional	Not Applicable	
Contract	Optional	Not Applicable	
OA1	Optional	Not Applicable	
OA2	Optional	Not Applicable	

Budget Allotments

Allotment Keys and Translations – Track With Budget Option

- ▶ **Agencies must enter all required key ChartFields on budget allotments**
- ▶ Below are the benefits and impact of Allotment Keys and Translation setup on agency operations:
 - **Benefits:**
 - Agencies have greater control over managing and tracking budget allotments
 - Agencies can create budget allotments using Optional ChartFields
 - **Impact:**
 - **Track With Budget Option** provides:
 - If ChartField combination on the transaction being budget checked does not have an associated budget allotment, a **no budget exist error** is issued, and transaction will stop
 - If ChartField combination is found, then budget check looks to determine if sufficient budget is available; if not then, a **warning** is issued and transaction proceeds

CONTROL OPTION: TRACK WITHOUT BUDGET

Budget Allotments

Allotment Keys and Translations – Track Without Budget Option

- ▶ The following provides an overview of the Allotment Keys and Translation for **Track Without Budget Option**:

Key ChartFields	Value Required	Translation	Tree Level
Account	Required	Tree	<i>Agency Selected Tier</i>
Fund	Required	Tree	Transactional Fund Level
Budget Entity	Required	Not Applicable	
Category	Required	Not Applicable	
Organization	Optional	Not Applicable	
Grant	Optional	Not Applicable	
Contract	Optional	Not Applicable	
OA1	Optional	Not Applicable	
OA2	Optional	Not Applicable	

Budget Allotments

Allotment Keys and Translations – Track Without Budget Option

- ▶ **Agencies must enter all required key ChartFields on budget allotments**
- ▶ Below are the benefits and impact of Allotment Keys and Translation setup on agency operations:
 - **Benefits:**
 - Agencies can manage and track budget allotments
 - Agencies can create budget allotments using Optional ChartFields
 - **Impact:**
 - **Track Without Budget Option** allows:
 - If ChartField combination on the transaction being budget checked does not have an associated budget allotment, no error is issued and transaction proceeds
 - No errors are issued, therefore this control option is for tracking and reporting

CONTROL OPTIONS: HOW WILL BUDGET CHECKING RESPOND?

ORGANIZATION CHARTFIELD ROLLUPS FOR ALLOTMENTS

Organization ChartField Rollups for Allotments

- ▶ Organization Translation Tree Requirements
 - An Organization translation tree is required for **Control** and **Track with Budget** control options
 - Organization translation tree can be one of the following:
 - **Agency-wide level** Organization translation tree
 - If agency does not have a need to allot to Organization ChartField, the default agency-wide value will be assigned
 - **Agency-defined level** Organization translation tree
 - If the agency has a need to allot to the Organization ChartField, agency must define the nodes and the ranges that rollup on the translation tree

EXAMPLE

AGENCY CONFIRMATIONS – WRAP UP

Agency Confirmations – Wrap up

- ▶ Agencies will need to choose which Account ChartField Tier (*only one*) to use for budget allotments
- ▶ Agencies will need to reconfirm the allotments ledger control option
- ▶ Agencies will need to decide whether to use an agency-wide or agency-defined level structure for the Organization ChartField Translation Tree
