

MyMoney

What is a Bank?

When you are trying to find the right bank or credit union – ask some of these questions:

1. What are your hours?
2. Where are your other locations? Are they close to my home or are they easy to get to?
3. What kinds of programs are available to people like me?
4. Will I be able to see and use my money online?
5. What fees do you charge? Why do you charge these fees?

A bank or credit union is a place that can help keep your money safe.

Banks can be found all over the world.

Credit Unions can be found in your neighborhood.

Banks and credit unions can help you with...

- Checking accounts
- Savings accounts
- Loans
- Getting money from your account so you can use it
- Keeping your money safe

Banks and credit unions have to follow rules from the government. These rules help keep your money safe.

Things to Remember

Ask as many questions as you would like. Remember, you should pick a place that works best for you!
