9 within the city limits; the cost of any expanded or new capital facilities and
10 equipment for police, fire, public works, and park and recreation facilities
11 generated by such construction, the costs associated with such a determination,

15 development studies or related updates or reviews at such times as it deems
16 appropriate and as circumstances supporting adjustment may exist.

3
4 § 150.19 WAIVER OF IMPACT FEE AND PROVISION
5 FOR APPEAL.

6
7 (A) The City Commission may waive part or all of the impact fees imposed
8 on a project if it determines that the private space and facilities provided in the
9 proposed project are of such a nature as to reduce substantially the project's
10 impact upon the city's capital needs for expansion of public facilities; or that the
11 fees imposed by this subchapter upon any given project substantially exceed the
12 clearly demonstrated impact upon public facilities, including fire, public works,
13 and police facilities.

14
15 (B) In the event a project owner shall consider any impact fee applicable to it
16 to be excessive, the City Commission, on application, shall conduct a hearing to
17 consider alleged overpayment. It shall be the duty of the project owner to
18 demonstrate to the City Commission by clear and convincing evidence that
19 applicable impact fees are substantially excessive as applied to the project. The
20 Commission may adjust the fees based on the evidence presented.
21 (Ord. 279, passed 3-19-87)

22
23 § 150.20 TIME OF PAYMENT; REMEDIES FOR NON-PAYMENT; CREDIT OF
24 FEES.

25
26 (A) Impact fees for water and sewer pursuant to Chapter 50 and 55 shall be
27 due and payable at the time of issuance by the City of a site permit for new
28 construction. Modifications or change in use may require additional impact fees
29 and shall be verified by the Community Development Department prior to
30 issuance of any permit. No site or building permit shall be issued until water and
31 sewer impact fees have been verified and paid to the City.

32
33 ~~(A)~~ (B) All other City and County impact fees shall be due and payable at the
34 time of issuance by the city of a building permit for new construction. No building
35 permit on new construction shall be issued until all applicable impact fees have
36 been received by the city.

37
38 ~~(B)~~ (C) The fees collected pursuant to this subchapter shall be returned to the
39 then-present owner of the development if the fees have not been spent or
40 encumbered by the end of the sixth year from the date the fees were paid,
41 together with interest at the rate of 5-1/4% per annum.

42
43 ~~(C)~~ (D) All impact fees collected shall be deemed to accrue to the benefit of
44 the parcel or parcels of real property constituting a project for which a building
45 permit is issued. Further, if and in the event the new construction for which a
46 building permit is issued shall not take place and said building permit shall lapse,

1 any impact fees collected as an incident to the issuance of that building permit
2 shall be maintained by the city, to be credited against any impact fees which may
3 be charged at the time of the issuance of any building permit for new
4 construction upon or involving the property for which a previous building permit
5 has been issued and impact fees collected. If subsequent impact fees exceed
6 the amount collected and maintained by the city under any previous building
7 permit, then the additional sum shall be paid as a condition of and at the time of
8 the issuance of the subsequent building permit. If the impact fees so charged
9 are less than the impact fees initially collected and maintained, then at that time
10 the excess shall be refunded to the applicant. In the event that no subsequent
11 building permit shall be issued and impact fees due within six years from the
12 date of payment of impact fees under a building permit for which construction did
13 not take place, any impact fees so collected shall be returned to the then-present
14 owner of the development together with interest at the rate of 5¼% per annum
15 from the date of initial collection.

16 (Ord. 279, passed 3-19-87; Am. Ord. 523, passed 9-6-90; Am. Ord. 777, passed
17 12-21-95)

18
19 § 150.99 PENALTY.

20
21 Violations of this chapter and the standards set forth herein shall be
22 punishable by a fine of not more than \$500 or incarceration for not more than 90
23 days, or both. Each day that a violation exists shall constitute a new and
24 separate offense.
