

Florida Division of Workers' Compensation 2022 COVID-19 Report

Data Summary as of April 30, 2022

Division of Workers' Compensation's Mission

To actively ensure the self-execution of the workers' compensation system by educating system participants of their rights and responsibilities; by leveraging data to deliver exceptional value; and by holding participants accountable for fulfilling their obligations.

Introduction

The Department of Financial Services, Division of Workers' Compensation (DWC) is pleased to provide the May 2022 report on the effects of COVID-19 on Florida's Workers' Compensation System. The DWC will continue to update this report as new data are reported and analyzed.

COVID-19 should be reviewed through the lenses of three key terms within the workers' compensation law: accident, injury, and occupational disease. These terms are defined in subsections 440.02(1), (19), and subsection 440.151(2), F.S., respectively.

The data in this report is organized by Claim Frequency, Claim Costs & Characteristics, Coverage Information, and Telemedicine. Claim Frequency and Claim Costs & Characteristics are workers' compensation claim measures, while the Coverage Information provides a unique insight on the potential economic impact due to COVID-19. Telemedicine represents how health care providers and carriers may be adapting in the provision of medical treatment to injured workers.

We hope you find the data informative and beneficial. If you would like to provide any feedback, please email us at Workers.CompService@myfloridacfo.com.

The DWC plans to stop publishing these reports after the June 2022 report. Information and data on the effects of the COVID-19 will be published in future annual reports.

Commonly Used Terms and Their Meanings

- Carrier: For purposes of this report, an insurance company or group self-insured fund approved by the Florida Office of Insurance Regulation to write workers' compensation insurance. The term does not include an employer who is authorized to self-insure.
- Closed Indemnity Claim: The claim has a status indicator that denotes the claim has been closed.
- DOA: Date of Accident
- FDOH: Florida Department of Health | <https://floridahealthcovid19.gov/>
- DWC: Division of Workers' Compensation
- DWC-9 (Form DFS-F5-DWC-9): Health Insurance Claim Form (HCFA 1500 or CMS 1500) filed by Health Care Providers
- EAO: Bureau of Employee Assistance and Ombudsman Office
- HCP: Health Care Providers
- IW: Injured Worker
- NAICS Code: A classification within the North American Industry Classification System (NAICS) that was developed for use by Federal Statistical Agencies for the collection, analysis and publication of statistical data related to the US Economy. The code indicates a company's primary line of business. Primary line of business is the one that generated the highest revenue at a specific location in the past year.
- PFB: Petition for Benefits
- SDTF: Special Disability Trust Fund
- SI: Self-Insurer

Notes for the Reader

- The Florida workers' compensation data is changing and maturing over time, so the following information may change in future publications as more data matures and becomes available. The data used in this summary is not fully matured for the period of 1/1/2020 to 4/30/2022 and will change over time.
- Date range data are based on 1/1/2020 to 4/30/2022 for COVID-19 and when making comparison to past performance. The data is valued as of 5/2/2022.
- COVID-19 indemnity claims are based on a combination of Cause of Injury Code 8300 and Nature of Injury Code 8300 in conjunction with keywords reported in the accident description of the claim sent to the Division of Workers' Compensation (DWC).
- Indemnity claims are grouped by the date of accident (DOA).
- The source for the medical billing data is based on the Health Provider Claim Form (DWC-09) bills reported to DWC.
- Telemedicine data is grouped by date of service and is based on DWC-09 paid bills filed with DWC that met a combination of telemedicine markers.
- This summary does not include Medical Only claims in any claim counts or benefits paid.
- The data for exemption applications is grouped by calendar year based on the date received by DWC.

- The grouping for counts by industries are based on NAICS Code of Business. The associated total paid benefits by industry includes indemnity & medical benefits.

- 440.02(1), F.S., states that “Accident” means only an unexpected or unusual event or result that happens suddenly. Disability or death due to the accidental acceleration or aggravation of a venereal disease or of a disease due to the habitual use of alcohol or controlled substances or narcotic drugs, or a disease that manifests itself in the fear of or dislike for an individual because of the individual’s race, color, religion, sex, national origin, age, or handicap is not an injury by accident arising out of the employment. Subject to s. 440.15(5), F.S., if a preexisting disease or anomaly is accelerated or aggravated by an accident arising out of and in the course of employment, only acceleration of death or acceleration or aggravation of the preexisting condition reasonably attributable to the accident is compensable, with respect to any compensation otherwise payable under this chapter. An injury or disease caused by exposure to a toxic substance, including, but not limited to, fungus or mold, is not an injury by accident arising out of the employment unless there is clear and convincing evidence establishing that exposure to the specific substance involved, at the levels to which the employee was exposed, can cause the injury or disease sustained by the employee.

- 440.02(19), F.S., states that “Injury” means personal injury or death by accident arising out of and in the course of employment, and such diseases or infection as naturally or unavoidably result from such injury. Damage to dentures, eyeglasses, prosthetic devices, and artificial limbs may be included in this definition only when the damage is shown to be part of, or in conjunction with, an accident. This damage must specifically occur as the result of an accident in the normal course of employment.

- 440.151(2), F.S., states that whenever used in this section the term “occupational disease” shall be construed to mean only a disease which is due to causes and conditions which are characteristic of and peculiar to a particular trade, occupation, process, or employment, and to exclude all ordinary diseases of life to which the general public is exposed, unless the incidence of the disease is substantially higher in the particular trade, occupation, process, or employment than for the general public. “Occupational disease” means only a disease for which there are epidemiological studies showing that exposure to the specific substance involved, at the levels to which the employee was exposed, may cause the precise disease sustained by the employee.

Compensable Death Claims

COVID-19 Claim Counts by Gender of IW | Tiered Ages of IW

This table includes information for compensable and denied claims.

Gender & Age Range	Claim Count
Female	34,236
15 to 19	512
20 to 29	7,233
30 to 39	9,017
40 to 49	7,728
50 to 59	6,610
60 to 69	2,701
70 plus	368
no date of birth	67
Male	36,860
15 to 19	425
20 to 29	8,114
30 to 39	11,166
40 to 49	8,729
50 to 59	6,452
60 to 69	1,706
70 plus	229
no date of birth	39
Not Indicated	1,056
15 to 19	12
20 to 29	206
30 to 39	329
40 to 49	245
50 to 59	177
60 to 69	65
70 plus	10
no date of birth	12
Grand Total	71,926

COVID-19 | Employee Assistance & Ombudsman Office Interactions

The Bureau of Employee Assistance and Ombudsman Office (EAO) informs injured workers about the workers’ compensation law and assists them in informally resolving claim disputes. EAO teams conduct fact-finding reviews, analyze claim files, research case law, promote open communication between parties, and help parties to understand their statutory responsibilities.

EAO conducted 1,976 COVID-19 and telemedicine related interactions with Florida’s workers’ compensation system participants.

COVID-19 Injured Worker Helpline Interactions

COVID-19 Petition for Benefits (PFB)

EAO also assists stakeholders with guidance on the Petition for Benefits (PFB) process.

DWC has identified that PFBs have been filed on 330 claims:

- Compensable claims – 238 | Denied claims – 92

The percentage of PFB filed for all COVID-19 claims is 0.46%.

3. Coverage Information

Exemption Applications Received

Exemption Applications Received 2020 & 2021

Construction Applications 2020 Total - 100,645
 Construction Applications 2021 Total - 105,122

Non-Construction Applications 2020 Total - 68,419
 Non-Construction Applications 2021 Total - 76,023

2020 Applications Total - 168,973
 2021 Applications Total - 181,145

Proof of Coverage | Policy Filings, Reinstatements (Renewals), & Cancellations
