

Quick Steps to Clearing Your Cache

Chrome

Click on the **three dots** icon present in the top-right corner of your screen. Select **Delete browsing data**. Click the **More** drop-down and select **All time**. Check the boxes indicating the information to delete and click **Delete from this device**.

Edge

Click on the **three dots** icon present in the top-right corner of your screen. Select **Delete Browsing Data**. Choose **All Time** from the Time range drop-down. Check the boxes indicating the information to delete and click **Clear now**.

Firefox

Click on the **hamburger icon** present in the top-right corner of your screen. Go to **Settings > Privacy and Security**. Scroll down to the **History** section. Select **Clear History**. Choose **Everything** from the When drop-down. Check the boxes indicating the information to delete and click **Clear**.
