

DIFS

DIVISION OF INVESTIGATIVE & FORENSIC SERVICES

IN MEMORY OF

ACCELERANT DETECTION CANINE (ADC) MISTY

It is with heavy hearts that we share the passing of retired ADC Misty. During her 7 years of dedicated service Misty worked in the Bureau of Fire, Arson and Explosives Investigations, and was partnered with Detective Michael Douglas serving the South Central Region. Misty averaged over 100 calls for service per year and investigated 1,023 fires over the course of her career. She earned recognition as one of the most active ADC's in North America. Misty also worked in the community and schools on arson awareness efforts. She reached more than 11,000 students during her years of service.

Our deepest condolences, thoughts and prayers are with Misty's handler, Detective Michael Douglas, during this hard time.
