Life Cycle of Disinvestment

Reconciliation of CENTRAL FLAIR to Florida PALM

- ▶ Central FLAIR controls the Investment budget authority
- ▶ Florida PALM controls Disinvestment budget authority
- ▶ Pull and review reports to verify disinvestments
- ▶ Determine if errors were made, and if so, which system is out of balance
- ▶ Map out corrections if they are needed

Reconciliation-Florida PALM Corrections

- ▶ The original journal date must be used when correcting entries
- ▶ When reversing an entry, flip the signs
- ▶ Use the RED source code when applicable to adjust investment balances in Florida PALM
- ▶ Once reversed, reprocess the disinvestment
- ▶ Disinvest to the same Fund and Budget Entity as the original investment

Reconciliation-Update Departmental

- ▶ Departmental must be updated to reflect the disinvestment
- ▶ Agencies will process the receipt TR96 in Departmental
- ▶ Departmental should match Central

Data Dictionary

Data Dictionary Dashboard

Data Dictionary

The Data Dictionary contains PeopleSoft tables and data elements that are being utilized by Florida PALM reports and queries. The PeopleSoft Table details include PeopleSoft Record Definition, Field Order within a table, Technical Name, Functional Name, Data Type, Field Length, if the table data element is Required, Key Field, Protected Data, PeopleSoft Delivered Values, and Mapped Legacy Data Element.

Data Dictionary TOC

The Data Dictionary Table of Contents is a list of PeopleSoft Record Definitions, Table Names, Table Descriptions, and Number of Table Elements.

Key Tables

Key Tables is a quick reference guide to assist with creating and running queries that lists commonly used tables along with a highlight of the important data elements for that table. PeopleSoft table details include Table Name, identified Module, and Notes.

Functional Definitions

The Functional Definitions are available for individual reports and queries. A conceptual definition is provided for commonly used report fields. Additionally, any report or query with additional specific definition information is provided per individual field. Fields that are calculated are identified for reference.
