## **SECTION I: ADMINISTRATIVE PURPOSE OF MANUAL.**

The administrative purpose of the Florida Workers' Compensation Health Care Provider Reimbursement Manual, 2004 Edition, is to provide reimbursement guidelines, codes and maximum reimbursement allowances for licensed physicians and health care providers rendering medically necessary services to Florida's injured employees.

This manual also contains reimbursement policies and payment methodologies for pharmacists and medical suppliers. The use of Physicians' Current Procedural Terminology (CPT<sup>®</sup>) or Healthcare Common Procedure Coding System (HCPCS) codes is not required to receive reimbursement for services rendered by these providers.

Federal facilities are exempt from the reimbursement guidelines and maximum reimbursement allowances provided in this manual for services rendered in federal facilities.

## **SECTION II: BASIC PROGRAM REQUIREMENTS.**

### **A. Provider Eligibility.**

1. Florida health care providers must comply with provider eligibility requirements in section 440.13, Florida Statutes (F.S.), in order to qualify for reimbursement for rendering medical services to injured employees.
2. Provider eligibility information and the required application may be obtained from the Agency for Health Care Administration.

### **B. Authorization.**

1. Florida health care providers, out-of-state providers and federal facilities must be authorized by the employer's workers' compensation carrier or a self-insured employer prior to rendering initial and remedial medical services or referring the injured employee to facilities or other certified health care providers.
2. Carriers must comply with the statutory requirements in section 440.13, F.S., in responding to authorization requests.
3. Emergency care, defined in section 395.002, F.S., does not require authorization by a carrier nor does a provider referral for emergency treatment resulting from emergency care. These are the only exceptions to the requirements of prior authorization for medical care and treatment.

### **C. Materials Adopted for Reference.**

1. The following publications are adopted for reference to the listings of descriptive terms and identifying codes for reporting medical services and procedures provided to injured employees by physicians and other health care providers:
  - a. Physicians' Current Procedural Terminology (CPT<sup>®</sup>), 2003 Professional Edition, Copyright 2002, American Medical Association.

- b. Current Dental Terminology (CDT-4), Fourth Edition, Copyright 2002, American Dental Association.
  - c. HCPCS 2003, Fifteenth Edition, Copyright 2002, Ingenix Publishing Group, for D codes, injectable J codes, and the other medical services and supply codes.
2. Physicians and providers shall use the codes and descriptions, modifiers, guidelines, definitions and instructions of the referenced CPT, CDT-4 and HCPCS in part for dental codes, injection codes, and the other medical services and supply codes. Physicians shall use the Category III CPT codes for emerging technology, services and procedures when available instead of a Category I CPT unlisted code. The code descriptors, guidelines, definitions, and instructions of the aforementioned references are not provided in this manual. Any modification to a code descriptor by the workers' compensation program shall be specified and shall take precedence over any descriptor contained in the referenced CPT, CDT-4 or HCPCS.
  3. Health care providers and medical suppliers shall use Category II HCPCS codes when a more specific Category I CPT code is not available to report professional services, procedures and supplies.

D. Medical Records.

1. Required documentation.

Unless instructed otherwise, it is the responsibility of all health care providers to furnish without charge, the following documentation to the carrier:

2. Additional written documentation.

If requested, a health care provider must provide additional written documentation to a carrier, without charge, when the medical necessity of medical care must be substantiated in more detail than the information contained in the medical record. Failure to forward the following information, when requested by the carrier, may result in the billed service being disallowed and not reimbursed.

- a. Objective findings that support the need for medical care, as well as continuing treatment.
- b. The estimated period of time and number of services required for treatment.

c. The anticipated benefits of the treatment to the patient.

3. Special carrier requests (Code 99080).

Carriers may request physicians to prepare special narrative reports or to complete information on forms not required by the Division of Workers' Compensation (Division) or the Agency for Health Care Administration (Agency). Prior to a provider's provision of a special request, the carrier and provider shall agree upon reimbursement for completion of the special report or form. Reimbursement for special requests shall be made by the carrier at the agreed upon reimbursement amount.

4. Copies of medical records.

a. A health care provider, when requested, shall provide a copy of the injured employee's medical records to a carrier or carrier's representative, attorney or rehabilitation staff. Reimbursement shall be made to a health care provider for medical records by the carrier as follows:

(1) Up to \$1.00 per page for providing copies of requested medical records, or for furnishing duplicates of required documentation, additional written documentation or other records previously submitted to the carrier.

(2) An additional fee up to \$1.00 per year for each year of records, when a year or more of medical records are requested by a carrier.

b. A health care provider, when requested, shall furnish an injured employee or the employee's attorney a copy of the employee's medical chart, records and reports.   - (b) For CRNAs, each fifteen (15) minutes of anesthesia time equals one (1) minute over a unit has a value of one-fifteenth (1/15) unit.
  - (c) For codes providing BV + TM, time units shall be calculated and added to the listed BV to determine the reimbursement for the anesthesia services.
  - (d) Only the BV units apply for codes without a time unit (TM) after the base unit. For some anesthesia services, time is not reported additionally. Therefore, additional units of time are not calculated for these codes when determining reimbursement.

c. Physical status modifiers.

- (1) Anesthesia services shall warrant additional reimbursement for units based upon the injured employee's condition and the complexity of the anesthesia service provided.
- (2) A physical status modifier shall be determined to rank the injured employee's condition. Additional reimbursement shall be based on the unit value for the specific physical status modifier (see Section IX. A.2.a. (5)).

| <u>Physical Status<br/>Modifiers</u>   | <u>Unit<br/>Values</u> |
|--|------------------------|
| P1 A normal healthy patient  | 0                      |
| P2 A patient with mild systemic disease  | 0                      |
| P3 A patient with severe systemic disease                                      | 1                      |
| P4 A patient with severe systemic disease<br>that is a constant threat to life | 2                      |

|    |   |   |
|----|---|---|
| P5 | A moribund patient who is not expected to survive without the operation         | 3 |
| P6 | A declared brain-dead patient whose organs are being removed for donor purposes | 0 |

d. Qualifying circumstances.

Anesthesia services, which are provided under particularly difficult circumstances, may warrant additional reimbursement for unit values based on unusual events. This subsection includes a list of important qualifying circumstances that impact the anesthesia service provided. These procedures are not reported alone but are reported as additional procedure numbers qualifying an anesthesia procedure for additional reimbursement. The listed unit value must be added to the basic unit values to obtain the reimbursement (see Section IX. A. 2.a.(5)). List each of the following codes separately in addition to the procedure code for the primary anesthesia procedure.

| <u>Qualifying Circumstances</u>  | <u>Unit Values</u> |
|--|--------------------|
| 99100 Anesthesia for patient of extreme age, under one year and over seventy | 1                  |
| 99116 Anesthesia complicated by utilization of total body hypothermia        | 5                  |
| 99135 Anesthesia complicated by utilization of controlled hypotension        | 5                  |
| 99140 Anesthesia complicated by emergency conditions (specify)               | 2                  |

2. Reimbursement for anesthesia services shall be made at the provider's usual charge or the anesthesia reimbursement allowance (ARA) listed in Part A, Section X in this manual.

a. Methodology for calculating the anesthesia reimbursement allowance (ARA) for procedures that are listed basic value (BV) + time (TM).

- (1) Select the applicable anesthesia procedure code and basic value from the schedule in Section X.
- (2) Determine the time units according to Section IX.A.1.b.(3) (ten [10] minutes = one [1] time unit for an anesthesiologist and fifteen [15] minutes = one [1] time unit for a CRNA).
- (3) Any minutes that exceed a whole unit are counted as partial units (fractions of units), such as one (1) minute is one-tenth (1/10) unit for an anesthesiologist and one-fifteenth (1/15) unit for a CRNA.
- (4) Determine any additional units that are justified by the physical status modifiers or qualifying circumstances addressed above in Section IX.A.1.c. and IX.A.1.d.

- (5) Add the basic value, time units, physical status modifier and any applicable qualifying circumstances to determine the total anesthesia value.
  - (6) Multiply the total anesthesia value by the conversion factor of \$29.49 to obtain the anesthesia reimbursement allowance.
- b. Methodology for calculating the anesthesia reimbursement allowance (ARA) for procedures that are listed only basic value (BV) and no time.
- Multiply the basic value by the conversion factor of \$29.49 to obtain the anesthesia reimbursement allowance.
- c. Methodology for calculating the anesthesia reimbursement allowance (ARA) for monitored anesthesia care.
- (1) Follow the guidelines, as applicable, in Section IX.A.2.a. as though anesthesia was administered (basic value + time).
  - (2) Multiply the total anesthesia value by the conversion factor of \$29.49 to obtain the anesthesia reimbursement allowance.

B. Reimbursement for medical direction provided by anesthesiologist.

1. Medical direction for CRNA employed by anesthesiologist.
  - a. Reimbursement shall be made to the anesthesiologist only for anesthesia services which are billed under the name and license number of the physician-employer.
  - b. No additional reimbursement shall be made for supervisory services rendered by the physician.
2. Medical direction for a CRNA not employed by the anesthesiologist.
  - a. A CRNA shall bill on the number of units of time to perform the surgical procedure. The reimbursement shall be calculated by dividing the total anesthesia time by fifteen (15) minute intervals for CRNAs.
  - b. Reimbursement shall be made to an anesthesiologist for providing medical direction, including preoperative and postoperative evaluations to a CRNA not employed by the physician.
    - (1) Medical direction shall be billed by the anesthesiologist by adding a unique workers' compensation modifier -QY to the anesthesia procedure code.
    - (2) Reimbursement for medical direction by anesthesiologists shall be the provider's usual charges, or fifty (50) percent of the anesthesia reimbursement allowance listed in Part A, Section X in this manual.

**SECTION X**

**SCHEDULE OF MAXIMUM REIMBURSEMENT  
ALLOWANCES**

## **MAXIMUM REIMBURSEMENT ALLOWANCES**

### General Instructions:

- I. Part A of Section X establishes the Maximum Reimbursement Allowances (MRAs) for all services and procedures performed by certified providers, including anesthesiology service providers under state licensure but excluding physicians licensed under Chapters 458 and 459, Florida Statutes. Appropriate reimbursement for a procedure code is listed in the MRA column to the right of each procedure.
- II. Part B of Section X establishes the maximum reimbursement allowances for all surgical procedures.

Part C of Section X establishes the maximum reimbursement allowances for physicians licensed under Chapter 458 or Chapter 459.

1. Determine the county location of the provider according to the Medicare locality map in Appendix E.
2. Determine whether the procedure should be paid according to the non-facility MRA (services rendered in a physician's office or laboratory) or the facility MRA (services rendered in a hospital setting, ambulatory surgical center, skilled nursing facility, inpatient psychiatric facility, and comprehensive [Level III] outpatient rehabilitation facility).
3. Identify the specific CPT code in the far left column of the matrix and the correct locality/non-facility or facility column across the top row.
4. Locate the point of intersection for the procedure code column and the appropriate non-facility or facility locality row on the reimbursement matrix.
5. Compare the amount allowed at the point of intersection on the matrix to the amount listed in the 2003 MRA column.
6. Reimburse the provider the greater of the amount in the 2003 MRA column or the amount in the column at the point of intersection.

**APPENDIX C**  
**MODIFIERS**

## APPENDIX C. MODIFIERS.

1. Modifiers change the basic services reported and require different reimbursements from the MRAs listed for the unmodified basic services. Modifiers are two (2) characters: alpha, numeric or an alpha-numeric combination.
2. The CPT has a two-digit numeric modifier series. The modifier, when appropriate, must be added to the procedure code of the basic procedure.
  - a. Reimbursement shall be made for all of the two-digit numeric modifiers provided in the CPT, when the service is medically necessary.
    - (1) The guidelines in the CPT must be followed for each modifier reported by the provider.
    - (2) In some situations, it may be necessary for the provider to submit a report with the bill to explain the circumstances in order for a carrier to determine payment.
    - (3) Certain modifiers shall be reimbursed the provider's charge, or the listed MRA, whichever is less.
  - b. There is no additional reimbursement for any two-digit CPT Level II modifiers reported by the provider.
3. In addition to the CPT modifiers, there are three (3) workers' compensation unique modifiers for reporting a change to the basic service. These two (2) character alpha modifiers include the following:
  - a. Modifier –FC (Facility Charge/"Supervision and Interpretation" Radiology Services)
 

When a radiology procedure's descriptor indicates that the service is for "supervision and interpretation" and the procedure is performed by a radiologist in a radiology facility, the facility charge shall be billed by adding modifier –FC to the basic radiology procedure code. Additional reimbursement shall be made by BR to a radiologist in an independent radiology facility for a facility charge.
  - b. Modifier –TC (Technical Component)
 

When the technical component of a procedure (personnel, materials, equipment, space and supplies) is rendered by a health care provider other than the physician performing the professional component of the procedure, the provider shall bill the technical component by adding modifier –TC to the appropriate procedure code. Reimbursement shall be the listed MRA or contracted price.
  - c. Modifier –QY (Medical Direction/CRNA Anesthesia Services)
 

When an anesthesiologist is not personally administering the anesthesia but is providing medical direction for the anesthesia services provided by a nurse anesthetist, not employed by the anesthesiologist, the physician shall bill for the medical direction service by adding modifier –QY to the anesthesia procedure code. The medical direction service includes the preoperative and postoperative anesthesia care. Reimbursement for medical direction services by an anesthesiologist shall be fifty (50) percent of the anesthesia reimbursement allowance or contracted price.
