Mr. Tom Krick  
Manager  
State of Florida  
Special Disability Trust Fund Unit  
200 East Gaines Street  
Tallahassee, FL 32399-0336

Dear Mr. Krick:

We are pleased to submit to you our final report on the Actuarial Review of the State of Florida Special Disability Trust Fund as of June 30, 2018.

We greatly appreciate the cooperation and courtesies extended to us during the course of this engagement. Please do not hesitate to contact us if you have any questions about the report.

Thank you for the opportunity to work with you on this project.

Sincerely,

Bob Ingco, FCAS, MAAA, CPCU, ARM  
President

**EXECUTIVE SUMMARY**

***Special Disability Trust Fund***

***Actuarial Review***

***June 30, 2018***

---

**Purpose**

The State of Florida Department of Financial Services (“the Department”) has engaged the services of AMI Risk Consultants, Inc. (“AMI”) to perform the following for the Florida Special Disability Trust Fund (“the Fund”):

- Analyze the Fund’s exposure and loss history.
  - Estimate the Fund’s *outstanding claim liability* at June 30, 2018, on an undiscounted and discounted basis.
  - Estimate the number of claims and total amount of expenditure from the Fund (projected approvals) that will occur during prospective fiscal years 2018/2019, 2019/2020, 2020/2021, 2021/2022, and 2022/2023.
  - Provide a summary of claim statistics as of June 30, 2018 for the following:
    - Change in the total number of notices of claim on file with the Fund
    - The number of newly filed notices of claim
    - Change in the number of proofs of claim processed by the Fund
    - Fee revenues refunded and revenues applied to pay down the liability of the Fund
    - Average time required to reimburse accepted claims
    - Average administrative cost per claim.
  - Determine the dollar amount of costs avoided through the audit process during the past twelve years.
-

---

**Terminology**

The term “*reserves*” or “*loss reserves*” is commonly used to mean outstanding claim liability as of a given date, and may appear in this report and/or in the attached exhibits with that meaning.

---

**Acknowledgment  
of Qualifications**

Aguedo M. (Bob) Ingco is a consulting actuary and President of AMI Risk Consultants, Inc. He is a Fellow of the Casualty Actuarial Society and a Member of the American Academy of Actuaries. Mr. Ingco meets the qualification standards of the American Academy of Actuaries to provide the estimates in this report.

---

**Distribution  
and Use**

This report is intended for use by the Fund’s management for financial reporting, budgeting and other internal requirements. We disclaim the use of this report for any other purpose.

We suggest that the user of this report review a complete copy as parts considered out of context might be misleading.

---

---

## Conclusions

### Outstanding Claim Liability at June 30, 2018

We estimated the following outstanding claim liability at June 30, 2018. Also shown below is the Fund's estimated unfunded claim liability given its cash balance at that date.

**Estimated Outstanding Claim Liability**  
**As of June 30, 2018**  
**(\$000's)**

	<b>Total Outstanding Claim Liability</b>	<b>Unfunded Outstanding Claim Liability</b>
<b>Undiscounted</b>	\$535,849	\$437,022
<b>Discounted</b>	377,327	278,500

Discounted estimates assume an average annual rate of return on invested assets of **4%**, as selected by the Fund. All estimates are shown at the **expected confidence level**, i.e. there is no margin added to our central or midpoint estimate to allow for potential adverse development.

### Analysis of Change in Outstanding Liability

The components of the change in the **undiscounted** outstanding liability are outlined below. Since June 30, 2017 the Fund issued claim payments of **\$34.1 million** and experienced favorable claim development (i.e. reduced ultimate loss estimates) of **\$73.3 million**.

**Change in Undiscounted Outstanding Liability**  
**(\$000's)**

	<b>Total Outstanding Liability</b>	<b>Unfunded Outstanding Liability</b>
<b>Prior estimate at 6/30/2017</b>	<b>\$643,228</b>	<b>\$554,004</b>
Claim payments during FY 2017	(\$34,109)	(\$34,109)
Change in estimated ultimate losses	(\$73,270)	(\$73,270)
Change in Fund's cash balance	N/A	\$9,604
<b>Current estimate at 6/30/2018</b>	<b>\$535,849</b>	<b>\$437,022</b>
\$ Change between 6/30/2017 and 6/30/2018	(\$107,379)	(116,983)
% Change between 6/30/2017 and 6/30/2018	-16.7%	-21.1%

**Conclusions  
(continued)**

*Projected Cash Flow from Paid Losses (Approvals)*

Our estimated cash flow from paid losses during the next five fiscal years is as follows. These are estimates of the cash required for claim payments that will be approved and issued during each of the next five years. The table shows a range of indicated payments and our selected point estimate. As requested, the estimates are separated between “settlements” and “payments other than settlements”.

**Projected Paid Loss Cash Flow  
FOR SETTLEMENTS  
(\$000's)**

	<b>Low Estimate</b>	<b>High Estimate</b>	<b>Selected Estimate</b>
<b>FY 2018/2019</b>	\$2,762	\$8,742	\$3,776
<b>FY 2019/2020</b>	2,616	8,281	3,577
<b>FY 2020/2021</b>	2,447	7,745	3,345
<b>FY 2021/2022</b>	2,299	7,276	3,142
<b>FY 2022/2023</b>	2,144	6,787	2,931

**Projected Paid Loss Cash Flow  
FOR PAYMENTS OTHER THAN SETTLEMENTS  
(\$000's)**

	<b>Low Estimate</b>	<b>High Estimate</b>	<b>Selected Estimate</b>
<b>FY 2018/2019</b>	\$26,415	\$30,732	\$30,550
<b>FY 2019/2020</b>	25,024	29,114	28,941
<b>FY 2020/2021</b>	39,400	27,228	27,066
<b>FY 2021/2022</b>	21,984	25,578	25,426
<b>FY 2022/2023</b>	20,507	23,859	23,717

**Projected Paid Loss Cash Flow  
FOR ALL PAYMENTS  
(\$000's)**

	<b>Low Estimate</b>	<b>High Estimate</b>	<b>Selected Estimate</b>
<b>FY 2018/2019</b>	\$29,177	\$39,474	\$34,325
<b>FY 2019/2020</b>	27,640	37,396	32,518
<b>FY 2020/2021</b>	25,849	34,973	30,411
<b>FY 2021/2022</b>	24,283	32,853	28,568
<b>FY 2022/2023</b>	22,651	30,645	26,648

**Conclusions  
(continued)**

Claim Statistics as of June 30, 2018

The table below summarizes FY 17-18 claim statistics historically tracked by the Fund. The prior year statistics are shown for comparison.

During the past year the number of open claims ***dropped significantly***. The Fund was able to locate death records for a number of claimants and close those claims. ***One new proof of claim*** was filed during 2018.

Due to the drop in the number of open claims, the ***average administrative cost per open claim has risen***, and will continue to rise as additional claims are closed.

The average time to reimburse accepted claims was ***4.21 months during the 2017/2018 year***. This was a ***reduction of roughly 25 days*** compared to the prior year.

**Florida Special Disability Trust Fund  
Summary of Historical Claims Records**

Item	FY 17-18	FY 16-17
Number of Open Claims	2,673	4,400
Number of Notices Filed	1	0
Number of Newly Received Proofs of Claim Processed by the Fund	1	0
Fee Revenues Received from 7/1 to 6/30	*	\$0
Fee Revenues Refunded from 7/1 to 6/30	*	\$0
Fee Revenues Applied to Pay Down Liability in FY	*	\$0
Average Time Required to Reimburse Accepted Claims Paid (in months)	4.21	5.06
Average Administrative Cost per Claim **	\$578.67	\$345.65

\*Fees no longer required as of 10/1/2016.

\*\*Average Administrative Cost per Claim = \$1,546,790 /2,673 .

Costs Avoided Through the Audit Process

The table below shows the total amounts requested and disallowed for each of the last twelve fiscal years. In total **\$86.3 million** was disallowed through the audit process.

**Costs Avoided Through the Audit Process  
(\$000's)**

Fiscal Year	\$Requested	\$ Disallowed	% Disallowed
2006/2007	\$321,671	\$26,916	8.4%
2007/2008	144,440	15,278	10.6%
2008/2009	75,658	5,105	6.7%
2009/2010	39,023	3,321	8.5%
2010/2011	79,826	7,428	9.3%
2011/2012	64,013	5,261	8.2%
2012/2013	63,706	5,803	9.1%
2013/2014	60,331	4,321	7.2%
2014/2015	67,107	4,391	6.5%
2015/2016	48,958	3,721	7.6%
2016/2017	39,804	2,306	5.8%
2017/2018	36,405	2,422	6.7%
<b>Total</b>	<b>\$1,040,942</b>	<b>\$86,272</b>	<b>8.3%</b>

---

**Conclusions  
(continued)**

Open Claim Population Statistics as of June 30, 2018

The following table presents summary statistics for the open claim population at June 30, 2018. The claims are segmented based on the length of time since the last payment by the Fund. The group definitions are:

- **Active claims** – at least one payment in the past five years
- **Recently dormant claims** – most recent payment between 6 and 10 years ago
- **Long dormant claims** – most recent payment more than 10 years ago
- **Claims with no payment history.**

**Open Claim Statistics  
(\$000's)**

	<b>Active Claims</b>	<b>Recently Dormant Claims</b>	<b>Long Dormant Claims</b>	<b>Claims with no Payment History</b>	<b>Total</b>
Open Claim Count	1,141	80	723	729	2,673
Average Claimant Age	73	70	67	67	69
Average Claimant Life Expectancy (in years)	10	11	12	13	11
Average Payment**	\$25.144	\$7.658	\$20.586	N/A	\$24.358

\*\* Average Payments is the 5-year average for Active, and most recent annual payment for Dormant. Life Expectancy assumes disabled life mortality.

Only **43%** of open claims appear to be “active”, and the average life expectancy of those claimants is **10 years**. It is certainly possible for some “dormant” claims to resurface and submit payment requests. The average life expectancy among “dormant” claimants is only slightly longer than the “active” group at **11-13 years**.

Based on an updated mortality table (discussed on Page 10) there is a **one-year increase in the average life expectancy** of claimants overall this year.

---

---

**Reliance and  
Limitations**

In performing the analysis, we relied without audit or verification on the following information furnished by the Fund. We reviewed the data received for reasonableness and consistency with prior valuations.

- Approvals, requests, and proofs, by accident year as of June 30, 2018.
- Fund balance at June 30, 2018.
- Fund's administrative expenses for fiscal year 2018.

Our contact at the Fund is Tom Krick, Manager of the Special Disability Trust Fund Unit.

*Paid Approval Development History*

We relied on the paid approval development history as shown in Milliman's June 30, 2014 report, and augmented that history with incremental paid approvals from FY 2015 to FY 2018. Milliman's report should be referenced for a discussion of how that development triangle was initially constructed. The selected paid development factors applied this year are AMI's selections based on a consideration of both long-term and short-term average factors.

*Risk of Adverse Deviation*

In projecting loss emergence, we assumed that historical claim amount and claim count development patterns are predictive of future patterns for the Fund. Actual future development may deviate from historical patterns.

We cannot reasonably estimate the uncertainties that ultimate liabilities are subject to. Therefore, while we believe our assumptions and methods are reasonable, we cannot guarantee that actual results will not differ, perhaps substantially, from our estimates. ***Where a range of estimates is provided, such as for paid loss cashflow projections, attention should be given to the breadth of the range as an indication of the degree of uncertainty in the selected estimate.***

**Section II**  
**ACTUARIAL REPORT**

---

**Background**

The Florida Special Disability Trust Fund (“the Fund”) was established to encourage the employment of workers with pre-existing permanent physical impairments. In particular, the Fund reimburses employers (or their carriers) for the excess in workers compensation (“WC”) benefits they have provided to an employee with a pre-existing impairment who is subsequently injured in a WC accident. As part of the reimbursement process, the Fund determines the eligibility of claims as well as audits and processes reimbursement requests.

Claims with an accident date on or after 1/1/98 are excluded from reimbursement by the Fund. Claims with an accident date before 1998 are still eligible to seek reimbursements. While most eligible claims have been reported, it is still possible for new claims to be submitted, for closed claims to be reopened, and for open but recently inactive claims to seek additional reimbursements. Therefore, the Fund is responsible for the liabilities associated with both reported and unreported eligible claims.

After a claim has been accepted, a request for reimbursement of expenses may be submitted annually. The Fund generates revenues to pay claims from a single source. That source is an assessment applied to the net written premium of Florida WC insurance carriers. The basis for determining the assessment rate is established by Florida statute. In the past, there was an additional potential source of revenue from flat fees for new notices and proof of claim submissions. However, effective October 1, 2016 flat fees for new notices and proof of claim submissions are no longer required.

The statute governing the assessment rate was revised in 2014 and states the following: “By July 1 of each year, the department shall calculate the assessment rate, which shall be based upon the net premiums written by carriers and self-insurers, the amount of premiums calculated by the department for self-insured employers, the sum of the anticipated disbursements and expenses of the Special Disability Trust Fund for the next calendar year, and the expected fund balance for the next calendar year.” The revised statute effectively eliminated the explicit assessment formula previously used (see description below) and also changed the assessment rate cap to 2.50%. The Fund collects assessments that are of a sufficient magnitude so that the Fund balance has an expected surplus each year.

---

---

**Actuarial  
Approach*****Ultimate Losses By Accident Year – Multiple Methods Applied***

To estimate ultimate losses by accident year, we applied the following actuarial approaches.

- *Paid Loss Development Approach*
- *Development Approach Based on Counts and Amounts of Requests*
- *Development Approach Based on Counts and Amounts of Payments*
- *Life Annuity Approach.*

***Paid Loss Development Approach (PLDA)***

Under the PLDA, paid losses were multiplied by loss development factors to estimate ultimate losses.

We separately analyzed two categories of claims: First and Final (“F & F”) and Other than First and Final (“Other than F&F”).

F&F are claims are characterized as those where a single payment amount is established at the time of approval of a claim and is expected to be the only payment made. Payments on Other than F&F claims typically occur over a longer time horizon than F&F claims.

***Development Approach Based on Requests and Payments***

This method is similar to PLDA. Counts of requests (or payments) by accident year are developed to ultimate based on their past development history. Similarly, average requested amounts (or average payments) by accident year are developed to ultimate. Ultimate losses for an accident year are then estimated as the product of ultimate counts and ultimate average amounts.

Ultimate counts and average amounts of payments were estimated separately for F&F and Other than F&F.

---

---

**Actuarial  
Approach  
(continued)**

*Life Annuity Approach*

We calculated an explicit reserve on a claim by claim basis for each “active” claim (as previously defined). The reserve was determined by:

- Claimant’s age and life expectancy at June 30, 2018
- Claimant’s average annual payment over the past five fiscal years.
- An assumed annual rate of inflation in claim costs of **5%**.

For life expectancy, we used the table of Aggregate Probability of Death and Expected Future Time on Combined DI and OASI Rolls for Disabled Workers from the Actuarial Study No. 123 located on the Social Security Administration website:

[https://www.ssa.gov/oact/NOTES/pdf\\_studies/study123.pdf](https://www.ssa.gov/oact/NOTES/pdf_studies/study123.pdf).

The title of the study is “Social Security Disability Insurance Program Worker Experience”. A copy of the table is attached in Appendix B, following this written report.

To this reserve we added the amount of “pipeline” payments (approved but not yet paid) pending at June 30, 2018. Such payments continue to be a liability of the Fund’s until actually issued.

Also added was a contingency reserve for “dormant” claims to allow for the possibility that some small percentage may re-emerge at a later date. The reserve was set at the sum of the most recent annual payment for each “dormant” claim. No inflation adjustment was applied.

We did not include any provision for either reopened claims or pure (unreported) IBNR. Historical reopened payments appear to be immaterial and only one claim notice was filed in the past year.

The calculated reserves were summarized by accident year and added to cumulative payments to estimate ultimate losses.

---

---

**Actuarial  
Approach  
(continued)**

***Selected Ultimate Losses and Outstanding Claim Liabilities***

Ultimate losses by accident year were selected from the results of the described approaches. Cumulative paid losses were subtracted from the selected ultimate to estimate total undiscounted loss reserves.

In selecting ultimate losses equal weight was given to each of the methods described, except for the method based on projected ultimate counts and average amounts of requests. No weight was given to this method because the indications by accident year were inconsistent with the remaining three methods.

***Paid Loss Cashflow Projections***

We applied the following method to estimate the cashflow from paid losses during the next five fiscal periods:

- Paid loss development.

Paid loss development factors were selected based on 3-year and 5-year averages to reflect current payment patterns.

Cashflow was estimated separately for F&F and Other than F&F claims. A range of +/- 15% was selected judgmentally around the point estimate indicated by the paid loss development approach.

Projected cashflow estimates were separated between “payments for settlements” and “other payments” based on the percentage distribution among payments made during the most recent five fiscal years.

---

---

**Attached Exhibits**

We prepared the attached Summary Exhibit to summarize the results of our calculations. There are eight (8) pages to the Summary Exhibit. Each page relates to the following:

- Page 1 shows the summary of loss reserves and unfunded liability at June 30, 2018 on both an undiscounted and discounted basis.
- Page 2 shows the calculation of undiscounted and discounted reserves by accident year, and by type of claim – first and final and other than first and final.
- Page 3 shows the calculation of selected ultimate losses based on the calculated ultimates of methods previously described.
- Page 4 shows the summary of paid cash flows during the next five fiscal years, separated between expected “settlements” and “payments other than settlements”.
- Page 5 displays the historical claim statistics as of June 30, 2018.
- Page 6 reconciles the undiscounted reserves as of June 30, 2018 with the undiscounted reserves as of June 30, 2017.
- Page 7 shows the comparison of ultimate losses between June 30, 2018 and June 30, 2017 by accident year.
- Page 8 shows the comparison of paid losses between June 30, 2018 and June 30, 2017 by accident year.

We prepared Exhibit I to apply the PLDA previously described. There are three (3) pages to this exhibit:

- Page 1 shows a summary of indicated reserves on an undiscounted and discounted basis, and by type of claim category (first and final and other than first and final).
  - Page 2 shows calculation of ultimate losses using the PLDA, for first and final claims.
  - Page 3 shows calculation of ultimate losses using the PLDA, for other than first and final claims.
-

---

**Attached  
Exhibits  
(continued)**

We prepared Exhibit II to calculate the ultimates based on requested counts and average amounts. There are two (2) pages to this exhibit:

- Page 1 shows the calculation of ultimate request count.
- Page 2 shows the calculation of ultimate average requested amount.

We prepared Exhibit III to calculate the ultimates based on paid counts and average payments. There are four (4) pages to this exhibit:

- Pages 1 and 2 show the calculation of ultimate average paid amount for F&F claims, and Other than F&F claims, respectively.
- Pages 3A and 3B show the calculation of ultimate payment count for F&F claims, and Other than F&F claims, respectively.
- Page 4 shows the calculation of ultimate notices.

We prepared Exhibit IV to show the calculation of loss development factors:

Pages 1A-1E – Paid losses/approvals of Other than F&F claims

Pages 2A-2E - Paid losses/approvals of F&F claims

Pages 3A-3C – Count of notices

Pages 4A-4C – Count of requests

Pages 5A-5C – Requested amount

Pages 6A-6C – Average requested amount

Pages 7A-7C – Count of Payments for Other than F&F claims

Pages 8A-8C – Count of Payments for F&F claims

Pages 9A-9C – Average Amount Paid for Other than F&F claims

Pages 10A-10C – Average Amount Paid for F&F claims

We prepared Exhibit V to show the results of the reserve calculation using the life annuity method.

---

---

**Attached  
Exhibits  
(continued)**

*Paid Loss Cashflow*

Exhibit VI shows the calculation of paid loss cashflow during the next five fiscal years, separately for F&F and Other than F&F.

*Calculation of Discount Factors*

We prepared Appendix A to show the calculation of discount factors. There are two pages to this Appendix:

- *Page 1 – First and Final Claims*
- *Page 2 – Other than First and Final Claims*

*Mortality Table for Disabled Workers*

We included Appendix B to show the mortality table we used for the calculation of reserves using the life annuity approach. This table was excerpted from the study “Social Security Disability Insurance Program Worker Experience” posted in the Social Security Administration website.

*Costs Avoided Through the Audit Process*

The calculation of costs disallowed is included as Appendix C.
